Short n Sweet: Maria Fredericks' The Girl in the Park is a stereotypical "party-girl-found-dead whodunnit with no surprises or loops. The characters are mostly one dimensional but Fredericks does make the issue of slut shaming a focus and how people are eager to blame the victim rather than the true culprit.

With a unique, quiet protagonist named Rain, “The Girl in the Park” is not your usual prep-school soap opera. Oh, there’s plenty of cattiness and class issues – even a dangerously handsome scholarship kid and an attractive young English teacher – but Mariah Fredericks makes it so much more than a poor little rich kids plot. It’s a story of grief and loss and how we may never really know everything about even our closest friends.

Dear Ms. Fredericks, I was in the mood for something different when I ran across your novel. A reader can take only so many paranormal and dystopian YAs before she loses it.
