HarperCollins

This book deals with what the author considers a sorely neglected question, namely the role of the judiciary in states' foreign policy processes. Eksteen argues that the impact of the judiciary on foreign affairs is understudied and that recognition of its

role in foreign affairs is now due. This makes it a ground-breaking scholarly contribution that should first of all prove of value to students, scholars, researchers and practitioners in the two broad fields of politics and law for the wide scope of issues it covers and the very comprehensive reference lists it contains. Secondly, professionals working within politics, including members of the legislatures of the United States, the European Union and South Africa, as well as members of the judiciaries there, should find this book of benefit. A detailed examination has been undertaken of the role of the United States Supreme Court, the two high courts in South Africa, namely the

---

Constitutional Court and the Supreme Court of Appeal, and the European Court of Justice of the European Union, in foreign affairs. The author substantiates the unmistakable fact that these Courts have become involved in and influence foreign affairs. Furthermore, that they have not shied away from using their judicial authority when dealing with cases touching on foreign affairs and especially presidential overreach. The lack of recognition of the judiciary's role in foreign affairs is still noticeable in Foreign Policy Analysis (FPA) literature. This book concludes that FPA has to accept and give proper recognition to the judiciary and its increasing relevance

in foreign affairs. Dr. Riaan Eksteen is a Former South African Ambassador residing in Namibia; from 1968-1973 he served at the South African Embassy in Washington D.C.; between 1976-1994, he subsequently served as Ambassador and Head of Mission at the U.N. in New York (1976-81), in Namibia (1990-91), at the U.N. in Geneva (1992-94), and in Turkey, with accreditation also to Azerbaijan, Kyrgyzstan, Turkmenistan and Uzbekistan (1995-97). He obtained his Ph.D. from the University of Johannesburg in October 2018. The Seed Keeper Createspace Independent Publishing Platform

In this third book in the saga, *The Gatekeeper's Daughter*, Therese may have finally succeeded in becoming a goddess, but if she wants to remain one, she'll not only have to discover her unique purpose, but also make some allies among the gods. Artemis sends her on a seemingly impossible quest across the world, while Than searches for a way to appease Ares. To make matters worse, her baby sister's life depends on the outcome of her quest.

This volume makes a timely intervention into a field which is marked by a shift from unipolar to multipolar order and a pluralization of constitutional law. It addresses the theoretical and epistemic foundations of Southern constitutionalism and discusses its distinctive themes, such as transformative constitutionalism, inequality, access to justice, and authoritarian legality. This title has three goals. First, to pluralize the conversation around constitutional law. While most scholarship focuses on liberal forms of Western constitutions, this book attempts to take comparative law's promise to cover all major legal systems of the world seriously; second, to

reflect critically on the epistemic framework and the distribution of epistemic powers in the scholarly community of comparative constitutional law; third, to reflect on - and where necessary, test - the notion of the Global South in comparative constitutional law. This book breaks down the theories, themes, and global picture of comparative constitutionalism in the Global South. What emerges is a rich tapestry of constitutional experiences that pluralizes comparative constitutional law as both a discipline and a field of knowledge.

For years, reporters had tried to get to the truth about Harvey Weinstein's treatment of women. In Towing Jehovah, the discovery of the two-mile-long corpse of God in the mid-Atlantic proved a serious menace to both navigation and to faith. But was God truly dead, as the nihilists and the New York Times believed? In Blameless in Abaddon, His body - comatose yet far from inert - has been hauled from its

temporary resting place in the Arctic to Florida, where it has become the Main Attraction at Orlando's Celestial City USA. And now one Martin Candle, a small-time and sore-afflicted judge practicing in Abaddon Township, Pennsylvania, proposes further travels for the Corpus Dei: to the World Court in The Hague, to answer for history's injustices large and small. In his quest to counter the world's great theodicies, Martin embarks on an astonishing odyssey through the mind of the Creator, where Lot's wife proves a most convenient way of adding salt to a margarita glass, early hominids vigorously debate Augustinian doctrine over jasmine tea, and Martin's alter ego, Job, keeps an eternal vigil atop his dung heap. Once the Trial of the Millennium has begun, Martin will understand why Abaddon is another name for Hell. God hunting simply is not a sport for

A haunting novel spanning several generations, *The Seed Keeper* follows a Dakhóta family’s struggle to preserve their way of life, and their sacrifices to protect what matters most. Rosalie Iron Wing has grown up in the woods with her father, Ray, a former science teacher who tells her stories of plants, of the stars, of the origins of the Dakhóta people. Until, one morning, Ray doesn’t return from checking his traps. Told she has no family, Rosalie is sent to live with a foster family in nearby Mankato—where the

---

reserved, bookish teenager meets rebellious Gaby Makespeace, in a friendship that transcends the damaged legacies they've inherited. On a winter's day many years later, Rosalie returns to her childhood home. A widow and mother, she has spent the previous two decades on her white husband's farm, finding solace in her garden even as the farm is threatened first by drought and then by a predatory chemical company. Now, grieving, Rosalie begins to confront the past, on a search for family, identity, and a community where she can finally belong. In the process, she learns what it means to be descended from women with souls of iron—women who have protected their families, their traditions, and a precious cache of seeds through generations of hardship and loss, through war and the insidious trauma of boarding schools. Weaving together the

voices of four indelible women, *The Seed Keeper* is a beautifully told story of reawakening, of remembering our original relationship to the seeds and, through them, to our ancestors.
