Animal Man DC
Martha Washington --
prisoner, runaway,
lunatic, soldier,

and now seditionist
-- has seen the
future. It looks
great on paper, but
it doesn't work. The
U.S. government is
controlled by power-
hungry nutcases. The
ecology is a
shambles. Everyone
talks about the
weather, but nobody
does anything about

it . . . nobody, that is, except PAX and the very expensive weather-control satellite, Harmony. In Martha Washington Goes to War, it's Martha vs. PAX and the United States government, and the odds are more even than you might think!

The Invisibles Routledge Critical Approaches to Comics offers students a deeper understanding of the artistic and cultural significance of comic books and graphic novels by introducing key theories and critical methods for analyzing comics. Each chapter explains and then demonstrates a critical method or approach, which students can then apply to interrogate and critique the meanings and forms of comic books, graphic novels, and other

sequential art. The authors introduce a wide range of critical perspectives on comics, including fandom, genre, intertextuality, adaptation, gender, narrative, formalism, visual culture, and much more. As the first comprehensive introduction to critical methods for studying comics, Critical Approaches to Comics is the ideal textbook for a variety of courses in comics studies.
