Master Suiboku's given Sansui his blessing, so in addition to guarding his mistress, Lady Douve, he's now offering instruction in swordsmanship. Not only is he teaching his fellow Japanese transferee Saiga and the foreign prince Tahlan, but he's somehow found himself teaching the city's ne'er-do-wells and the Royal Guard. Meanwhile, House Caputo, a Great House of the Arcana Kingdom, is fighting a war with the Kingdom's neighboring nation. Evidently, the army invading the Caputo lands is equipped with cheat items, but House Caputo's got a cheat of their own up their sleeve.

*****MOJO MAGAZINE'S BOOK OF THE YEAR**** The

Hollywood Brats are the greatest band you've never heard of.

Recording one near-perfect punk album in 1974, they were tragically ahead of their time. With only a guitar, a tatty copy of the Melody Maker and his template for the perfect band, Andrew Matheson set out, in 1971, to make musical history. His band, The Hollywood Brats, were pre-punk prophets - uncompromising, ultra-thin, wild, untameable and outrageous. But thrown into the crazy world of the 1970s London music scene, the Brats ultimately fell foul of the crooks and heavies that ran it and an industry that just wasn't ready for them. Directly inspiring the London SS, the Clash, Malcolm McLaren and the Sex Pistols, The Hollywood Brats imploded too soon to share the glory. Punk's answer to Withnail and I, *Sick On You* is a startling, funny and brilliantly entertaining period memoir about never quite achieving success, despite flying so close to greatness."

An enchanting, riotous, and playfully illustrated debut graphic novel following a young goblin trying to save her best friend from the haunted mall—perfect for fans of Steven Universe and Adventure Time. In the eerie town of ' Allows, some people get to be magical sorceresses, while other people have their spirits trapped in the mall for all ghastly eternity. Then there ' s twelve-year-old goblin-witch Beetle, who ' s caught in between. She ' d rather skip being homeschooled completely and spend time with her best friend, Blob Glost. But the

mall is getting boring, and B.G. is cursed to haunt it, tethered there by some unseen force. And now Beetle ' s old best friend, Kat, is back in town for a sorcery apprenticeship with her Aunt Hollowbone. Kat is everything Beetle wants to be: beautiful, cool, great at magic, and kind of famous online. Beetle ' s quickly being left in the dust. But Kat ' s mentor has set her own vile scheme in motion. If Blob Ghost doesn ' t escape the mall soon, their afterlife might be coming to a very sticky end. Now, Beetle has less than a week to rescue her best ghost, encourage Kat to stand up for herself, and confront the magic she ' s been avoiding for far too long. And hopefully ride a broom without crashing.

How does coding change the way we think about architecture? This question opens up an important research perspective. In this book, Miro Roman and his AI Alice_ch3n81 develop a playful scenario in which they propose coding as the new literacy of information. They convey knowledge in the form of a project model that links the fields of architecture and information through two interwoven narrative strands in an “infinite flow” of real books. Focusing on the intersection of information technology and architectural formulation, the authors create an evolving intellectual reflection on digital architecture and computer science.

Far from bitter or self-pitying, *Rock Monster* is an honest account of one woman's life-changing experience in a relationship with rock legend Joe Walsh. At once envious, glamorous, debauched and disturbing, it's her long and winding journey from life in the fast lane to sobriety and redemption. Set in the late-eighties and nineties, these are some of Walsh's darkest years, from spiraling addiction to a stunning comeback with the Eagles' *Hell Freezes Over* tour. Loaded with true stories never before heard, *Rock Monster* is essential reading for classic rock fans and anyone touched by addiction. Kristin Casey pulls no punches, sharing gritty details with self-awareness, humor, and affection. Sharply written, bold and incisive, it's the worldly-wise tome only an ex-addict, ex-stripper, and ex-rock-chick could give us. In the tradition of women-in-rock survivor tales--by Marianne Faithfull, Crystal Zevon, or Mackenzie Phillips--Kristin Casey pulls a veil on the enduring myth of the lifestyle's glamorous decadence. *Rock Monster* is a sexy, crazy, cautionary tale of two addicts in love without a single relationship skill.

The classic book on systems thinking—with more than half a million copies sold worldwide! "This is a fabulous book... This book opened my mind and reshaped the way I think about investing."—Forbes "Thinking in Systems is required reading for anyone hoping to run a successful company, community, or country. Learning how to think in systems is now part of change-agent literacy. And this is the best book of its kind."—Hunter Lovins In the years following her role as the lead author of the international bestseller, *Limits to Growth*—the first book to show the consequences of unchecked growth on a finite planet—Donella Meadows remained a pioneer of environmental and social analysis until her untimely death in 2001. *Thinking in Systems* is a concise and crucial book offering insight for problem solving on scales ranging from the personal to the global. Edited by the Sustainability Institute's Diana Wright, this essential primer brings systems thinking out of the realm of computers and equations and into the tangible world, showing readers how to develop the systems-thinking skills that thought leaders across the globe consider critical for 21st-century life. Some of the biggest problems facing the world—war, hunger, poverty, and environmental degradation—are essentially system failures. They cannot be solved by fixing one piece in isolation from the others, because even seemingly minor details have enormous power to undermine the best efforts of too-narrow thinking. While readers will learn the conceptual tools and methods of systems thinking, the heart of the book is grander than methodology. Donella Meadows was known as much for nurturing positive outcomes as she was for delving into the science behind global dilemmas. She reminds readers to pay attention to what is important, not just what is quantifiable, to stay humble, and to stay a learner. In a world growing ever more complicated, crowded, and interdependent, *Thinking in Systems* helps readers avoid confusion and helplessness, the first step toward finding proactive and effective solutions.

From award-winning blues scholar and musician Adam Gussow, a taut, sexy first novel about the summer busking scene in Europe and a pair of wild-hearted young men who make a pitch for fame and glory, finding a girl or two along the way. *Busker's Holiday* is the story of McKay Chernoff, a Columbia University grad student with a harmonica in his pocket and a blues band in his background. Desolate and despairing after a disastrous romantic breakup, McKay decides to fly off to Paris and reinvent himself as a street performer. What follows is an epic summer voyage into the busking life, propelled by the mad exploits of Billy Lee Grant, a fearless young guitar shredder whose Memphis-to-Mississippi pedigree and Dylanesque surrealism make him, when he explodes into view, precisely the partner McKay has been yearning for. Burning like a latter-day Dean Moriarty, Bill goads McKay into a sun-drenched, all-night bender, stoked by wine, women, mushrooms, and trains, that careens down out of Avignon and across the French Riviera. What happens next—in Florence, Solingen, Amsterdam, Paris—is a story of purgatory, redemption, and love regained. Hope, in a word, as a modern troubadour returns from his wanderings, reborn.

From Man Booker Prize Finalist Ali Smith, *Winter* is the second novel in her *Seasonal Quartet*. This much-anticipated follow-up to *Autumn* is one of the Best Books of the Year from the New York Public Library. "A stunning meditation on a complex, emotional moment in history." —Time *Winter*. Bleak. Frosty wind, earth as iron, water as stone, so the old song goes. And now Art's mother is seeing things. Come to think of it, Art's seeing things himself. When four people, strangers and family, converge on a fifteen-bedroom house in Cornwall for Christmas, will there be enough room for everyone? *Winter*. It makes things visible. Ali Smith's shapeshifting *Winter* casts a warm, wise, merry and uncompromising eye over a post-truth era in a story rooted in history and memory and with a taproot deep in the evergreens, art and love.

Hawai'i author Chris McKinney's first entry in a brilliant new sci-fi noir trilogy explores the sordid past of a murdered scientist, deified in death, through the eyes of a man who once committed unspeakable crimes for her. Year 2142: Earth is forty years past a near-collision with the asteroid Sessho-seki. Akira Kimura, the scientist responsible

for eliminating the threat, has reached heights of celebrity approaching deification. But now, Akira feels her safety is under threat, so after years without contact, she reaches out to her former head of security, who has since become a police detective. When he arrives at her deep-sea home and finds Akira methodically dismembered, this detective will risk everything—his career, his family, even his own life—and delve back into his shared past with Akira to find her killer. With a rich, cinematic voice and burning cynicism, *Midnight, Water City* is both a thrilling neo-noir procedural and a stunning exploration of research, class, climate change, the cult of personality, and the dark sacrifices we are willing to make in the name of progress.

Fateful Harper Collins

Philosophical issues often lie at the heart of societal problems, yet it is rare for philosophers to be actively engaged in the search for solutions. Conventionally, philosophy prioritizes the written word and the seminar room while living at a remove from everyday life. In contrast, field philosophy, the approach invoked by the chapters in this book, emphasizes the immediacy of the spoken word and engages people in their daily activities to help them understand the philosophical elements of their everyday tasks. This book offers field philosophy as a model for social engagement, advancing a new way for doing philosophy relevant to the needs of 21st century society. The chapters in the book describe the historical significance of field philosophy, its ethical commitments, and the theoretical warrant underlying its practice. Together, they advance the societal relevance of philosophy and the many ways it can interface with a diverse range of communities from engineers and scientists to policymakers and activists. This book will be of interest to the academic philosophy community, policy makers and policy researchers, university administrators, and those interested in the theory and practice of interdisciplinarity. Versions of some of its chapters were originally published as a special issue of *Social Epistemology*.

Busker's Holiday Polity

“This book is epic.” —*Cosmopolitan* “A hopeful and moving love story.” —*Publishers Weekly* Fangirl meets Simon vs. the Homo Sapiens Agenda in this “sensitive and complex” (BCCB) coming-of-age novel from New York Times bestselling author Christina Lauren about two boys who fall in love in a writing class—one from a progressive family and the other from a conservative religious community. Three years ago, Tanner Scott’s family relocated from California to Utah, a move that nudged the bisexual teen temporarily back into the closet. Now, with one semester of high school to go, and no obstacles between him and out-of-state college freedom, Tanner plans to coast through his remaining classes and clear out of Utah. But when his best friend Autumn dares him to take Provo High’s prestigious Seminar—where honor roll students diligently toil to draft a book in a semester—Tanner can’t resist going against his better judgment and having a go, if only to prove to Autumn how silly the whole thing is. Writing a book in four months sounds simple. Four months is an eternity. It turns out, Tanner is only partly right: four months is a long time. After all, it takes only one second for him to notice Sebastian Brother, the Mormon prodigy who sold his own Seminar novel the year before and who now mentors the class. And it takes less than a month for Tanner to fall completely in love with him.

After the United Nations held its 2023 Climate Change Conference, it became vogue to label the fossil fuels industry as “the elephant in the room.” But it’s really just the tiny baby elephant. The real elephant in the room – the one that no one wants to acknowledge let alone talk about – is that net zero carbon and sustainability will never work to defeat climate change. It’s also not practical, as it would result in the destruction of economies and force people to live lives they do not want to live. Even if it could be achieved, it would not fix rising ocean coastlines, biodiversity loss, desertification, and climate change. James Michael Matthew, the founder and chairman of JM Prophecies Corp. and the author of numerous books on how to defeat climate change, proposes the perfect solution in this book: building fjords in the great deserts. His plan to defeat climate change begins with pumping ocean water into salt basins that already exist in deserts and arid regions around the world. Consider what’s at stake and find out how the author’s strategy could be implemented step by step in this groundbreaking work.
