A History of Preaching brings together narrative history and primary sources to provide the most comprehensive guide available to the story of the church's ministry of proclamation. Bringing together an impressive array of familiar and lesser-known figures, Edwards paints a detailed, compelling picture of what it has meant to preach the gospel. Pastors, scholars, and students of homiletics will find here many opportunities to enrich their understanding and practice of preaching. Ecumenical in scope, fair-minded in presentation, appreciative of the contributions that all the branches of the church have made to the story of what it means to develop, deliver, and listen to a sermon, A History of Preaching will be the definitive resource for anyone who wishes to preach or to understand preaching's role in living out the gospel. Volume 2 contains primary source material on preaching drawn from the entire scope of the church's twenty centuries. The author has written

an introduction to each selection, placing it in its historical context and pointing to its particular contribution. Each chapter in Volume 2 is geared to its companion chapter in Volume 1's narrative history. Volume 1, available separately as 9781501833779, contains Edwards's magisterial retelling of the story of Christian preaching's development from its Hellenistic and Jewish roots in the New Testament, through the late-twentieth century's discontent with outdated forms and emphasis on new modes of preaching such as narrative. Along the way the author introduces us to the complexities and contributions of preachers, both with whom we are already acquainted, and to whom we will be introduced here for the first time. Origen, Chrysostom, Augustine, Bernard, Aquinas, Luther, Calvin, Wesley, Edwards, Rauschenbusch, Barth; all of their distinctive contributions receive careful attention. Yet lesser-known figures and developments also appear, from the ninth-century reform of preaching championed by Hrabanus

Maurus, to the reference books developed in the thirteenth and fourteenth centuries by the mendicant orders to assist their members' preaching, to Howell Harris and Daniel Rowlands, preachers of the eighteenth-century Welsh revival, to Helen Kenyon, speaking as a layperson at the 1950 Yale Beecher lectures about the view of preaching from the pew. "... 'This work is expected to be the standard text on preaching for the next 30 years,' says Ann K. Riggs, who staffs the NCC's Faith and Order Commission. Author Edwards, former professor of preaching at Seabury-Western Theological Seminary, is co-moderator of the commission, which studies church-uniting and church-dividing issues. 'A History of Preaching is ecumenical in scope and will be relevant in all our churches; we all participate in this field,' says Riggs...." from EcuLink, Number 65, Winter 2004-2005 published by the National Council of Churches

Reading the Book of Revelation Westminster John Knox Press

Ernesto Cardenal and Sergio Ramírez are two of the most influential Latin American intellectuals of the late twentieth and early twenty-first centuries. Addressing Nicaragua's struggle for self-definition from divergent ethnic, religious, generational, political, and class backgrounds, they constructed distinct yet compatible visions of national history,

anchored in a reappraisal of the early twentieth-century history of Nicaragua. The only comprehensive study of the careers of Cardenal and Ramírez, Sandino's Nation is essential to understanding transformations to both Nicaragua and the role of the writer in Latin America.

During the Sandinista Revolution of 1979-90, Cardenal, appointed Nicaragua's minister of culture, became one of the most provocative and internationally recognized figures of liberation theology, while Ramírez, a member of the revolutionary junta, and later elected vice-president of Nicaragua, emerged as an authoritative figure for third world nationalism. But before all else, the two were groundbreaking creative writers. Through a close reading of the works by Nicaragua's best-known and most prolific modern authors, Sandino's Nation studies the construction of Nicaraguan national identity during three distinct periods of the country's recent history - before, during, and after the 1979-90 revolution. Stephen Henighan offers rigorous textual analyses of poems, memoirs, essays, and novels, interwoven with a sharply narrated

The Culture and Politics of Radical Transformation
Westminster John Knox Press
Marx, Lenin, and the Revolutionary Experience offers a fresh look at Communism, both the bad and good, and also touches on anarchism, Christian theory, conservatism, liberalism, Marxism, and more, to argue for the enduring relevance of Karl Marx, and V.I. Lenin as democratic revolutionaries. It examines the "Red Decade" of the 1930s

and the civil rights movement and the New Left of the 1960s in the United States as well. Studying the past to grapple with issues of war and terrorism, exploitation, hunger, ecological crisis, and trends toward deadening "de-spiritualization", the book shows how the revolutionaries of the past are still relevant to today's struggles. It offers a clearly written and carefully reasoned thematic discussion of globalization, Marxism, Christianity (and religion in general), Communism, the history of the USSR and US radical and social movements.

Religion, Sandinismo, and Emotions in the Making of the Nicaraguan Insurrection and

This book goes to the very heart of the passionate debate over the true character of Christian faith and practice. The advance of liberation theology in the Latin American church has caused international reverberations within both the

religious and political worlds. The Vatican was moved to denounce it as heretical, and the Reagan-Bush administration has deemed it a significant threat to the stability of the region. Here Batstone evaluates the writings of liberation theologians as they consider the central figure of Christian faith, Jesus of Nazareth, and asks whether a message of liberation for the poor and oppressed actually springs from the life and teachings of Jesus or is merely a religious projection of activists bent on radical social transformation. The judgment given to that issue will weigh heavily in the debate which currently rages in religious communities and seminaries over the political role and responsibility of the church. Batstone's work links these discussions to the concrete lives of the Latin American people and, in that sense, goes beneath the text and examines the subtext of religious reflection. Chapters present events and stories that originate in the daily realities of contemporary Latin America and then consider what connection these experiences have to the story of Jesus of Nazareth.

Feasting on the Word: Year B, Volume 1
Society of Biblical Lit
With this new lectionary commentary

series, Westminster John Knox offers the most extensive resource for preaching on the market today. When complete, the twelve volumes of the series will cover all the Sundays in the three-year lectionary cycle, along with movable occasions, such as Christmas Day, Epiphany, Holy Week, and All Saints' Day. For each lectionary text, preachers will find four brief essays--one each on the theological, pastoral, exegetical, and homiletical challenges of the text. This gives preachers sixteen different approaches to the proclamation of the Word on any given occasion. The editors and contributors to this series are world-class scholars, pastors, and writers representing a variety of

denominations and traditions. And while the twelve volumes of the series will follow the pattern of the Revised Common Lectionary, each volume will contain an index of biblical passages so that nonlectionary preachers, as well as teachers and students, may make use of its content.

A History of Preaching Volume 1 Westminster John Knox Press

This volume examines the Bible's role in the modern world - beginning with a treatment of its production and distribution that discusses publishers, printers, text critics, and translators and continuing with a presentation of new methods of studying the text

that have emerged, including historical, literary, social-scientific, feminist, postcolonial, liberal, and fundamentalist readings. There is a full discussion of the changes in understandings of and approaches to the Bible in various faith communities. The dissemination of the Bible throughout the globe has also produced a host of new interpretations, and this volume provides a comprehensive geographical survey of its reception. In the final chapters, the authors offer a thematic overview of the Bible in relation to literature, art, film, science, and other disciplines. They demonstrate that, in spite of challenges to the Bible's authority in western Europe, it remains highly relevant and influential, not least in the Americas, Africa, and Asia.

Steps Towards Church Transformation A HeartEdge Handbook Harvard University Press

In this wide-ranging study Rosalind Selby explores the hermeneutical implications of a Barthian epistemology in which 'givenness' (of knowledge, talk of God and Scripture, and the Church) is paramount. From this she seeks to develop a 'hermeneutics of service' that challenges both liberal and fundamentalist approaches to theological language and biblical

interpretation. Selby tackles the issues of knowledge, and especially knowledge of God, the language used to communicate that knowledge and that language as Scriptural textuality. Barth wrote of 'the comical doctrine that the true exegete has no presuppositions'. In fact, he said, 'no one reads the bible directly--we all read it through spectacles'. In the train of his insight, Selby examines the role of community as a prerequisite for knowledge and truth claims before examining the different ways that various 'communities' interpret Scripture (focusing on St. Mark's Gospel). The presuppositions of the

different starting places are revealed and the appropriateness of various methodologies discussed. The Quest for the Historical Jesus and its struggles to handle the resurrection are used as a 'test case' to show the impact of different hermeneutical strategies. The insights in this thought-provoking study have implications for issues as wide ranging as the genre 'Gospel', the authority of Scripture, the Church as a 'reading community', the plurality of interpretations and the possibility of controlling them, the relationship between general and special theological hermeneutics, as well as epistemological foundationalism and

its alternatives.

Seed Falling on Good Soil Abingdon Press

In particular, Martin commends the habit of critical thinking, an appreciation for irony, and an irenic approach to opposition as helpful stances for improving people's efforts to talk about religion. In addressing rhetorical and hermeneutical issues commonly found in philosophical theology and the philosophy of religion, this work's approach through the genre of dialogue will interest those concerned with the intersection of religion and literature.

A resourceful and thorough study of

an important issue in New Testament and systematic theology, this book is one that takes human action and reception into full account. Where does God's revelation reside--in the event or in the interpretation? If history is about the creation of meaning, what does it mean to say that God reveals God's self in history? Dan Via addresses these and related issues in this original volume.

Seed Falling on Good Soil is a unique book that combines a historically informed approach to Lucan parables with a critical understanding of social justice issues of our own age. The author proposes that the stories told by

Jesus were narratives of resistance challenging audiences to participate in the personal and social transformation of God's kingdom. The author's experience in international community development provides a perspective rarely found among New Testament specialists. The book uses stories from the margins of our current world to connect the message of the parables with global issues of poverty, ethnic violence, gender discrimination, hunger and oppression. This book will appeal to people who long for the healing of a wounded world.

Sandinista Narratives is an analysis of the role of agency in the Nicaraguan Revolution and its aftermath. Jean-Pierre Reed argues that the insurrection in Nicaragua was shaped by political contingency, action-specific subjectivity, and popular culture. He also examines how Sandinista ideology contributed to state-building in Nicaragua while tracing the role of post-revolutionary Sandinismo as a political identity.
