Catherine's Kitchen, Food is Another Form of Art BRILL The trial and conviction of Catherine Nevin for her role in the murder of her husband Tom monopolized the attention of the country for weeks. Catherine the Great Penguin Group Saint Catherine of Siena (1347 – 1380) has become a defining figure in the history of medieval religion and one of the main exemplars of the "feminine turn" in late medieval religious culture. Despite a hagiographical tradition and historiography that has placed Catherine at a mystic remove from the politics of her day, Catherine's public authority was shaped by politics, both locally in Siena and

broadly within late-fourteenth-century contests between the papacy and the Republic of Florence for hegemony in central Italy. In *The Saintly Politics of Catherine of Siena*, F. Thomas Luongo combines literary-critical readings of Catherine's letters—she was the author of one of the largest collections of medieval letters—with political and social analysis. Drawing on a wide range of archival sources, Luongo investigates how Catherine's spiritual authority and sanctity were linked with contemporary political and cultural developments. He shows how the political situation of the

church in Italy and a culture that privileged female spirituality and prophetic speech facilitated Catherine's emergence into a public role. The Catherine who emerges from Luongo's well-written pages is a splendid example of what can result when a historian asks fresh questions about a familiar figure's life and brings new materials and methods to bear in formulating answers. The Saintly Politics of Catherine of Siena offers a woman more complex and interesting than the figure portrayed in most contemporary scholarship.

There is no shortage of biographies of Catherine the Great, of varying quality and degrees of sensationalism. But there exists no brief account of her reign that incorporates the extensive research findings of the last twenty years and presents them accessibly, accurately, and concisely to the student and the general reader. Following her magisterial *Russia in the Age of Catherine the Great*, Isabel de Madariaga has written the

most informative, balanced and up-to-date short study of this spectacular period in Russian history. De Madariaga establishes an authoritative account of the events of Catherine's life, disentangling the myth from the verifiable reality. But her principal aim is to provide an account of the achievements of the thirty-four-year reign. Well-read and intelligent, Catherine presided over a fundamental reorganization of central and local government, of financial administration, of law, and of literary and cultural life. De

Madariaga tracks the changes and explains the reforms, placing them in the context of eighteenth-century Europe and the ideas of the Enlightenment and of the French Revolution. Chapters on the wars against the Turkish empire, the annexation of the Crimea in 1783, and the partition of Poland demonstrate Catherine's part in building Russia into a formidable European power. The text is distinguished throughout by the attention paid to historical controversies over the

interpretation of Catherine's policies and to the historiography on the period in general. Praised by French writers of her day and attacked by later historians for her neglect of the welfare of the serfs, Catherine's achievements are now measured against the difficulties she met. The book points to the problems Catherine faced, the human and material resources on which she could draw, and the intellectual climate in which she operated. De Madariaga considers past and present

assessments of Catherine and consolidates balanced judgments, profound understanding, and exhaustive research into a highly assimilable form.

The Identities of Catherine de' Medici Aeterna Press Romantic, chaotic and terrifying, Catherine Parr's life unfolds like a romance novel. Caught up in the turbulent terrors of the Pilgrimage of Grace in 1536, she was

Fleeing to the south shortly afterward, Catherine took refuge in the household of Princess Mary and in the arms of the king's brother-in-law, Sir Thomas Seymour. Her employment in Mary's household brought her to the attention of Mary's father, the unpredictable, often-wed Henry VIII. Desperately in love with Seymour, Catherine was forced into marriage with a king whose passion for her could not be hidden and who was

determined to make her his queen.

The first in-depth study of Catherine the Great's plays and opera libretti, this book provides analysis and critical interpretation of the dramatic works by this eighteenth-century Russian Empress. These works are shown to be remarkable for their diversity, frank satire, topical subject matter, and stylistic innovations. O'Malley reveals comparisons to and influences from European traditions, including Shakespeare and Moli è re, and sets Catherine in the larger field of Russian literature in the period, further illuminating her relationship to the aesthetic debates of the period. The

study investigates how Catherine expressed her social ideas throughout her drama and exploited the stage's power to promote political ideals and ideology. O'Malley sets close textual analysis within an historical framework, analyzing the major plays according to content, style, themes, characters, and relation to Catherine's life and political aims. How and why did a medieval female saint from the Eastern Mediterranean come to be such a powerful symbol in early modern Rome? This study provides an overview of the

development of the cult of Catherine of Alexandria in Renaissance Rome, exploring in particular how a saint's cult could be variously imaged and 'reinvented' to suit different eras and patronal interests. Cynthia Stollhans traces the evolution of the saint's imagery through the lens of patrons and their interests—with special focus on the importance of Catherine's image in the fashioning of her Roman identity—to show how her imagery served the religious, political, and/or social agendas of individual patrons and religious orders.

Amongst the apparent enigmas of life, amongst the seemingly most radical and abiding of interior antinomies and conflicts

experienced by the human race and by individuals, there is one which everything tends to make us feel and see with an ever-increasing keenness and clearness. More and more we want a strong and interior, a lasting yet voluntary bond of union between our own successive states of mind, and between what is abiding in ourselves and what is permanent within our fellow-men; and more and more we seem to see that mere Reasoning, Logic, Abstraction,—all that appears as the necessary instrument and expression of the Universal and Abiding,—does not move or win the will, either in ourselves or in others; and that what does thus move and win it, is Instinct, Intuition, Feeling, the Concrete and Contingent, all that seems to be of its very nature individual and evanescent. Reasoning appears but capable, at best, of co-ordinating, unifying, explaining the material furnished to it by experience of all kinds; at worst, of explaining it away; at best, of stimulating the purveyance of a fresh supply of such experience; at worst, of stopping such purveyance as much as may be. And yet the Reasoning would appear to be process, but not to move; and the experience alone to have the moving power, but not to be transmissible.
