Why are we capable of such dignified ascension of the average and expected? It's probably because we have never been either. Our English class has a unique chemistry that rivals that of the Curies. Settling disputes through Jenga wars and daring to decry influential literature, we demand nothing less than passion. Emotions run high when Jenga blocks waver, swaying with our expectations; every class member leans in with bated breath and often baiting words, transfixed to the point of enchantment. However, we have learned to transfer our frustration at the toppling Jenga tower into driving excitement in Socratic forums. This driving emotion force has fueled our late night reading and early morning classes. Emotion inspired dedication to the book you now grasp. It is the emotion of a class all its own, and this is ours.

Rich, descriptive scriptures of the Amplified Bible are connected with narrative to form a mosaic depicting God's revealed purpose in creating the universe. God has given us the Bible so we will know why we are here, and how we fit into the overall scheme of His design. Didn't He know that Adam and Eve would go astray and produce a world? led with pain, violence and suffering? How could He have been motivated by love e name of Jesus Christ is exalted as "God Signs" underscores the Bible's answers to these questions. An allegorical description of the plan of salvation is included in the introduction. The chapters that follow discuss God's purpose in creation and the promises He has made to mankind and to the individual. If God's promises are enough, why did He give Abraham a promise and an oath? What must one do to inherit the fulfillment of God's promises? The answers as revealed in the lives of Abraham, Moses and others are discussed. These answers are then supported in detail by unfolding the prophetic mysteries of the mandatory ancient Hebrew feasts and their relationship to the examples and commandments of Jesus Christ.
