Is it a tech company trying to eliminate the competition or is it something even more sinister? After all, artificial intelligence may be the deadliest battlefield gamechanger since the creation of gunpowder. The first nation to field weapons that can act at the speed of computer commands will rule the battlefield. It's an irresistible lure for most, but not for the Gray Man. With a list of enemies that includes billionaires, terrorists, and governments, they need to keep a low profile, but the world's deadliest assassin can't expect to hide out forever. Eventually, they're tracked down and offered a job by an old acquaintance of Zoya's. He needs their help extracting a Russian scientist who is on the kill list. They reject the offer, but just being seen with him is enough to put assassins on their trail. Now, they're back on the run, but no matter which way they turn, it's clear that whoever's tracking them is always going to be one step ahead. Since flight's no longer possible, fight is the only option left, and no one fights dirtier than the Gray Man.

On Target Penguin

Since its founding in 1801, African Americans have played an integral, if too often overlooked, role in the history of the University of South Carolina. *Invisible No More* seeks to recover that historical legacy and reveal the many ways that African Americans have shaped the development of the university. The essays in this volume span the full sweep of the university's history, from the era of slavery to Reconstruction, Civil Rights to Black Power and Black Lives Matter. This collection represents the most comprehensive examination of the long history and complex relationship between African Americans and the university. Like the broader history of South Carolina, the history of African Americans at the University of South Carolina is about more than their mere existence at the institution. It is about how they molded the university into something greater than the sum of its parts. Throughout the university's history, Black students, faculty, and staff have pressured for greater equity and inclusion. At various times they did so with the support of white allies, other times in the face of massive resistance; oftentimes, there were both. Between 1868 and 1877, the brief but extraordinary period of Reconstruction, the University of South Carolina became the only state-supported university in the former Confederacy to open its doors to students of all races. This "first desegregation," which offered a glimpse of what was possible, was dismantled and followed by nearly a century during which African American students were once again excluded from the campus. In 1963, the

"second desegregation" ended that long era of exclusion but was just the beginning of a new period of activism, one that continues today. Though African Americans have become increasingly visible on campus, the goal of equity and inclusion—a greater acceptance of African American students and a true appreciation of their experiences and contributions—remains incomplete. *Invisible No More* represents another contribution to this long struggle. A foreword is provided by Valinda W. Littlefield, associate professor of history and African American studies at the University of South Carolina. Henrie Monteith Treadwell, research professor of community health and preventative medicine at Morehouse School of Medicine and one of the three African American students who desegregated the university in 1963, provides an afterword.

'Undoubtedly the most powerful and immediate book to emerge from the Balkan horror of ethnic civil war' Antony Beevor, *Daily Telegraph* In 1993, Anthony Loyd hitchhiked to the Balkans hoping to become a journalist. Leaving behind him the legends of a distinguished military family, he wanted to see 'a real war' for himself. In Bosnia he found one. The cruelty and chaos of the conflict both appalled and embraced him; the adrenalin lure of the action perhaps the loudest siren call of all. In the midst of the daily life-and-death struggle among Bosnia's Serbs, Croats and Muslims, Loyd was inspired by the extraordinary human fortitude he discovered. But returning home he found the void of peacetime too painful to bear, and so began a longstanding personal battle with drug abuse. This harrowing account shows humanity at its worst and best. It is a breathtaking feat of reportage; an uncompromising look at the terrifyingly seductive power of war. 'As good as reporting gets. I have nowhere read a more vivid account of frontline fear and survival. Forget the strategic overview. All war is local' Martin Bell, *The Times*
