Taut, atmospheric, and electrifying, this stunning first novel brings

Stalinist-era Moscow to heart-beating life and shows us how good, how rich, and how satisfying a

thriller can be. Moscow, 1936, and Stalin's Great Terror is beginning. In a deconsecrated church, a young woman is found dead, her mutilated body displayed on the altar for all to see. Captain Alexei Korolev, finally beginning to enjoy the benefits of his success with the Criminal Investigation Division of the Moscow Militia, is asked to investigate. But when he discovers that the victim is an American citizen, the NKVD—the most feared organization in Russia—becomes involved. Soon, Korolev's every step is under close scrutiny and one false move will mean exile to The Zone, where enemies of the Soviet State, both real and imagined, meet their fate in the frozen camps of the far north. Committed to uncovering the truth behind the gruesome murder,

Korolev enters the realm of the Thieves, rulers of Moscow's underworld. As more bodies are discovered and pressure from above builds, Korolev begins to question who he can trust and who, in a Russia where fear, uncertainty and hunger prevail, are the real criminals. Soon, Korolev will find not only his moral and political ideals threatened, but also his life. With Captain Alexei Korolev, William Ryan has given us one of the most compelling detectives in modern literature, a man dogged and humble, a man who will lead us through a fear-choked Russia to find the only thing that can save him or any of us—the truth.

From the international bestselling author—a “cinematic, rip-roaring

adventure mystery” about Egypt’s ancient past and a race for priceless treasure (Booklist). In 523 BC, the Persian pharaoh Cambyses dispatched an army across Egypt’s desert to destroy the oracle at Siwa—only for the entire force to be overwhelmed by a sandstorm and lost forever. Two and a half millennia later, a mutilated corpse is washed up on the banks of the Nile at Luxor; an antiques dealer is savagely murdered in Cairo; and a British archaeologist is found dead at an ancient necropolis of Saqqara. The incidents appear unconnected, but Inspector Yusuf Khalifa of the Luxor police is suspicious. And so is the archaeologist’s daughter, Tara Mullray. Following a trail of clues from both the past and the present, they enter a labyrinth of intrigue, violence, and betrayal. Their desperate search for the truth could lead them to the same fate as Cambyses’s long-lost army . . . In this “textured, well-researched and expertly paced debut” (Publishers Weekly) with “a plot as complex as a

hall of mirrors, and almost as gripping as a death threat” (Kirkus Reviews), bestselling author and real-life archaeologist Paul Sussman made his explosive entrance into the thriller field.

Since 1980, the number of people in U.S. prisons has increased more than 450%. Despite a crime rate that has been falling steadily for decades, California has led the way in this explosion, with what a state analyst called “the biggest prison building project in the history of the world.” *Golden Gulag* provides the first detailed explanation for that buildup by looking at how political and economic forces, ranging from global to local, conjoined to produce the prison boom. In an informed and impassioned account, Ruth Wilson Gilmore examines this issue through statewide, rural, and urban perspectives to explain how the expansion developed from surpluses of

finance capital, labor, land, and state capacity. Detailing crises that hit California’s economy with particular ferocity, she argues that defeats of radical struggles, weakening of labor, and shifting patterns of capital investment have been key conditions for prison growth. The results—a vast and expensive prison system, a huge number of incarcerated young people of color, and the increase in punitive justice such as the “three strikes” law—pose profound and troubling questions for the future of California, the United States, and the world. *Golden Gulag* provides a rich context for this complex dilemma, and at the same time challenges many cherished assumptions about who benefits and who suffers from the state’s commitment to prison expansion.

This book collects a selection of the papers presented at the 21st International Tyrrhenian Workshop on Digital Communications, organized by CNIT and dedicated this year to the theme "Trustworthy Internet". The workshop provided a lively discussion on the challenges involved in reshaping the Internet into a trustworthy reality, articulated around the Internet by and for People, the Internet of Contents, the Internet of Services and the Internet of Things, supported by the Network Infrastructure foundation. The papers have been revised after the workshop to take account of feedbacks received by the audience. The book also includes: i) an introduction by the Editors, setting the scene and presenting evolution scenarios; ii) five papers written by the session chairmen, reputed scientists, and each dedicated to a facet of the trustworthy Internet vision; iii) a concluding paper, reporting the outcomes of a panel held at the conclusion of the workshop, written by the two keynote speakers.

Nonhuman figures are ubiquitous in the work of Franz

Kafka, from his early stories down to his very last one.

Despite their prominence throughout his oeuvre, Kafka's animal representations have been considered first and foremost as mere allegories of intrahuman matters. In recent years, the allegorization of Kafka's animals has been poetically dismissed by Kafka's commentators and politically rejected by posthumanist scholars. Such critique, however, has yet to inspire either an overarching or an interdiscursive account. This book aims to fill this lacuna. Positing animal stories as a distinct and significant corpus within Kafka's entire poetics, and closely examining them in dialogue with both literary and posthumanist analysis, Kafka's Zoopoetics critically revisits animality, interspecies relations, and the very human-animal contradistinction in the writings of Franz Kafka.

Kafka's animals typically stand at the threshold between humanity and animality, fusing together human and nonhuman features. Among his liminal creatures we find a human transformed into vermin (in "The Metamorphosis"), an ape turned into a human being (in "A Report to an Academy"), talking jackals (in "Jackals and Arabs"), a philosophical dog (in "Researches of a Dog"), a contemplative mole-like creature (in "The Burrow"), and indiscernible beings (in

"Josefine, the Singer or the Mouse People"). Depicting species boundaries as mutable and obscure, Kafka creates a fluid human-animal space, which can be described as "humanimal." The constitution of a humanimal space radically undermines the stark barrier between human and other animals, dictated by the anthropocentric paradigm. Through denying animalistic elements in humans, and disavowing the agency of nonhuman animals, excluding them from social life, and neutralizing compassion for them, this barrier has been designed to regularize both humanity and animality. The contextualization of Kafka's animals within posthumanist theory engenders a post-anthropocentric arena, which is simultaneously both imagined and very real.

Chengli is an orphaned errand boy who lives in Chang'an China in 630 A.D. His mother has died from illness and his father is presumed dead after disappearing into the desert when Chengli was a baby. Now thirteen, Chengli feels ready for independence. He is drawn to the desert, beckoned by the howling of strange winds and the hope of learning something about his father--who he was and how he died. Chengli joins a caravan to travel down the merchant route known as the Silk Road, but it is a dangerous life, as his father knew. The desert is harsh, and there are many bandits--bandits interested in

Chengli's caravan because a princess, her servants, and royal guards are traveling with them. But the desert is full of amazing places and life-changing experiences, as the feisty princess learns the meaning of friendship and Chengli learns the heroism of which he is capable.

An ancient secret threatens to unleash a modern war in this international-best-selling “thriller on par with the best literature out there” (James Rollins). Jerusalem, 70 AD: As the invading Romans destroy the Holy Temple, a young Jewish boy is hidden away—chosen as the guardian of a great secret. And for seventy generations, the secret is kept safe . . . But now, in order to ignite a new conflict between Israel and the Arab world, a Jewish radical is prepared to reveal what has been hidden for centuries. The only ones who can stop the coming bloodshed are a beautiful young Palestinian journalist and two detectives—one Israeli, one Egyptian—in an unlikely alliance. As their separate searches for the truth intertwine, they discover there are some in this war-torn region who believe true peace can only be found in death . . . Full of the detail and in-depth

knowledge only a bestselling author and true-life archaeologist could deliver, this is a “tightly-plotted, richly-observed, thought-provoking thriller” (Raymond Khoury).

“Sussman, an archeologist, puts in plenty of satisfying twists and turns, and grounds the story in the violence and intrigue of the current Israeli-Palestinian conflict.”

A woman uncovers a millennia-old Egyptian conspiracy in this novel from “one of the best writers of international suspense in the business” (Steve Berry). Over four thousand years ago, the ninety-four-year reign of pharaoh Pepi II ended in chaos. In the dead of night, a party of priests set out into the desert, dragging with them a sled carrying a mysterious object. None of them returned. In modern Egypt, Freya Hannan arrives for the funeral of her estranged sister, Alex, who is said to have committed suicide. But as Freya goes through her sister's belongings, she comes to suspect that Alex was murdered. Soon, Freya realizes that Alex's life was as mysterious as her death. And the search for the truth will ensnare Freya in a lethal conspiracy going back millennia—pushing her to hunt

not only for her sister's killer, but also for an ancient artifact that could tilt the global balance of power. Full of breakneck thrills and daring escapes combined with the genuine feel for the ancient past that only a true archaeologist can bring, “The Hidden Oasis is a rip-roaring gem of a read” (Raymond Khoury).

Insane with grief, Professor Dennis Thomas blames Detective Christopher Sentz for the death of his wife and wants to kill him. In fact, Thomas shares his revenge plans with Ben Kincaid. Then someone fires seven bullets into the police officer. Against all advice and going on instinct, Kincaid decides to represent the troubled professor, who faces a charge of capital murder. Meanwhile, Kincaid's personal private detective, Loving, starts prying loose pieces of a shocking secret. Working in the shadows of the law, Loving risks his life to construct an entirely new narrative about Detective Sentz, Joslyn Thomas, and madness in another guise: the kind that every citizen should fear and no one will recognize—until it is too late. Trustworthy Internet Springer Science & Business Media Structure and Interpretation of Computer Programs has had a dramatic impact on computer science curricula over the past decade. This long-awaited revision contains changes throughout the text. There are new implementations of most of the major programming systems in the book, including the interpreters and compilers, and the authors have incorporated many small changes that reflect their experience teaching the course at MIT since the first edition was published. A new theme has been introduced that emphasizes the central role played by different approaches to dealing with time in computational models: objects with state, concurrent programming, functional programming and lazy evaluation, and nondeterministic programming. There are new example sections on higher-order procedures in graphics and on applications of stream processing in numerical

programming, and many new exercises. In addition, all the programs have been reworked to run in any Scheme implementation that adheres to the IEEE standard.

BESETSELLER • “Those who relish suspense in the Da Vinci Code vein will snap this one up, the best yet in the series.”—Publishers Weekly (starred review) As a child, former Justice Department agent Cotton Malone was told that his father died in a submarine disaster in the North Atlantic. But what he now learns stuns him: His father’s sub was a secret nuclear vessel lost on a highly classified mission beneath the ice shelves of Antarctica. Twin sisters Dorothea Lindauer and Christl Falk are also determined to find out what became of their father, who died on the same submarine—and they know something Malone doesn’t: Inspired by strange clues discovered in Charlemagne’s tomb, the Nazis explored Antarctica before the Americans. Now Malone discovers that cryptic journals penned in “the language of heaven,” conundrums posed by an ancient historian, and his father’s ill-fated voyage are all tied to a revelation of immense consequence for

humankind. As Malone embarks on a dangerous quest with the sisters, he will finally confront the shocking truth of his father's death and the distinct possibility of his own. **BONUS:** This edition contains an excerpt from Steve Berry's *The Columbus Affair* and a Cotton Malone dossier.
