unforgettable story
of a daredevil female
aviator determined to
chart her own course
in life, at any cost:
an "epic trip—through
Prohibition and World
War II, from Montana
to London to present-
day Hollywood—and

you'll relish every minute" (People). After being rescued as infants from a sinking ocean liner in 1914, Marian and Jamie Graves are raised by their dissolute uncle in Missoula, Montana. There--after encountering a pair of barnstorming pilots passing through town in beat-up biplanes--Marian commences her lifelong love affair with flight. At fourteen she drops out of school and finds an unexpected and dangerous patron in a wealthy bootlegger who provides a plane and subsidizes her lessons, an arrangement that will haunt her for the

rest of her life, even as it allows her to fulfill her destiny: circumnavigating the globe by flying over the North and South Poles. A century later, Hadley Baxter is cast to play Marian in a film that centers on Marian's disappearance in Antarctica. Vibrant, canny, disgusted with the claustrophobia of Hollywood, Hadley is eager to redefine herself after a romantic film franchise has imprisoned her in the grip of cult celebrity. Her immersion into the character of Marian unfolds, thrillingly, alongside Marian's own story, as the two women's fates--and

their hunger for self-determination in vastly different geographies and times--collide. Epic and emotional, meticulously researched and gloriously told, Great Circle is a monumental work of art, and a tremendous leap forward for the prodigiously gifted Maggie Shipstead.

his own family drama, has grown bored with weekends fueled by nameless girls and countless bottles when he meets Avery. Helping her cope with her past is better than dealing with the bullshit his own life's served up.

Determined to drive away the painful secret she's guarding, he appoints himself her life coach, and challenges her to new experiences. Getting close to her and being the one to make her smile are simply perks of the job. But when Avery's past boldly saunters in, refusing to be forgotten, can Jase live with the truth about the girl he's fallen for?

“ Startling . . . richly
crammed with insights,
stories, fine phrases

and intriguing asides. ” —The Wall Street Journal Just as human bones get stronger when subjected to stress and tension, many things in life benefit from disorder, volatility, and turmoil. What Taleb has identified and calls “antifragile” is that category of things that not only gain from chaos but need it in order to survive and flourish. The resilient resists shocks and stays the same; the antifragile gets better and better. What is crucial is that the antifragile loves errors, as it incurs small harm and large benefits from them. Spanning politics, urban planning, war, personal finance, economic systems, and medicine in an interdisciplinary and erudite style, Antifragile is a blueprint for living in a Black Swan world. THE BLACK SWAN “ [A book] that altered modern thinking. ” —The Times (London) A black swan is a highly improbable event with three principal characteristics: It is unpredictable; it carries a massive impact; and, after the fact, we concoct an explanation that makes it appear less random and more predictable. The astonishing success of Google was a black swan; so was 9/11. In this groundbreaking and prophetic book, Taleb shows that black swan

events underlie almost everything about our world, from the rise of religions to events in our own personal lives, and yet we—especially the experts—are blind to them. **FOOLED BY RANDOMNESS**

“ [Fooled by Randomness] is to conventional Wall Street wisdom approximately what Martin Luther ’ s ninety-five theses were to the Catholic Church. ” —Malcolm Gladwell, *The New Yorker* Are we capable of distinguishing the fortunate charlatan from the genuine visionary? Must we always try to uncover nonexistent messages in random events? **Fooled by Randomness**

is about luck: more precisely, about how we perceive luck in our personal and professional experiences. Set against the backdrop of the most conspicuous forum in which luck is mistaken for skill—the markets—**Fooled by Randomness** is an irreverent, eye-opening, and endlessly entertaining exploration of one of the least understood forces in our lives. **THE BED OF PROCRUSTES**

“ Taleb ’ s crystalline nuggets of thought stand alone like esoteric poems. ” —Financial Times This collection of aphorisms and meditations expresses Taleb ’ s major ideas in

ways you least expect. The Bed of Procrustes takes its title from Greek mythology: the story of a man who made his visitors fit his bed to perfection by either stretching them or cutting their limbs. With a rare combination of pointed wit and potent wisdom, Taleb plows through human illusions, contrasting the classical views of courage, elegance, and erudition against the modern diseases of nerdiness, philistinism, and phoniness.

The Impact Zone Simon and Schuster

“What are you reading?” That’s the question Will Schwalbe asks his mother, Mary Anne, as they sit in the waiting room of the Memorial Sloan-Kettering

Cancer Center. In 2007, Mary Anne returned from a humanitarian trip to Pakistan and Afghanistan suffering from what her doctors believed was a rare type of hepatitis. Months later she was diagnosed with a form of advanced pancreatic cancer, which is almost always fatal, often in six months or less. This is the inspiring true story of a son and his mother, who start a “book club” that brings them together as her life comes to a close. Over the next two years, Will and Mary Anne carry on conversations that are both wide-ranging and deeply personal, prompted by an eclectic array of books and a shared passion for reading. Their list jumps from classic to popular, from poetry to mysteries, from fantastic to spiritual. The issues they discuss include questions of faith and

courage as well as everyday topics such as expressing gratitude and learning to listen. Throughout, they are constantly reminded of the power of books to comfort us, astonish us, teach us, and tell us what we need to do with our lives and in the world. Reading isn't the opposite of doing; it's the opposite of dying. Will and Mary Anne share their hopes and concerns with each other—and rediscover their lives—through their favorite books. When they read, they aren't a sick person and a well person, but a mother and a son taking a journey together. The result is a profoundly moving tale of loss that is also a joyful, and often humorous, celebration of life: Will's love letter to his mother, and theirs to the printed page. This eBook edition includes a Reading Group Guide.

The Power of Moments Vintage Canada

FBI agent Josh Metcalf believes he has uncovered a decades-long conspiracy involving missing children. His obsession has led him to compile hundreds of cases. All involve children rumored to have psychic abilities--and all have no witnesses, no leads, and no resolution. Meanwhile, Rowan Wilson, a meteorite hunter for NASA's Spaceguard Program, is losing her grip on the past.

Memories of the childhood she thought she'd had are vanishing, and dark recollections of kidnappings, mind control, and an isolated mountain ranch are taking their place. When Rowan's shadowed past converges with Josh's research, they uncover a deadly plot to reshape humanity. With the world's survival dependent on stopping a vast network of conspirators, can they decipher--and expose--the truth in time?

Sticks and stones will break my bones, but names will never hurt me? This lie has been taught to children for years. We claim it strengthens them. Allows them to let the harsh words of other children roll off their backs. But the truth is that words have power. Power to encourage. Power to heal. But also power to intimidate, power to scourge, and power to wound. How are you using the power of words? What we say has both spiritual and physical implications. Revelation 21:8 tells us that liars have their place in the Lake of Fire. And we all have seen the devastation wreaked by rumors on innocent reputations. Yet with the same intensity, kind words can soothe a broken spirit and restore shattered relationships. Your words also say a lot about you. Jesus said, 'For out of the overflow of the heart the mouth speaks' (Matthew 12:34). If our hearts are not in

tune with God, neither will be our words. In *The Weight of Your Words*, Joseph Stowell shares the truth about the tongue straight from the Bible, God's Word to His people. He challenges us to not allow our mouths to be controlled by our anger or our circumstances, but rather, to be controlled by the Holy Spirit and His work in our lives. Take inventory of your words and your heart attitude with Joseph Stowell in *The Weight of Your Words*. Great Circle HarperCollins Wall Street Journal Bestseller A thought-provoking, accessible, and essential exploration of why some leaders (" Diminishers ") drain capability and intelligence from their teams, while others (" Multipliers ") amplify it to produce better results. Including a foreword by Stephen R. Covey, as well the five key disciplines

that turn smart leaders into genius makers, *Multipliers* is a must-read for everyone from first-time managers to world leaders.

The Eye in the Door Farrar,
Straus and Giroux (BYR)

A novel in verse about a young deaf boy during World War II, the sister who loves him, and the conscientious objector who helps him. Inspired by true events. Henry has been deaf from an early age—he is intelligent and aware of language, but by age six, he has decided it's not safe to speak to strangers. When the time comes for him to start school, he is labeled "unteachable." Because his family has very little money, his parents and older sister, Molly, feel powerless to help him. Henry is sent to Riverview, a bleak institution where he is misunderstood, underestimated, and harshly treated. Victor, a conscientious objector to World War II, is part of a Civilian Public Service program offered as an alternative to the draft. In

1942, he arrives at Riverview to serve as an attendant and quickly sees that Henry is far from unteachable—he is brave, clever, and sometimes mischievous. In Victor's care, Henry begins to see how things can change for the better.

Heartbreaking and ultimately hopeful, Helen Frost's *All He Knew* is inspired by true events and provides sharp insight into a little-known element of history.

The Impact of You Random House

The instant #1 New York Times bestseller! “ It's the best memoir I've ever read. ” —Oprah Winfrey “ Will Smith isn't holding back in his bravely inspiring new memoir . . . An ultimately heartwarming read, Will provides a humane glimpse of the man behind the actor, producer and musician, as he bares all his insecurities and trauma. ” —USA Today Winner of the NAACP Image Award for Outstanding Literary Achievement One of the most

dynamic and globally recognized entertainment forces of our time opens up fully about his life, in a brave and inspiring book that traces his learning curve to a place where outer success, inner happiness, and human connection are aligned. Along the way, *Will* tells the story in full of one of the most amazing rides through the worlds of music and film that anyone has ever had. Will Smith's transformation from a West Philadelphia kid to one of the biggest rap stars of his era, and then one of the biggest movie stars in Hollywood history, is an epic tale—but it's only half the story. Will Smith thought, with good reason, that he had won at life: not only was his own success unparalleled, his whole family was at the pinnacle of the entertainment world. Only they didn't see it that way: they felt more like star performers in his circus, a seven-days-a-week job they hadn't signed up for. It turned out Will Smith's education wasn't nearly over. This memoir is the product of a profound journey of self-knowledge, a reckoning with all that your will can get you and all that it can leave behind. Written with the help of Mark Manson, author of the multi-million-copy bestseller *The Subtle Art of Not Giving a F*ck*, *Will* is the story of how one person mastered his own emotions, written in a way that can help everyone else do the same. Few of us will know the pressure of performing on the world's biggest stages for the highest of stakes, but we can all understand that the fuel that works for one stage of our journey might have to be changed if we want to make it all the way home. The combination of genuine wisdom of universal value and a life story that is preposterously entertaining, even astonishing, puts *Will* the book, like its author, in a category by itself.

The New York Times bestselling authors of *Switch* and *Made to Stick* explore why certain brief experiences can jolt us and elevate us and change us—and how we can learn

to create such extraordinary moments in our life and work. While human lives are endlessly variable, our most memorable positive moments are dominated by four elements: elevation, insight, pride, and connection. If we embrace these elements, we can conjure more moments that matter. What if a teacher could design a lesson that he knew his students would remember twenty years later? What if a manager knew how to create an experience that would delight customers? What if you had a better sense of how to create memories that matter for your children? This book delves into some fascinating mysteries of experience: Why we tend to remember the best or worst moment of an experience, as well as the last moment, and

forget the rest. Why “ we feel most comfortable when things are certain, but we feel most alive when they ’ re not. ” And why our most cherished memories are clustered into a brief period during our youth. Readers discover how brief experiences can change lives, such as the experiment in which two strangers meet in a room, and forty-five minutes later, they leave as best friends. (What happens in that time?) Or the tale of the world ’ s youngest female billionaire, who credits her resilience to something her father asked the family at the dinner table. (What was that simple question?) Many of the defining moments in our lives are the result of accident or luck—but why would we leave our most meaningful, memorable

moments to chance when we can create them? The Power of Moments shows us how to be the author of richer experiences.

organizations. In *Contagious Culture*, Anese Cavanaugh proved that it 's possible to create an energized and engaged organizational culture that spreads from person to person.
