Jesus Christ stepped down from his heavenly throne for more than salvation at death. He came with kingdom purposes to reconcile and restore mankind as sons and daughters of the King Most High, bringing his heavenly kingdom down to earth through them. To join the King of kings in the work He is doing today, we must understand the work He has already done through the cross. To walk with kingdom-purpose as our Lord

commanded and demonstrated to us requires complete faith and dependence on Him. It requires seeking Him and believing his Word. To be children of our Fathers business, we must behold our King.

Is your church prepared to care for individuals who have experienced various forms of abuse? As we continue to learn of more individuals experiencing sexual abuse, domestic

violence, and other forms of abuse, it's clear that resources are needed to help ministries and leaders care for these individuals with love, support, and in cooperation with civil authorities. This handbook seeks to help the church take a significant step forward in its care for those who have been abused. Working in tandem with the Church Cares resources and videos, this handbook brings together leading evangelical trauma

counselors, victim advocates, social workers, attorneys, batterer interventionists, and survivors to equip pastors and ministry leaders for the appropriate initial responses to a variety of abuse scenarios in churches, schools, or ministries. Though the most comprehensive training is experienced by using this handbook and the videos together, readers who may be unable to access the videos can use this

handbook as a stand-alone resource. *Before I Fall* Houghton Mifflin Harcourt Nothing is colder than death. Or is it... In *Dead Wrong*, the third book in the continuing mystery series featuring reporter Samantha Church, Samantha is back and turns her attention to helping Abby Love, a young funeral home employee who has come to her with claims that the mortuary is involved in illegally harvesting body

parts. Abby claims that funeral home employees and others with access to the recently deceased are profiting from the dead by secretly dismembering corpses, taking tissues, organs and non-organ body parts from knees, spines, bones to skin without the knowledge or consent of family members to sell on the black market. Setting her initial skepticism aside, Sam and Abby begin an investigation, which soon reveals that trafficking

body parts illegally harvested from the dead is, in fact, a thriving and lucrative, underground business driven by a growing demand for human bones and tissue- and is happening at the mortuary where Abby works. Their undercover investigation exposes a corrupt mortuary, but who is involved in the clandestine operation remains shrouded in ambiguity. Determined to uncover the truth and hunt down those responsible,

Sam and Abby continue their pursuit-despite that it leads the pair down a winding and sinister path of malevolence and malice, which ends up having dire consequences for everyone involved. Chrysostom's Devil Thomas & Mercer This book presents case studies and empirical data of a phenomenon which increasingly gains popularity in Western societies: deconversion. There is, the authors argue, no better word than

deconversion to describe processes of disengagement from religious orientations because these have much in common with conversion. Termination of membership may eventually be the final step of deconversion, but it involves biographical and psychological dynamics which can and need to be reconstructed by qualitative approaches and analyzed by quantitative instruments. In the Bielefeld-based Cross-

Cultural Study on Deconversion disengagement processes from a variety of religious backgrounds in the USA and in Germany were examined, ranging from well-established religious organizations to new religious and fundamentalist groups. Nearly 1,200 persons participated in the study and were interviewed from 2002 to 2005. In the focus of the study are 100 deconverts from the USA and from Germany who

were examined with narrative interviews, faith development interviews and an extensive questionnaire. For case study elaboration, the study followed a research design with an innovative triangulation of qualitative and quantitative data. Four chapters, corresponding to four types of deconversion, present 21 case studies. The highlights of the research project are new data on spirituality – the deconverts in particular

appear to prefer a »more spiritual than religious« self-identification – and in-depth analyses of a variety of deconversion narratives with special focus on personality factors, motivation, attitudes, religious development, psychological well-being and growth, religious fundamentalism and right-wing authoritarianism. The results of this project which was funded by the Deutsche Forschungsgemeinschaft are of special relevance

for counselling and pastoral care, for religious education and for people concerned with administration and management of religious groups and churches, but also for a wider audience interested in contemporary changes in the religious fields in the USA and Germany.
