From the renowned journalist comes this intimate account of his years in the field, traveling for the first time beyond the Iron Curtain to India, China, Ethiopia, and other exotic locales. In the 1950s, Ryszard Kapuscinski finished university in Poland and became a foreign correspondent, hoping to go abroad – perhaps to Czechoslovakia. Instead, he was sent to India – the first stop on a decades-long tour of the world that took Kapuscinski from Iran to El Salvador, from Angola to Armenia. Revisiting his memories of traveling the globe with a copy of Herodotus' Histories in tow, Kapuscinski describes his awakening to the intricacies and idiosyncrasies of new environments, and how the words of the Greek historiographer helped shape his own view of an increasingly globalized world. Written with supreme eloquence and a constant eye to the global undercurrents that have shaped the last half-century, Travels with Herodotus is an exceptional chronicle of one man's journey across continents.

With more than 1,100 impeccably sourced quotes from throughout John Wayne's 172-film career, John Wayne Speaks: The Ultimate John Wayne Quote Book provides what has often been missing from other Duke Wayne reference books: accuracy, context, and comprehensiveness. These quotations offer a deep dive into Wayne's

films and acting persona—the iconic American man of action whose sense of values and decency are a veneer covering a boiling pot of determination, courage, outrage, and even violence. The quotes in John Wayne Speaks are at once inspirational, humorous, touching, and revealing. Author and veteran journalist Mark Orwoll has created an overlay of categories into which each quote fits, making the manuscript easy for readers to find the type of quote—or even the exact quote, footnoted to identify its film—they may be searching for. But John Wayne Speaks is more than just a collection of the actor's movie lines. Orwoll has researched and written an in-depth introduction to Wayne's film career to put the quotes in a broader context. Movie-lovers will also appreciate the author's opinionated capsule reviews and production notes from Wayne's complete filmography. John Wayne Speaks is the quote book that every fan of the Duke needs and a delightful addition to any cinephile's library.

This book is a collection of papers from an international inter-disciplinary conference focusing on storytelling and human life. The chapters in this volume provide unique accounts of how stories shape the narratives and discourses of people's lives and work; and those of their families and broader social networks. From making sense of history; to documenting biographies and current pedagogical approaches; to exploring current and emerging spatial and media trends; this book explores the possibilities of narrative approaches as a theoretical

scaffold across numerous disciplines and in diverse contexts. Central to all the chapters is the idea of stories being a creative and reflexive means to make sense of people's past, current realities and future possibilities. How to design a world in which we rely less on stuff, and more on people. We're filling up the world with technology and devices, but we've lost sight of an important question: What is this stuff for? What value does it add to our lives? So asks author John Thackara in his new book, *In the Bubble: Designing for a Complex World*. These are tough questions for the pushers of technology to answer. Our economic system is centered on technology, so it would be no small matter if "tech" ceased to be an end-in-itself in our daily lives. Technology is not going to go away, but the time to discuss the end it will serve is before we deploy it, not after. We need to ask what purpose will be served by the broadband communications, smart materials, wearable computing, and connected appliances that we're unleashing upon the world. We need to ask what impact all this stuff will have on our daily lives. Who will look after it, and how? *In the Bubble* is about a world based less on stuff and more on people. Thackara describes a transformation that is taking place now—not in a remote science fiction future; it's not about, as he puts it, "the schlock of the new" but about radical innovation already emerging in daily life. We are regaining respect for what people can do that technology can't. *In the Bubble* describes services designed to help people carry out daily activities in new ways. Many of these services involve technology—ranging from body implants to wide-bodied jets. But objects and systems play a supporting role in a people-centered world. The design focus is on services, not things. And new principles—above all, lightness—inform the way these services are designed and used. At the

heart of *In the Bubble* is a belief, informed by a wealth of real-world examples, that ethics and responsibility can inform design decisions without impeding social and technical innovation.

Yearning for a life of leisure? In 24 chapters representing each hour of a typical working day, this book will coax out the loafer in even the most diligent and schedule-obsessed worker. From the founding editor of the celebrated magazine about the freedom and fine art of doing nothing, *The Idler*, comes not simply a book, but an

antidote to our work-obsessed culture. In *How to Be Idle*, Hodgkinson presents his learned yet whimsical argument for a new, universal standard of living: being happy doing nothing. He covers a whole spectrum of issues affecting the modern idler—sleep, work, pleasure, relationships—bemoaning the cultural skepticism of idleness while reflecting on the writing of such famous apologists for it as Oscar Wilde, Robert Louis Stevenson, Dr. Johnson, and Nietzsche—all of whom have admitted to doing their very best work in bed. It's a well-known fact that Europeans spend fewer hours at work a week than Americans. So it's only befitting that one of them—the very clever, extremely engaging, and quite hilarious Tom Hodgkinson—should have the wittiest and most useful insights into the fun and nature of being idle. Following on the quirky, call-to-arms heels of the bestselling *Eat, Shoots and Leaves: The Zero Tolerance Approach to Punctuation* by Lynne Truss, *How to Be Idle* rallies us to an equally just and no less worthy cause: reclaiming our right to be idle.

Two major trends have recently swept the travel world: the first, an overwhelming desire (thanks to Elizabeth Gilbert's bestseller, *Eat, Pray, Love*) to write one's own memoir; the second, an explosion of social media, blogs, twitter and texts, which allow travelers to document and share their experiences instantaneously. Thus, the act of chronicling one's journey has never been more popular, nor the urge stronger. *Writing Away: A Creative Guide to Awakening the Journal-Writing Traveler*, will inspire budding memoirists and jetsetting scribes alike. But *Writing Away* doesn't stop there—author Lavinia Spalding spins

the romantic tradition of keeping a travelogue into a modern, witty adventure in awareness, introducing the traditional handwritten journal as a profoundly valuable tool for self-discovery, artistic expression, and spiritual growth. Writing Away teaches you to embrace mishaps in order to enrich your travel experience, recognize in advance what you want to remember, tap into all your senses, and connect with the physical world in an increasingly technological age. It helps you overcome writer ' s block and procrastination; tackle the discipline, routine, structure, and momentum that are crucial to the creative process; and it demonstrates how traveling—while keeping a journal along the way—is the world ' s most valuable writing exercise.

The issue of truth has been one of the most constant, complex, and contentious in the cultural history of travel writing. Whether the travel was undertaken in the name of exploration, pilgrimage, science, inspiration, self-discovery, or a combination of these elements, questions of veracity and authenticity inevitably arise. Women, Travel, and Truth is a collection of twelve essays that

explore the manifold ways in which travel and truth interact in women's travel writing. Essays range in date from Lady Mary Wortley Montagu in the eighteenth century to Jamaica Kincaid in the twenty-first, across such regions as India, Italy, Norway, Siberia, Austria, the Orient, the Caribbean, China and Mexico. Topics explored include blurred distinctions of fiction and non-fiction; travel writing and politics; subjectivity; displacement, and exile. Students and academics with interests in literary studies, history, geography, history of art, and modern languages will find this book an important reference.

First published in 1982. *The Art of Travel* is the first collection of critical essays to be devoted to British travel writing. It attempts to give a sense of the wealth of such writing, to map some of its forms and conventions and, implicitly, to claim a place for travel writing in any revised definition of literature. For this collection, travel includes sea voyages, European tours, commissioned enquiries into social conditions, and urban writing; travel writing ranges from works such as *Sea and Sardinia* by D.H. Lawrence whose status as a novelist guarantees his travel books some attention, through the essays and books of Victorian middle-class travellers into working-class London, to the work of V.S. Naipaul, a contemporary writer, who has increasingly preferred the travel book to the novel.
