The action begins in the shadowy forests of California known as Bohemian Grove and moves quickly across the entire world centering on the Middle East and the hunt for the nuclear bombs smuggled in across our unattended borders.. If any of the characters survived, their lives would never be the same. At any moment unseen hands

would push the button that would end civilization; if not eliminate all known life on the planet. The problems that had to be resolved immediately were how to identify the enemies. Bloomsbury Publishing Madison was hardly more than a child when stolen from Earth--a fact that she resents to

no end. Ripped away from all she ever knew, she's reluctant to be the princess her family expects her to be. Tired of living out someone else's happily ever after, Madison reaches her breaking point when kidnapped by another kingdom. She's done with spaceships, done with otherworldly planets, and she sure as hell is done with aliens. She spent years dreaming of Earth, never daring to believe it to be anything more than a childish fantasy. But all that changes when a cocky guard comes to her rescue. She strikes a deal with the green-skinned alien, and while it might not be a completely honest one, what does it matter when he holds the key to finally making all her dreams come true? Kethian isn't exactly honest himself. Intrigued by the aloof princess with a reputation for being spoiled and ungrateful, Kethian can't help but make a deal at the expense of his kingdom. He tells himself it's just another adventure, but that's a lie not even he believes. One last journey through space and Madison is home free. Will Earth be all she remembers, or will it pale in comparison to the bond she discovers in The Frog Prince? If I organize a set of challenges for the potential future husbands to tackle, she's promised that I'll find my perfect match.
