Although S.A. Bodeen's new sci-fi thriller The Gardener is somewhat predictable in its plot layout due to the cover subtitle blurb telling you outright what the story entails, and is formulaic in its execution, this new novel is still an outstanding science fiction read for teens and adults alike. This thought provoking book allows the reader to think ahead to the future of the human race and ...

Book Review - The Gardener by S.A. Bodeen | BookPage
Book Review: The Gardener by S.A. Bodeen It is beyond my understanding how this book became one of the Truman nominees. I really had high expectations for this book; it was a great idea. I especially liked how Bodeen brought up serious issues like world hunger and moral issues on bio-engineering to make a story.

The Gardener by S.A. Bodeen

I loved S. A. Bodeen's The Compound. I know she can conjure up a truly unique idea and run it past you at an exhilarating speed. The concept behind The Gardener was just as thought-provoking. Unfortunately, the storyline wasn't solid enough to support the concept.
