The Halo Effect And Eight

### **The Halo Effect**

The Halo effect is perceiving some aspects of successful companies as the reasons why they are successful.

This is a very common approach in business literature - to look at successful companies and people and their actions and characteristics and assume that those are the reasons for their success.

The halo effect is especially damaging because it often compromises the quality of data used in research. Indeed, many studies of business performance—as well as some articles that have appeared in

journals such as Harvard Business Review and McKinsey Quarterly and in academic business journals—rely on data contaminated by the halo effect.
