Murder Is Easy Hay House Incorporated Ben Horowitz, cofounder of Andreessen Horowitz and one of Silicon Valley's most respected and experienced entrepreneurs, offers essential advice on building and running a startup--practical wisdom for managing the toughest problems business school doesn't cover, based on his popular blog. While many people talk about how great it is to start a business, very few are honest about how difficult it is

to run one. Ben Horowitz analyzes the problems that confront leaders every day, sharing the insights he's gained developing, managing, selling, buying, investing in, and supervising technology companies. A lifelong rap fanatic, he amplifies business lessons with lyrics from his favorite songs, telling it straight about everything from firing friends to poaching competitors, from cultivating and sustaining a CEO mentality to knowing the right time to cash in. Filled with his trademark humor and straight talk, *The Hard Thing About Hard Things* is invaluable for veteran entrepreneurs as well as those aspiring to their own new ventures, drawing from Horowitz's personal and often humbling experiences.

Andy Grove, founder and former CEO of Intel shares his strategy for success as he takes the reader

deep inside the workings of a major company in Only the Paranoid Survive. Under Andy Grove's leadership, Intel became the world's largest chip maker and one of the most admired companies in the world. In Only the Paranoid Survive, Grove reveals his strategy for measuring the nightmare moment every leader dreads--when massive change occurs and a company must, virtually overnight, adapt or fall by the wayside--in a new way. Grove calls such a moment a Strategic Inflection Point, which can be set off by almost anything: mega-competition, a change in regulations, or a seemingly modest change in technology. When a Strategic Inflection Point hits, the ordinary rules of business go out the window. Yet, managed right, a Strategic Inflection Point can be an opportunity to win in the marketplace and emerge stronger than ever. Grove underscores his message by examining his own record of success and failure, including how he navigated the events of the Pentium flaw, which threatened Intel's reputation in 1994, and how he has dealt with the explosions in growth of the Internet. The work of a lifetime, Only the Paranoid Survive is a classic of managerial and leadership skills.

This is a complete and practical guide which highlights the authors' new strategic approaches to selling when the buyer initially declines or is

resistant on a sales opportunity. Hopkins and Katt explain that most sales reps take a traditional linear approach to selling, but that the trick in closing is in taking a more creative and circular approach. That's the key. It all starts with how the buyer initially says, "No." Too many sales reps don't pay close attention as to how that's presented. Hopkins and Katt point out that "no" may suggest all sorts of other options -- avenues that can eventually lead to the buyer actually saying yes. The authors introduce a novel concept called the Circle of Persuasion which offers sales reps a new approach in this potentially tricky process. Along the way, WHEN BUYERS SAY NO details prescriptive steps and even sample dialogues that will instruct and guide sales professionals on how to best cultivate buyer-seller relationships. There's particular emphasis on how to establish the kind of rapport that ultimately leads to a successful close.

#1 NEW YORK TIMES BESTSELLER If you want to build a better future, you must believe in secrets. The great secret of our time is that there are still uncharted frontiers to explore and new inventions to create. In *Zero to One*, legendary entrepreneur and investor Peter Thiel shows how we can find singular ways to create those new things. Thiel begins with the contrarian premise that we live in an age of technological stagnation, even if we 're too distracted by shiny mobile devices to notice. Information technology has improved rapidly, but there is no reason why progress should be limited to computers or Silicon Valley. Progress can be achieved in any industry or area of business. It comes from the most important skill that every leader must master: learning to think for yourself. Doing what someone else already knows how to do takes the world from 1 to n, adding more of something familiar. But when you do something new, you go from 0 to 1. The next Bill Gates will not build an operating system. The next

Larry Page or Sergey Brin won't make a search engine. Tomorrow's champions will not win by competing ruthlessly in today's marketplace. They will escape competition altogether, because their businesses will be unique. Zero to One presents at once an optimistic view of the future of progress in America and a new way of thinking about innovation: it starts by learning to ask the questions that lead you to find value in unexpected places.

A WALL STREET JOURNAL

BESTSELLER Do you know the best way to drive your company's growth? If not, it's time to boost your Growth IQ. Trying to find the one right move that will improve your business's performance can feel overwhelming. But, as you'll discover in Growth IQ, there are just ten simple--but

easily misunderstood--paths to growth, and every successful growth strategy can be boiled down to picking the right combination and sequence of these paths for your current context. Tiffani Bova travels around the world helping companies solve their most vexing problem: how to keep growing in the face of stiff competition and a fast-changing business environment. Whether she's presenting to a Fortune 500 board of directors or brainstorming over coffee with a startup founder, Bova cuts through the clutter and confusion that surround growth. Now, she draws on her decades of experience and more than thirty fascinating, in-depth business stories to demonstrate the opportunities--and pitfalls--of each of the ten growth paths, how they work together, and how they apply to business

today. You'll see how, for instance: * Red Bull broke Coca-Cola and PepsiCo's stranglehold on the soft drink market by taking the Customer Base Penetration path to establish a foothold with adventure sports junkies and expand into the mainstream. * Marvel transformed itself from a struggling comic book publisher into a global entertainment behemoth by using a Customer and Product Diversification strategy and shifting their focus from comic books to comic book characters in movies. * Starbucks suffered a brand crisis when they overwhelmed their customers with a Product Expansion strategy, and brought back CEO Howard Schultz to course-correct by returning to the Customer Experience path. Through Bova's insightful analyses of these and many other case

studies, you'll see why it can be a mistake to imitate strategies that worked for your competitors, or rely on strategies that worked for you in the past. To grow your company with confidence, you first need to grow your Growth IQ.

The Contrarian's Guide to Leadership

Ben Horowitz, a leading venture capitalist, modern management expert, and New York Times bestselling author, combines lessons both from history and from modern organizational practice with practical and often surprising advice to help executives build cultures that can weather both good and bad times. Ben Horowitz has long been fascinated by history, and particularly by how people behave differently than you'd expect. The time and circumstances in which they were raised often shapes them—yet a few leaders have managed to shape their times. In *What You Do Is Who*

You Are, he turns his attention to a question crucial to every organization: how do you create and sustain the culture you want? To Horowitz, culture is how a company makes decisions. It is the set of assumptions employees use to resolve everyday problems: should I stay at the Red Roof Inn, or the Four Seasons? Should we discuss the color of this product for five minutes or thirty hours? If culture is not purposeful, it will be an accident or a mistake. *What You Do Is Who You Are* explains how to make your culture purposeful by spotlighting four models of leadership and culture-building—the leader of the only successful slave revolt, Haiti's Toussaint Louverture; the Samurai, who ruled Japan for seven hundred years and shaped modern Japanese culture; Genghis

Khan, who built the world's largest empire; and Shaka Senghor, a man convicted of murder who ran the most formidable prison gang in the yard and ultimately transformed prison culture. Horowitz connects these leadership examples to modern case-studies, including how Louverture's cultural techniques were applied (or should have been) by Reed Hastings at Netflix, Travis Kalanick at Uber, and Hillary Clinton, and how Genghis Khan's vision of cultural inclusiveness has parallels in the work of Don Thompson, the first African-American CEO of McDonalds, and of Maggie Wilderotter, the CEO who led Frontier Communications. Horowitz then offers guidance to help any company understand its own strategy and build a successful culture. *What You Do Is Who You Are* is a journey through culture, from ancient to modern. Along the way, it answers a question fundamental to any organization: who are we? How do people talk about us when we're not around? How do we treat our customers? Are we there for people in a pinch? Can we be trusted? Who you are is not the values you list on the wall. It's not what you say in company-wide meeting. It's not your marketing campaign. It's not even what you believe. Who you are is what you do. This book aims to help you do the things you need to become the kind of leader you want to be—and others want to follow.

MOTIVATOR." —JACK WELCH Yum!

Brands CEO David Novak learned long ago that you can't lead a great organization of any size without getting your people aligned, enthusiastic, and focused relentlessly on the mission. But how do you do that? There are countless leadership books, but how many will actually help a Taco Bell shift manager, a Fortune 500 CEO, a new entrepreneur, or anyone in between? Over his fifteen years at Yum! Brands, Novak has developed a trademarked program—Taking People with You—that he personally teaches to thousands of managers around the world. He shows them how to make big things happen by getting people on their side. No skill in business is more important. And Yum!'s extraordinary success (at least 13 percent growth for each of the last ten

years) proves his point. Novak knows that managers don't need leadership platitudes or business school theories. So he cuts right to the chase with a step-by-step guide to setting big goals, building strong teams, blowing past your targets, and celebrating after you shock the skeptics. And then doing it again and again until consistent excellence becomes a core element of your culture.

Why is it so hard to make lasting changes in our companies, in our

communities, and in our own lives? The primary obstacle is a conflict that's built into our brains, say Chip and Dan Heath, authors of the critically acclaimed bestseller *Made to Stick*. Psychologists have discovered that our minds are ruled by two different systems - the rational mind and the emotional mind—that compete for control. The rational mind wants a great beach body; the emotional mind wants that Oreo cookie. The rational mind wants to change something at work; the emotional mind loves the comfort of the existing routine. This tension can doom a change effort - but if it is overcome, change can come quickly. In *Switch*, the Heaths show how everyday people -

employees and managers, parents and nurses - have united both minds and, as a result, achieved dramatic results:

- The lowly medical interns who managed to defeat an entrenched, decades-old medical practice that was endangering patients
- The home-organizing guru who developed a simple technique for overcoming the dread of housekeeping
- The manager who transformed a lackadaisical customer-support team into service zealots by removing a standard tool of customer service

In a compelling, story-driven narrative, the Heaths bring together decades of counterintuitive research in psychology, sociology, and other fields to shed new light on how we can effect

transformative change. Switch shows that successful changes follow a pattern, a pattern you can use to make the changes that matter to you, whether your interest is in changing the world or changing your waistline.

As Ruben Wells kneels with a gun pointed at his head all he can do is reflect on the life he spoiled. What has led him here? Was it his willingness to always try to do the right thing that has him staring at the barrel of a gun? Or was that he was too much of a people pleaser having a hard time saying no that has led to him begging for his life? Every thing begins and ends with a choice. The moment a choice is made it only takes a second for a life to

change. Ruben made a choice to initiate a relationship with the alluring Bianca Jones. She makes heads turn and every man's dream. She is beautiful as a gazelle, but as dangerous as a lioness, as she's unavailable due to being unhappily married with children. Being married doesn't keep her from wanting to pursue Ruben as well as being pursued by him. Getting involved with Bianca changes Ruben's life in ways he never could have imagined. Choices are a gift constantly given to everyone. The choices made lead to different paths. We all have to choose this day what we're going to do with our own lives not knowing what the end result will be. What kind of impact will Ruben's choices have on his life?

the Year 2019 Based on an in-depth analysis of over 2,600 leaders drawn from a database of more than 17,000 CEOs and C-suite executives, as well 13,000 hours of interviews, and two decades of experience advising CEOs and executive boards, Elena L. Botelho and Kim R. Powell overturn the myths about what it takes to get to the top and succeed. Their groundbreaking research was the featured cover story in the May-June 2017 issue of Harvard Business Review. It reveals the common attributes and counterintuitive choices that set apart successful CEOs—lessons that we can apply to our own careers. Much of what we hear about who gets to the top, and how, is wrong. Those who become chief executives set their sights on the C-suite at an early age. In fact, over 70 percent of the CEOs didn't have designs on the corner office until later in their careers. You must graduate from an elite college. In fact, only 7 percent of CEOs in the dataset are Ivy League graduates--and 8 percent didn't graduate from college at all. To become a CEO you need a flawless résumé. The reality: 45 percent of CEO candidates had at least one major career blowup. What those who reach the top do share are four key behaviors that anyone can master: they are decisive; they are reliable, delivering what they promised when the promise it, without exception; they adapt boldly, and they engage with

stakeholders without shying away from conflict. Based on this breakthrough study of the most successful people in business, Botelho and Powell offer career advice for everyone who aspires to get ahead. Based on research insights illustrated by real life stories from CEOs and boardrooms, they tell us how to: - Fast-track our career by deploying the career catapults used by those who get to the top quickly - Overcome the hidden handicaps to getting the job we want. - Avoid the 5 hazards that most commonly derail those promoted into a new role. For everyone who aspires to rise up through the organization and achieve their full potential, *The CEO Next Door* is an

In The Five Dysfunctions of a Team Patrick Lencioni once again offers a leadership fable that is as enthralling and instructive as his first two best-selling books, The Five Temptations of a CEO and The Four Obsessions of an Extraordinary Executive. This time, he turns his keen intellect and storytelling power to the fascinating, complex world of teams. Kathryn Petersen, Decision Tech's CEO, faces the ultimate leadership crisis: Uniting a team in

such disarray that it threatens to bring down the entire company. Will she succeed? Will she be fired? Will the company fail? Lencioni's utterly gripping tale serves as a timeless reminder that leadership requires as much courage as it does insight. Throughout the story, Lencioni reveals the five dysfunctions which go to the very heart of why teams even the best ones-often struggle. He outlines a powerful model and actionable steps that can be used to overcome these common hurdles and build a cohesive, effective team. Just as with his other books, Lencioni has written a compelling fable with a powerful yet deceptively simple message for all those who strive to be exceptional team leaders.

Get into the best schools. Land your next big promotion. Dress for success. Run faster. Play tougher. Work harder. Keep

score. And whatever you do—make sure you win. Competition runs through every aspect of our lives today. From the cubicle to the race track, in business and love, religion and science, what matters now is to be the biggest, fastest, meanest, toughest, richest. The upshot of all these contests? As Margaret Heffernan shows in this eye-opening book, competition regularly backfires, producing an explosion of cheating, corruption, inequality, and risk. The demolition derby of modern life has damaged our ability to work together. But it doesn't have to be this way. CEOs, scientists, engineers, investors, and inventors around the world are pioneering better ways to create great products, build enduring businesses, and grow relationships. Their secret? Generosity.

Trust. Time. Theater. From the cranberry bogs of Massachusetts to the classrooms of Singapore and Finland, from tiny start-ups to global engineering firms and beloved American organizations—like Ocean Spray, Eileen Fisher, Gore, and Boston Scientific—Heffernan discovers ways of living and working that foster creativity, spark innovation, reinforce our social fabric, and feel so much better than winning.
