The author, 81, a retired English teacher, decides to leave his several volunteer tasks for the community to fly west from Abington, Pennsylvania, 12 miles north of Philadelphia, to visit a granddaughter in Las Vegas, Nevada; a sister in Portland, Oregon; an older son in San Francisco, California; and a younger son in Austin, Texas, and the people these 4 live with. He is sure that these travels the 2nd half of August 2007 will be his final flights. After 3 weeks of visiting his family, the author returns home to his 3 volunteer tasks, tutoring 6 Korean women in correct English writing, delivering Meals on Wheels, and working 3 mornings for 3 days in Abington Hospital. He makes plans to spend 10 days in New York City the end of September to attend several Metropolitan operas and several Broadway shows. Before 2007 ends, his older son's daughter makes him a great-grandfather. The author looks forward to his Las Vegas granddaughter's wedding in Atlantic City in June 2008 and to the presidential election November 4. He becomes a great-grandfather for the 2nd time just before Barack Obama is elected President of the United States.

The New Cambridge Shakespeare appeals to students worldwide for its up-to-date scholarship and emphasis on performance. The series features line-by-line commentaries and textual notes on the plays and poems. Introductions are regularly refreshed with accounts of new critical, stage and screen interpretations. This second edition of The Merchant of Venice retains the text and Introduction prepared by M. M. Mahood and features a new introductory section by Charles Edelman. Where Mahood focuses in her Introduction on the expectations of the play's first audience and on our modern experience of seeing and hearing the drama performed, Edelman explores the play's sexual politics. He also foregrounds recent scholarship on the position of Jews in Shakespeare's time and surveys the international scope and diversity of theatrical interpretations of the text in the 1980s and 1990s. He pays particular attention to the ways in which directors and actors tackle the troubling figure of Shylock.

As Sal entertains her grandparents with Phoebe's outrageous story, her own story begins to unfold—the story of a thirteen-year-old girl whose only wish is to be reunited with her missing mother. The Phantom Tollbooth Teacher Created Materials Undoing Ableism is a sourcebook for teaching about disability and anti-ableism in K – 12 classrooms. Conceptually grounded in disability studies, critical pedagogy, and social justice education, this book provides both a rationale as well as strategies for broad-based inquiries that allow students to examine social and cultural foundations of oppression, learn to disrupt ableism, and position themselves as agents of social change. Using an interactive style, the book provides tools teachers can use to facilitate authentic dialogues with students about constructed meanings of disability, the nature of belongingness, and the creation of inclusive communities. The Eighth Edition of

Exploring Microeconomics captures the excitement of learning microeconomics for the first time through a lively and encouraging narrative that connects microeconomics to the world in a way that is familiar to readers. Author Robert L. Sexton draws on over 25 years of teaching experience to capture readers' attention, focusing on core concepts and expertly weaving in examples from current events and popular culture to make even classic economic principles modern and relatable. The text sticks to the basics and applies a thoughtful learning design, segmenting its presentation into brief, visually appealing, self-contained sections that are easier for readers to digest and retain compared to sprawling text. Thoughtfully placed section quizzes, interactive summaries, and problem sets help readers check their comprehension at regular intervals and develop the critical thinking skills that will allow them to "think like economists." Exploring Microeconomics will ignite readers' passion for the field and reveal its practical application in the world around them. Applied Social Research iUniverse Living in a "perfect" world without social ills, a boy approaches the time when he will receive a life assignment from the Elders, but his selection leads him to a mysterious man known as the Giver, who reveals the dark secrets behind the utopian facade. Cengage Learning This is the first study of its kind to address the presence of musical and acoustical metaphor in western science and philosophy from the time of the ancient Greeks to the present. The most difficult and controversial ideas of 20th century music are shown to connect with fundamental precepts of science and philosophy: existence, continuity, number, space, time, identity, and communication.
