Barbara W. Tuchman won her second Pulitzer Prize for this nonfiction masterpiece—an authoritative work of history that recounts the birth of modern China through the eyes of one extraordinary American. General Joseph W. Stilwell was a man who loved China deeply and knew its people as few Americans ever have. Barbara W. Tuchman's groundbreaking narrative follows Stilwell from the time he arrived in China during the Revolution of 1911, through his tours of duty in Peking and Tientsin in the 1920s and '30s, to his return as theater commander in World War II, when the Nationalist government faced attack from both Japanese invaders and Communist insurgents. Peopled by warlords, ambassadors, and missionaries, this classic biography of the cantankerous but level-headed "Vinegar Joe" sparkles with Tuchman's genius for animating the people who shaped history. Praise for Stilwell and the American Experience in China "Tuchman's best book . . . so large in scope, so crammed with information, so clear in exposition, so assured in tone that one is tempted to say it is not a book but an education." —The New Yorker "The most interesting and informative book on U.S. — China relations . . . a brilliant, lucid and authentic account." —The Nation "A fantastic and complex story finely told." —The New York Times Book Review

The classic account of the lead-up to World War I, told with "a rare combination of impeccable scholarship and literary polish" (The New York Times)—from the Pulitzer Prize-winning author of *The Guns of August* During the fateful quarter century leading up to World War I, the climax of a century of rapid, unprecedented change, a privileged few enjoyed Olympian luxury as the underclass was "heaving in its pain, its power, and its hate." In *The Proud Tower*, Barbara W. Tuchman brings the era to vivid life: the decline of the Edwardian aristocracy; the Anarchists of Europe and America; Germany and its self-depicted hero, Richard Strauss; Diaghilev's Russian ballet and Stravinsky's music; the Dreyfus Affair; the Peace Conferences in The Hague; and the enthusiasm and tragedy of Socialism, epitomized by the assassination of Jean Jaurès on the night the Great War began and an epoch came to a close. *The Proud Tower*, *The Guns of August*, and *The Zimmermann Telegram* comprise Barbara W. Tuchman's classic histories of the First World War era.

In the summer of 2008, a conflict that appeared to have begun in the breakaway Georgian territory of South Ossetia rapidly escalated to become the most significant crisis in European security in a decade. The implications of the Russian-Georgian war will be understood differently depending on one's narrative of what transpired and perspective on the broader context. This book is designed to present the facts about the events of August 2008 along with comprehensive coverage of the background to those events. It brings together a wealth of expertise on the South Caucasus and Russian foreign policy, with contributions by Russian, Georgian, European, and American experts on the region.

The state bounds politics: it constructs and enforces boundaries that separate what it controls from what lies outside its domain. However, states face a variety of threats that cross and challenge their geographical and conceptual boundaries. Transnational violent actors that transcend these boundaries also defy the state's claims to political authority and legitimacy. Mark Shirk examines historical and contemporary state responses to transnational violence to develop a new account of the making of global orders. He considers a series of crises that plagued the state system in different eras: golden-age piracy in the eighteenth century, anarchist "propagandists of the deed" at the turn of the twentieth, and al-Qaeda in recent years. Shirk argues that states redraw conceptual boundaries, such as between "international" and "domestic," to make sense of and defeat transnational threats. In response to forms of political violence that challenged boundaries, states developed creative responses that included new forms of control, surveillance, and rights. As a result, these responses gradually made and transformed the state and global order. Shirk draws on extensive archival research and interviews with policy makers and experts, and he explores the implications for understandings of state formation. Combining rich detail and theoretical insight, *Making War on the World* reveals the role of pirates, anarchists, and terrorists in shaping global order.

From Barbara W. Tuchman, Pulitzer Prize-winning author of *The Guns of August*, comes history through a wide-angle lens: a fascinating chronicle of Britain's long relationship with Palestine and the Middle East, from the ancient world to the twentieth century. Historically, the British were drawn to the Holy Land for two major reasons: first, to translate the Bible into English and, later, to control the road to India and access to the oil of the Middle East. With the lucidity and vividness that characterize all her work, Barbara W. Tuchman follows these twin spiritual and imperial motives—the Bible and the sword—to their seemingly inevitable endpoint, when Britain conquered Palestine at the conclusion of World War I. At that moment, in a gesture of significance and solemnity, the Balfour Declaration of 1917 established a British-sponsored mandate for a national home for the Jewish people. Throughout this characteristically vivid account, Tuchman demonstrates that the seeds of conflict were planted in the Middle East long before the official founding of the modern state of Israel. Praise for *Bible and Sword* "Tuchman is a wise and witty writer, a shrewd observer with a lively command of high drama."—The Philadelphia Inquirer "In her métier as a narrative popular historical writer, Barbara Tuchman is supreme."—Chicago Sun-Times

The first volume in William Manchester's masterful, magnum opus account of Winston Churchill's life. *The Last Lion: Visions of Glory* follows the first fifty-eight years of Churchill's life--the years that mold him into the man who will become one of the most influential politicians of the twentieth century. In this, the first volume, Manchester follows Churchill from his birth to 1932, when he began to warn against the re-militarization of Germany. Born of an American mother and the gifted but unstable son of a duke, his childhood was one of wretched neglect. He sought glory on the battlefields of Cuba, Sudan, India, South Africa and the trenches of France. In Parliament he was the prime force behind the creation of Iraq and Jordan, laid the groundwork for the birth of Israel, and negotiated the independence of the Irish Free State. Yet, as Chancellor of the Exchequer he plunged England into economic crisis, and his fruitless attempt to suppress Gandhi's quest for Indian independence brought political chaos to Britain. Throughout, Churchill learned the lessons that would prepare him for the storm to come, and as the 1930's began, he readied himself for the coming battle against Nazism--an evil the world had never before seen.

"A tremendous tale of hushed and unshushed uproars in the linked fields of war and diplomacy" (The New York Times), from the Pulitzer Prize-winning author of *The Guns of August* In January 1917, the war in Europe was, at best, a tragic standoff. Britain knew that all was lost unless the United States joined the war, but President Wilson was unshakable in his neutrality. At just this moment, a crack team of British decoders in a quiet office known as Room 40 intercepted a document that would change history. The Zimmermann telegram was a top-

secret message to the president of Mexico, inviting him to join Germany and Japan in an invasion of the United States. How Britain managed to inform the American government without revealing that the German codes had been broken makes for an incredible story of espionage and intrigue as only Barbara W. Tuchman could tell it. *The Proud Tower*, *The Guns of August*, and *The Zimmermann Telegram* comprise Barbara W. Tuchman's classic histories of the First World War era.

A journalistic tour de force, this wide-ranging collection by the author of the Pulitzer Prize-winning biography *Stilwell and the American Experience in China* is a classic in its own right. During the summer of 1972—a few short months after Nixon's legendary visit to China—master historian Barbara W. Tuchman made her own trip to that country, spending six weeks in eleven cities and a variety of rural settlements. The resulting reportage was one of the first evenhanded portrayals of Chinese culture that Americans had ever read. Tuchman's observations capture the people as they lived, from workers in the city and provincial party bosses to farmers, scientists, and educators. She demonstrates the breadth and scope of her expertise in discussing the alleviation of famine, misery, and exploitation; the distortion of cultural and historical inheritances into ubiquitous slogans; news media, schools, housing, and transportation; and Chairman Mao's techniques for reasserting the Revolution. This edition also includes Tuchman's "fascinating" (*The New York Review of Books*) essay, "If Mao Had Come to Washington in 1945"—a tantalizing piece of speculation on a proposed meeting between Mao and Roosevelt that would have changed the course of postwar history.

"Shrewdly observed . . . Tuchman enters another plea for coolness, intelligence and rationality in American Asian policies. One can hardly disagree."—*The New York Times Book Review*

Barbara W. Tuchman, the Pulitzer Prize-winning author of the classic *The Guns of August*, turns her sights homeward with this brilliant, insightful narrative of the Revolutionary War. In *The First Salute*, one of America's consummate historians crafts a rigorously original view of the American Revolution. Barbara W. Tuchman places the Revolution in the context of the centuries-long conflicts between England and both France and Holland, demonstrating how the aid to the American colonies of both these nations made the triumph of independence possible. She sheds new light on the key role played by the contending navies, paints a magnificent portrait of George Washington, and recounts in riveting detail the decisive campaign of the war at Yorktown. By turns lyrical and gripping, *The First Salute* is an exhilarating account of the birth of a nation. Praise for *The First Salute* "Nothing in a novel could be more thrilling than the moment in this glorious history when French soldiers arrive [to] see a tall, familiar figure: George Washington. . . . It is only part of Tuchman's genius that she can reconstitute such scenes with so much precision and passion."—*People* "Tuchman writes narrative history in the great tradition. . . . A persuasive book, which brings us entertaining pictures, scenes and characters."—*Chicago Tribune* "[A] tightly woven narrative, ingeniously structured."—*The Christian Science Monitor*

'War pressed against every frontier. Suddenly dismayed, governments struggled and twisted to fend it off. It was no use . . .' Barbara Tuchman's universally acclaimed, Pulitzer prize-winning account of how the first thirty days of battle determined the course of the First World War is to this day revered as the classic account of the conflict's opening. From the precipitous plunge into war and the brutal and bloody battles of August 1914, Tuchman shows how events were propelled by a horrific logic which swept all sides up in its unstoppable momentum. 'Fascinating, splendid, glittering. One of the finest works of history.' *New York Times* 'Excellent.' *Wall Street Journal* 'Brilliant, exciting.' *Washington Post* 'Brilliant . . . grips the mind.' *New Yorker* 'A brilliant achievement.' *Sunday Telegraph*

"The diplomatic origins, so-called, of the War are only the fever chart of the patient; they do not tell us what caused the fever. To probe for underlying causes and deeper forces one must operate within the framework of a whole society and try to discover what moved the people in it." --Barbara W. Tuchman The fateful quarter-century leading up to the World War I was a time when the world of Privilege still existed in Olympian luxury and the world of Protest was heaving in its pain, its power, and its hate. The age was the climax of a century of the most accelerated rate of change in history, a cataclysmic shaping of destiny. In *The Proud Tower*, Barbara Tuchman concentrates on society rather than the state. With an artist's selectivity, Tuchman bings to vivid life the people, places, and events that shaped the years leading up to the Great War: the Edwardian aristocracy and the end of their reign; the Anarchists of Europe and America, who voiced the protest of the oppressed; Germany, as portrayed through the figure of the self-depicted Hero, Richard Strauss; the sudden gorgeous blaze of Diaghilev's Russian Ballet and Stravinsky's music; the Dreyfus Affair; the two Peace Conferences at the Hague; and, finally, the youth, ideals, enthusiasm, and tragedy of Socialism, epitomized in the moment when the heroic Jean Jaurès was shot to death on the night the War began and an epoch ended. "Tuchman [was] a distinguished historian who [wrote] her books with a rare combination of impeccable scholarship and literary polish. . . . It would

be impossible to read *The Proud Tower* without pleasure and admiration." --*The New York Times* "Tuchman proved in *The Guns of August* that she could write better military history than most men. In this sequel, she tells her story with cool wit and warm understanding, eschewing both the sweeping generalizations of a Toynbee and the minute-by-minute simplicisms of a Walter Lord." --*Time*

Pulitzer Prize-winning historian Barbara W. Tuchman, author of the World War I masterpiece *The Guns of August*, grapples with her boldest subject: the pervasive presence, through the ages, of failure, mismanagement, and delusion in government. Drawing on a comprehensive array of examples, from Montezuma's senseless surrender of his empire in 1520 to Japan's attack on Pearl Harbor, Barbara W. Tuchman defines folly as the pursuit by government of policies contrary to their own interests, despite the availability of feasible alternatives. In brilliant detail, Tuchman illuminates four decisive turning points in history that illustrate the very heights of folly: the Trojan War, the breakup of the Holy See provoked by the Renaissance popes, the loss of the American colonies by Britain's George III, and the United States' own persistent mistakes in Vietnam. Throughout *The March of Folly*, Tuchman's incomparable talent for animating the people, places, and events of history is on spectacular display. Praise for *The March of Folly* "A glittering narrative . . . a moral [book] on the crimes and follies of governments and the misfortunes the governed suffer in consequence."—*The New York Times Book Review* "An admirable survey . . . I haven't read a more relevant book in years."—John Kenneth Galbraith, *The Boston Sunday Globe* "A superb chronicle . . . a masterly examination."—*Chicago Sun-Times*
