The dazzling success of *The Toaster Project*, including TV appearances and an international book tour, leaves Thomas Thwaites in a slump. His friends

increasingly behave like adults, while Thwaites still lives at home, "stuck in a big, dark hole." Luckily, a research grant offers the perfect out: a chance to take a holiday from the complications of being human—by transforming himself into a goat. What ensues is a hilarious and surreal journey through engineering, design, and psychology, as Thwaites interviews neuroscientists, animal behaviorists, prosthetists, goat sanctuary workers, and goatherds. From this, he builds a goat exoskeleton—artificial legs, helmet, chest protector, raincoat from his mum, and a prosthetic goat stomach to digest grass (with help from a pressure cooker and campfire)—before setting off across the Alps on four legs with a herd of his fellow creatures. Will he make it? Do Thwaites and his readers discover what it truly means to be human? GoatMan tells all in Thwaites's inimitable style, which NPR extols as "a laugh-out-loud-funny but thoughtful guide through his own adventures."

Edward Albee's *At Home at the Zoo*

Macmillan + ORM

"Albee's perversely funny sendup of a standard mid-life crisis drama ... dares to suggest that even the most flawed and confused human beings deserve compassionate understanding, and the failure to proffer it is a species of bestiality far more abhorrent than the sexual kind." *Variety* On his 50th birthday, Martin, a world-famous architect prepares for a recorded interview by an old friend in the TV business; but in the course of the conversation a secret emerges that threatens to turn celebration to tragedy. Edward Albee's black comedy offers a fascinating look at the limits liberal society can be pushed to, and asks the audience to question their beliefs, to examine their own

bigoted views and reconsider their judgement of matters that may or may not be considered socially taboo. Winner of the 2002 Tony Award for Best Play, *The Goat, or Who is Sylvia?* is a hugely enjoyable parable that plumbs the deepest questions of social constraints on the individual expression of love. This Modern Classics edition features a new introduction by Toby Zinman.

The Goat-Faced Girl Steck-Vaughn

Now a major film, starring George Clooney, Ewan McGregor, and Jeff Bridges, this New York Times bestseller is a disturbing and often hilarious look at the U.S. military's long flirtation with the paranormal—and the psy-

op soldiers that are still fighting the battle. Bizarre military history: In 1979, a crack commando unit was established by the most gifted minds within the U.S. Army. Defying all known laws of physics and accepted military practice, they believed that a soldier could adopt the cloak of invisibility, pass cleanly through walls, and—perhaps most chillingly—kill goats just by staring at them. They were the First Earth Battalion, entrusted with defending America from all known adversaries. And they really weren't joking. What's more, they're back—and they're fighting the War on Terror. An uproarious exploration of American military paranoia: With investigations ranging from the mysterious “Goat Lab,” to Uri Geller's covert psychic work with the CIA, to the

increasingly bizarre role played by a succession of U.S. presidents, this might just be the funniest, most unsettling book you will ever read—if only because it is all true and is still happening today.
