What was the true purpose of the great megalithic sites in Western Europe? In this international bestseller, the authors question the standard views of history and the development of science. They show how, in megalithic times, a civilization emerged able to build an international network of sophisticated astronomical observatories. Further, they show that recently revealed Dead Sea Scroll texts contain precise details on the building of a

machine in the reconstruction of a shattered world. "From the Paperback edition."

the Hiram Key also explores how these rituals have helped history's most accomplished men to reach their goals - from Louis Armstrong and Charles Lindbergh to George Washington and Franklin D. Roosevelt to John Wayne and Buzz Aldrin.

*Freemasonry Birth Mod Science Pb* Simon and Schuster

From the co-author of the international bestseller *Who Built the Moon?* comes this well-researched scientific study of the possibility of a divine creator – or God. This book puts the idea of God on trial. Whilst the case has been hotly disputed over recent generations with scientists on one side and theologians on the other, evidence either way has been thin on the ground. Faith - belief without evidence - has been the basis for the world's major religions. Most scientists reject the notion of God because they require factual, empirical evidence in order to accept any proposition as being real. However, new information has become available, which appears to provide hard-nosed evidence of God's existence. Can faith be replaced by understanding, and can scientists formally embrace, once again, the concept of a supreme being as they did in Isaac Newton's day? Nothing less than God's 'blueprint' appears to have been discovered - found by chance by the author while researching the science of the Neolithic (late Stone Age) people of western Europe. The case will be

tried taking the evidence step-by-step. You, the reader, are the jury. You must evaluate the evidence as the proceedings develop and, to aid you, there will be a brief summing up at the end of each section. At the close of the book you are asked to make a judgment as to whether the case is proven or not. Does God exist?

*The 32 Secret Paths of Solomon* is a new examination of the role of Qabalah in Freemasonry. This book explores how Freemasonry holds certain keys which reveal a completely new perspective to the Qabbalistic science. Qabalah is mentioned many times in the degrees of Freemasonry, and this book explores why an understanding of Qabalah is important in order to truly understand Masonic ritual. This book also publishes for the first time gematria correspondences which are found within Masonic ritual, and it demonstrates how Freemasonry holds the keys to understanding a different layout of the Qabbalistic Tree than has ever been published before. This book

will be of value to both the new and old student of the Qabbalistic science.

*Solomon's Builders* Rowman & Littlefield  
The authors of *Civilization One* return, bringing new evidence about the Moon that will shake up our world. Christopher Knight and Alan Butler realized that the ancient system of geometry they presented in their earlier, breakthrough study works as perfectly for the Moon as it does the Earth. On further investigation, they found a consistent sequence of beautiful integer numbers when looking at every major aspect of the Moon--no such pattern emerges for any other planet or moon in the solar system. In addition, Knight and Butler discovered that the Moon possesses few or no heavy metals and has no core—something that should not be possible. Their persuasive conclusion: if higher life only developed on Earth because the Moon is exactly what it is and where it is, it becomes unreasonable to cling to the idea that the Moon is a natural object. The only question that remains is, who built it?

Many people are curious about the existence of secret societies which

claim to hold arcane religious or esoteric knowledge and pass it down through the generations via selected adepts. Classic Masonic writers including William Preston, Robert Gould, JSM Ward, AE Waite and WL Wilmshurst have written about secret traditions connected to the Temple of Sion. Each has different ideas about how mystical knowledge came into Freemasonry. Some say that the Charter of Larmenius reveals an underground line of Knight Templar Grand Masters who survived down to the nineteenth century. All agree there is a Secret Lodge or House of Adepts who continue to teach "true" knowledge of the ancient mysteries and that The Craft transmits beliefs linked to the Earls of Rosslyn, the Knights Templar, and Lodge Mother Kilwinning. Masonic expert Robert Lomas has collected together this thread of belief from old Masonic writers and rewritten it in modern English to make the ideas accessible to modern readers.

Today, there are more than twenty complete zodiacs in Washington, D.C., each one

pointing to an extraordinary mystery. David Ovason, who has studied these astrological devices for ten years, now reveals why they have been placed in such abundance in the center of our nation's capital and explains their interconnections. His richly illustrated text tells the story of how Washington, from its foundation in 1791, was linked with the zodiac, with the meaning of certain stars, and with a hidden cosmological symbolism that he uncovers here for the first time. Fascinating and thoroughly researched, *The Secret Architecture of Our Nation's Capital* is an engrossing book that raises provocative questions and offers complex insights into the meanings behind the mysterious symbols in Washington.

The real purpose of this research is the exploration of the Bible and its many African hidden secrets. The use of Tubal Cain in Masonic ritual is derived from the old legends of the craft by the operative and then speculative masons; it refers symbolically but historically to his scriptural and traditional reputation as an artificer. Tubal Cain is the 8th man from Adam. In the bible it mentions that Tubal-Cain was the first to manipulate metal. He is quoted as being the first instructor of

brass and iron. This Pamphlet will break down and analyze the symbolism behind this sacred password.

For almost seven and a half centuries, a piece of cloth was venerated because it bore the image of the crucified Christ. However, but results of carbon dating have shown that the fabric could not have predated 1260. Now new evidence conclusively proves that it is not a face...yet neither is it the image of Jesus Christ. In the follow-up to their groundbreaking first book, *The Hiram Key*, Christopher Knight and Robert Lomas continue their research into the mysteries of Freemasonry and the true historical Jesus, and uncover the precise time and place of the shroud's creation. The answer to the great mystery of the Shroud of Turin will surprise and astonish as the authors unlock the secrets of abandoned Freemason rituals and the man who would be called the Second Messiah.

*The Lost Key - The Supranatural Secrets of the Freemasons* contains revelations that only an initiate of the highest orders of esoteric Freemasonry is in a position to make. Here is the truth behind the hints in Dan Brown's *The Lost Symbol* that Freemasonry is concerned to reawaken the hidden potentialities and powers of the human mind. The thrilling narrative of this new book follows a candidate

for initiation as he rises through the different grades of initiation, taking part in ceremonies that are sometimes terrifying but always revealing of new knowledge and presenting new mysteries which will only be solved when the next stage of initiation has been achieved. Dramatic episodes include the re-enacting of an ancient murder from 3,000 years ago in full gory detail, lowering the candidate on the end of a rope into a dark vault under the floor of the temple, holding a dagger to the candidate's naked breast, and making the candidate attend his own funeral. In the secret teachings revealed to some high-level initiates, there is a type of instruction which seems curiously similar to religious and mystical teachings. Astrology, angels, chakras and the powers of the mind to operate independently of the body, such as in remote viewing, are all a part of Freemasonic lore. Here Lomas, co-author of the international bestseller *The Hiram Key*, reveals to a wider public and also explains these secret teachings for the first time. He shows that while they are dismissed as superstitious by campaigners for atheism such as Richard Dawkins, they are very much part of the strange, paradoxical world opened up by the latest thinking in quantum physics. This is why he prefers to call them 'Supranatural'. *The Book of Hiram* Fair Winds Press Reveals the secret spiritual exercises of the Bektashi Order of Sufis • Shows how

this order, also known as Oriental Freemasonry, preserves the ancient spiritual doctrines forgotten by modern Freemasonry • Explains how to transform the soul into the alchemical Magnum Opus by combining Masonic grips and the abbreviated letters of the Qur'an • Includes a detailed biography of Baron von Sebottendorff Originally published in Germany in 1924, this rare book by Baron Rudolf von Sebottendorff reveals the secret spiritual exercises of the Bektashi Order of Sufis as well as how this order, also known as Oriental Freemasonry, preserves the ancient spiritual doctrines forgotten by modern Freemasonry. Sebottendorff explains how the mysterious abbreviated letters found in the Qur'an represent formulas for perfecting the spirit of the individual. When combined with Masonic hand signs and grips and conducted accordingly to a precise schedule, these formulas incorporate spiritual power into the body and transform the soul from its base state into a noble, godlike state: the Magnum Opus of the medieval alchemists. Laying out the complete program of spiritual exercises, Sebottendorff explains each abbreviated word-formula in the Qur'an, the hand

gestures that go with them, and the exact order and duration for each exercise. Including a detailed biography of Sebottendorff and an examination of alchemy's Islamic heritage, this book shows how the traditions of Oriental Freemasonry can ennoble the self and lead to higher knowledge. **The Secret Science of Masonic Initiation** Constable Is Freemasonry nothing more than a benign and charitable men's social club as the Order insists or does it have a deeper and perhaps darker purpose? Could these men be part of the "Illuminati" - a group of intellectuals with extremely grand plans for the development of civilization? And if so, what is the grand plan that these men were so determined to bring about, and why should there be such opposition to it? Christopher Knight and Alan Butler reveal that present-day freemasons are the spiritual descendents of an ancient priesthood that was forced to act in secrecy. In the early days of Christianity, their views offended and opposed those of the orthodox Church, and later in feudal Europe, both the State and the established Church considered them heretics and sworn enemies. Yet, they could not be

---

silenced - or defeated - and members of this priesthood have continued to this day to work in subtle and sometimes subversive ways to achieve their aims, often occupying very elevated positions within Western society, and always maintaining complete anonymity to those outside their fellowship. The extraordinary story that unfolds in "Solomon's Power Brokers" reveals that the building of the modern world was no haphazard process. There was a grand plan - and it has succeeded. The "New World Order" is already here.
