Technology and increasing levels of education have exposed people to more information than ever before. These societal gains, however, have also helped fuel a surge in narcissistic and misguided intellectual egalitarianism that has crippled informed debates on any number of issues. Today, everyone knows everything: with only a quick trip through WebMD or Wikipedia, average citizens believe themselves to be on an equal intellectual footing with doctors and diplomats. All voices, even the most ridiculous, demand to be taken with equal seriousness, and any claim to the contrary is dismissed as undemocratic elitism. Tom Nichols' *The Death of Expertise* shows how this rejection of experts has occurred: the openness of the internet, the emergence of a customer

satisfaction model in higher education, and the transformation of the news industry into a 24-hour entertainment machine, among other reasons. Paradoxically, the increasingly democratic dissemination of information, rather than producing an educated public, has instead created an army of ill-informed and angry citizens who denounce intellectual achievement. When ordinary citizens believe that no one knows more than anyone else, democratic institutions themselves are in danger of falling either to populism or to technocracy or, in the worst case, a combination of both. An update to the 2017 breakout hit, the paperback edition of *The Death of Expertise* provides a new foreword to cover the alarming exacerbation of these trends in the aftermath of Donald Trump's election. Judging from events on the ground since it first published, *The Death of Expertise* issues a warning about the stability and survival of modern democracy in the Information Age that is even more important today.

"Born in the cauldron of personal experience of suffering and healing and

honed through years of professional experience, this book will help anyone understand the attractors of love and consequent suffering. I recommend it to couples who are mystified by the depth and repetition of their pain and joy and to therapists whose destiny is to help them." ~ Harville Hendrix, Ph.D., co-author with Helen LaKelly Hunt of *Making Marriage Simple: Transform the Relationship you Have Into the Relationship you Want* Since the dawn of civilization, men and women have been magnetically and irresistibly drawn together into romantic relationships, not so much by what they see, feel and think, but more by invisible forces. When individuals with healthy emotional backgrounds meet, the irresistible "love force" creates a sustainable, reciprocal and stable relationship. Codependents and emotional manipulators are similarly enveloped in a seductive dreamlike state; however, it will later unfold into a painful "seesaw" of love, pain, hope and disappointment. The soul mate of the codependent's dreams will become the emotional manipulator of their nightmares. Readers of the *Human Magnet Syndrome* will better understand why they, despite their dreams for true love, find themselves hopelessly and painfully in love with partners who hurt them. This book will guide and inspire both the layman and the professional.

Anarchist, journalist, drama critic, advocate of birth control and free love, Emma Goldman was the most famous—and notorious—woman in the early twentieth century.
