How reliable is our intuition? How much should we depend on gut-level instinct rather than rational analysis when we play the stock market,

---

choose a mate, hire an employee, or assess our own abilities? In this engaging and accessible book, David G. Myers shows us that while intuition can provide us with useful—and often amazing—insights, it can also dangerously mislead us. Drawing on recent psychological research, Myers discusses the powers and perils of intuition when:

- judges and jurors determine who is telling the truth;
- mental health workers predict whether someone is at risk for suicide or crime;
- coaches, players, and fans decide who has the hot hand or the hot bat;
- personnel directors hire new employees;
- psychics claim to be clairvoyant or to have premonitions;
- and

much more.

Some 28 million people in America and 350 million people worldwide live with hearing loss. How do these people and their families cope? What are their experiences of pain, humor, and hope? What support do medicine and technology now offer them, and what is on the horizon? In this engaging and practical book, David Myers, who has himself suffered gradual hearing loss, explores the problems faced by the hard of hearing at home and at work and provides information on the new technology and groundbreaking surgical procedures that are available. Drawing on both his own experiences and his expertise as a social psychologist, Myers recounts how he has

coped with hearing loss and how he has incorporated technological aids into his life. The family and friends of the hard of hearing also face adjustments. Myers addresses their situation and provides advice for them on how best to alert loved ones to a hearing problem, persuade them to seek assistance, and encourage them to adjust to and use hearing aids. **Phul of Surprises** Emerald Group Publishing

**A Unique Twist on Shape-Shifters with Fast-Paced Action, Thrilling Adventure, Mystery, and a Bit of Romance** Flo lives an eccentric life—she travels with a popular circus in which the main acts star orphaned children with secret shape-shifting abilities. Once Flo turns sixteen, she must perform, but

---

she's not ready. While practicing jumping a flaming hurdle in a clearing beside the circus, she spots a dark figure in the trees and fears he saw her shift. The news sends the circus into a panic. In Flo's world, shifters are unknown to humans with the exception of a secret organization—the EOS, referred to as “hunters.” Hunters capture and kill. They send some shifters to labs for observation and testing—testing they don't often survive—and deem others useless, a danger to society, and eliminate them. To avoid discovery, shifters travel in packs, constantly moving and keeping themselves hidden. Up until now, the circus was the perfect disguise.

Believing she has brought attention to the group, Flo feels dread and anxiety, causing her to make a mistake in front of the audience during her performance—a mistake that triggers a violent attack from the hunters. Flo manages to flee the torched circus grounds with Jett, the bear shifter who loves her; the annoying elephant triplets; and a bratty tiger named Pru. Together they begin a new journey, alone in a world they don't understand and don't know how to navigate. On the run, they unravel secrets and lies that surround the circus and their lives—secrets and lies that all point to the unthinkable: Have they been betrayed by the people they trusted most?

Skinflicks Minotaur Books In Eoriel, the High Kings are legend: rulers who once stood against the darkness and ruled the world for two thousand turns of peace and prosperity. In the long turns since their fall during the Sundering, Eoriel's civilization has faded. Dark men and darker beings have torn down and destroyed the old works.

While some have held out against the grind of history, other places have been reduced to primitive tribes of savages, worshiping dark spirits and demons as their gods. Yet, a spark of hope remains: some still believe in the old legends, some still fight to restore the old ways, and some will stand against the darkness, in an echo of the High Kings.

I Will Survive is the story of Gloria Gaynor, America's

---

"Queen of Disco." It is the story of riches and fame, despair, and finally salvation. Her meteoric rise to stardom in the mid-1970s was nothing short of phenomenal, and hits poured forth that pushed her to the top of the charts, including "Honey Bee," "I Got You Under My Skin," "Never Can Say Goodbye," and the song that has immortalized her, "I Will Survive," which became a #1 international gold seller. With that song, Gloria heralded the international rise of disco that became synonymous with a way of life in the fast lane - the sweaty bodies at Studio 54, the lines of cocaine, the indescribable feeling that you could always be at the top of your game and never come down. But down she came after her early stardom, and problems followed in the wake, including the death of her mother, whose love had anchored the young singer, as well as constant battles with weight, drugs, and alcohol. While her fans always imagined her to

be rich, her personal finances collapsed due to poor management; and while many envied her, she felt completely empty inside. In the early 1980s, sustained by her marriage to music publisher Linwood Simon, Gloria took three years off and reflected upon her life. She visited churches and revisited her mother's old Bible. Discovering the world of gospel, she made a commitment to Christ that sustains her to this day.

The Musketeer's Apprentice

Some things can never be forgotten, no matter how hard you try. Detective Sergeant Mackenzie Santos knows that bitter lesson all too well. The day she died changed her life and her perception of the world forever. It doesn't matter that everyone, even her doctors, believe a miracle occurred when she awoke in the hospital morgue. Mac knows better. It hadn't been a miracle, at least not a holy one. As far as she's concerned, that's the day the dogs of Hell came for her. Investigating one of the most horrendous murders in recent Dallas history, Mac also has to break in a new partner and deal with nosy reporters who follow her every move and who publish confidential

details of the investigation without a qualm. Complicating matters even more, Mac learns the truth about her family and herself, a truth that forces her to deal with the monster within, as well as those on the outside. But none of this matters as much as discovering the identity of the murderer before he can kill again.

**So Long Been Dreaming: Postcolonial Science Fiction & Fantasy** is an anthology of original new stories by leading African, Asian, South Asian and Aboriginal authors, as well as North American and British writers of color. Stories of imagined futures abound in Western writing. Writer and editor Nalo Hopkinson notes that the science fiction/fantasy genre “speaks so much about the experience of being alienated but contains so little writing by alienated people themselves.” It’s an oversight that Hopkinson and Mehan aim to correct with this anthology. The book depicts imagined futures from the perspectives of writers

associated with what might loosely be termed the “third world.” It includes stories that are bold, imaginative, edgy; stories that are centered in the worlds of the “developing” nations; stories that dare to dream what we might develop into. The wealth of postcolonial literature has included many who have written insightfully about their pasts and presents. With *So Long Been Dreaming* they creatively address their futures. Contributors include: Opal Palmer Adisa, Tobias Buckell, Wayde Compton, Hiromi Goto, Andrea Hairston, Tamai Kobayashi, Karin Lowachee, devorah major, Carole McDonnell, Nnedi Okorafor-Mbachu, Eden Robinson, Nisi Shawl, Vandana Singh, Sheree Renee Thomas and Greg Van Eekhout. Nalo Hopkinson is the

---

internationally-acclaimed author of *Brown Girl in the Ring*, *Skin Folk*, and *Salt Roads*. Her books have been nominated for the Hugo, Nebula, Tiptree, and Philip K. Dick Awards; *Skin Folk* won a World Fantasy Award and the Sunburst Award. Born in Jamaica, Nalo moved to Canada when she was sixteen. She lives in Toronto. Uppinder Mehan is a scholar of science fiction and postcolonial literature. A South Asian Canadian, he currently lives in Boston and teaches at Emerson College.

Death of a Musketeer

The future world has been divided into sectors—each the same as the other. Surrounded by thick steel fences, there is no way in and no

way out. Yet a cyborg army penetrates each sector, picking off its citizens one by one, until no one is left. Behind the sectors' thick walls, the citizens wait to die. Few will be chosen to survive what's coming; the rest will be left behind to suffer. A new world has been created and its rulers are incredibly selective on who will become a citizen. They want only those with important roles in society to help create a more perfect future. Sixteen-year-old Sia lives in one of the sectors as part of a family that is far too ordinary to be picked to live. According to the digital clock that towers high above her sector, she has only fifteen days to live. Sia's seen the

---

reports and knows a horrific death is in store for her, but she is determined to make the most of her final days. Sia refuses to mourn her short life, instead promising herself that she'll stay strong, despite being suffocated by her depressed mother and her frightened best friend. Just when Sia feels more alone than ever, she meets Mace, a mysterious boy. There is something that draws Sia to him, despite his dangerousness, and together, they join a group of rebels and embark on an epic journey to destroy the new world and its machines, and to put an end to the slaughter of innocent people. Aimed at 13- to 17-year-old readers, both boys and

girls, *Dark Days* has subtle themes of environmentalism, government corruption, and teamwork. In the similar vein of *The Hunger Games* series, the gravity of Sia's situation with only fifteen days to live, will help bring some common teenage issues—friendship, self-esteem, budding romance—to the forefront. Sia is a strong female character who becomes a true leader, a good role model for teenagers.
