#1 New York Times Bestseller "Funny and smart as hell" (Bill Gates), Allie Brosh's *Hyperbole and a Half* showcases her unique voice, leaping wit, and her ability to capture complex emotions with deceptively simple illustrations. FROM THE PUBLISHER: Every time Allie Brosh posts something new on her hugely popular blog *Hyperbole and a Half* the internet rejoices. This full-color, beautifully illustrated edition features more than fifty percent new content, with

ten never-before-seen essays and one wholly revised and expanded piece as well as classics from the website like, "The God of Cake," "Dogs Don't Understand Basic Concepts Like Moving," and her astonishing, "Adventures in Depression," and "Depression Part Two," which have been hailed as some of the most insightful meditations on the disease ever written. Brosh's debut marks the launch of a major new American humorist who will surely make even the biggest scrooge or snob laugh. We dare you not to. FROM THE AUTHOR: This is a book I wrote. Because I wrote it, I had to figure out what to put on the back cover to explain what it is. I tried to write a long, third-person summary that would imply how great the book is and also sound vaguely authoritative—like maybe someone who isn't me wrote it—but I soon discovered

that I ' m not sneaky enough to pull it off convincingly. So I decided to just make a list of things that are in the book: Pictures Words Stories about things that happened to me Stories about things that happened to other people because of me Eight billion dollars* Stories about dogs The secret to eternal happiness* *These are lies. Perhaps I have underestimated my sneakiness!

another live to 100? The answer is 'The Hidden Half' - those random, unknowable variables that mess up our attempts to comprehend the world. We humans are very clever creatures - but we're idiots about how clever we really are. In this entertaining and ingenious book, Blastland reveals how in our quest to make the world more understandable, we lose sight of how unexplainable it often is. The result - from GDP figures to medicine - is that experts know a lot less than they think. Filled with compelling stories from economics, genetics, business, and science, The Hidden Half is a warning that an explanation which works in one arena may not work in another. Entertaining and provocative, it will change how you view the world.

Mrs Dalloway, Virginia Woolf's fourth novel, offers the reader an impression of a single June day in London in 1923. Clarissa Dalloway, the wife of a Conservative member of parliament, is preparing to give an evening party, while the shell-shocked Septimus Warren Smith hears the birds in Regent's Park chattering in Greek. There seems to be nothing, except perhaps London, to link Clarissa and Septimus. She is middle-aged and prosperous, with a sheltered happy life behind her; Smith is young, poor, and driven to hatred of himself and the whole human race. Yet both share a terror of existence, and sense the pull of death. The world of Mrs Dalloway is evoked in Woolf's famous stream of consciousness style, in a lyrical and haunting language which has made this, from its publication in 1925, one of her most popular novels.

In *The Half-Made World*, Felix Gilman took readers deep into a world on the cusp of forging an identity. The Line, a cult of Industry, and the Gun, a mission of Chaos, were engaged in a war for dominance. The Line was winning city by city, enslaving the populations it conquered. A doctor of psychology, Liv Alverhuysen, was caught in the middle, unknowingly guarding a secret that both sides would do anything to have.

Now, in the amazing sequel *Rise of Ransom City*, Liv is lost on the edge of the world with Creedmor, an agent of the Gun, and the powerful Line will stop at nothing to find them. But Harry Ransom, half con man, half mad inventor, is setting the edge of the world aglow. Town by town he is building up a bankroll and leaving hope in his wake because one of his inventions is actually working. But his genius is not going unnoticed, and when he crosses paths with the two most wanted outlaws in the “unmade world,” his stage becomes even larger and presents an opportunity more lucrative than any of his scams or inventions combined.

In this breathtaking debut novel by Felix Gilman, one man embarks on a thrilling and treacherous quest for his people’s lost god—in an elaborate Dickensian city that is either blessed . . . or haunted. Arjun arrives in Ararat just as a magnificent winged creature swoops and sails over the city. For it is the day of the return of that long-awaited, unpredictable mystical creature: the great Bird. But does it come for good or ill? And in the service of what god? Whatever its purpose, for one inhabitant the Bird sparks a long-dormant idea: to map the mapless city and

liberate its masses with the power of knowledge. As of the imagination, and a brilliant tale of rebellion, the creature soars across the land, shifting topography, changing the course of the river, and redrawing the territories of the city's avian life, crowds cheer and guns salute in a mix of science and worship. Then comes the time for the Bird's power to be trapped—within the hull of a floating warship called Thunderer, an astounding and unprecedented weapon. The ship is now a living temple to the Bird, a gift to be used, allegedly, in the interests of all of Ararat. Hurtled into this convulsing world is Arjun, an innocent who will unwittingly unleash a dark power beyond his imagining—and become entangled in a dangerous underground movement that will forever transform Ararat. As havoc overtakes the streets, Arjun dares to test the city's moving boundaries. In this city of gods, he has come to search among them, not to hide. A tour de force

Thunderer heralds the arrival of a truly gifted fantasy writer who has created a tale as rich, wondrous, and captivating as the world in which it is set.

The definitive history of World War II from the African American perspective, by award-winning

historian and civil rights expert Winner of the 2023 Anisfield-Wolf Book Award in Nonfiction A New York Times Notable Book of 2022 A 2022 Book of the Year from TIME, Publishers Weekly, Booklist, and more More than one million Black soldiers served in World War II. Black troops were at Normandy, Iwo Jima, and the Battle of the Bulge, serving in segregated units while waging a dual battle against inequality in the very country for which they were laying down their lives. The stories of these Black veterans have long been ignored, cast aside in favor of the myth of the “ Good War ” fought by the “ Greatest Generation. ” And yet without their sacrifices, the United States could not have won the war. *Half American is World War II history* as you ’ ve likely never read it before. In these pages are stories of Black military heroes and civil rights icons such as Benjamin O. Davis Jr., the leader of

the legendary Tuskegee Airmen, who fought to open the Air Force to Black pilots; Thurgood Marshall, the chief lawyer for the NAACP, who investigated and publicized violence against Black troops and veterans; poet Langston Hughes, who worked as a war correspondent for the Black press; Ella Baker, the civil rights leader who advocated on the home front for Black soldiers, veterans, and their families; and James G. Thompson, the twenty-six-year-old whose letter to a newspaper laying bare the hypocrisy of fighting against fascism abroad when racism still reigned at home set in motion the Double Victory campaign. Their bravery and patriotism in the face of unfathomable racism is both inspiring and galvanizing. An essential and meticulously researched retelling of the war, *Half American* honors the men and women who dared to fight not just for democracy abroad but for their
