A child's dream takes us on a journey through space. The child looks for a place to land

while exploring each planet, but some are too hot, some are too cold, and some are just made of liquid and gas. Only planet Earth is just right. Fun rhyming text introduces children to each planet and basic facts about it. The text is accompanied by stunning images of a rocket traveling through the solar system, interspersed by close up images of each planet in order.

While each planet is amazing in its own way, there is only one we can call home. If parents choose, this can be the start to a conversation about how we can take better care of our planet. Visit lorifettner.wordpress.com/no-place-like-earth/ to see sample pages from the interior.

Babl Children's Books in Tagalog and English The Joyful Child Montessori, Global Wisdom for Birth to Three

A fresh, comprehensive biography of the pioneering educator and activist who changed the way we look at children ' s minds, from the

author of Oriana Fallaci. Born in 1870 in Chiaravalle, Italy, Maria Montessori would grow up to embody almost every trait men of her era detested in the fairer sex. She was self-confident, strong-willed, and had a fiery temper at a time when women were supposed to be soft and pliable. She studied until she became a doctor at a time when female graduates in Italy provoked outright scandal. She never wanted to marry or have children—the accepted destiny for all women of her

milieu in late nineteenth-century bourgeois Rome—and when she became pregnant by a colleague of hers, she gave up her son to continue pursuing her career. At around age thirty, Montessori was struck by the condition of children in the slums of Rome ' s San Lorenzo neighborhood, and realized what she wanted to do with her life: change the school, and therefore the world, through a new approach to the child ' s mind. In spite of the resistance she faced from all

sides—scientists accused her of being too mystical, and the clergy of being too scientific, traditionalists of giving children too much freedom, and anarchists of giving them too much structure—she would garner acclaim and establish the influential Montessori method, which is now practiced throughout the world. A thorough, nuanced portrait of this often controversial woman, *The Child Is the Teacher* offers an unbiased perspective from an author who is not a member of the Montessori

movement, but who has been granted access to original letters, diaries, notes, and texts written by Montessori herself, including an array of previously unpublished material.

Far in the distant reaches of the universe is a world called Azmantium. A planet with lilac skies, jade green seas and fiery red suns. A planet where everything, from the

tides of the sea to life itself, is rooted in magic. Children are assessed at an early age and trained according to their unique magical talents. Lara, an orphan who has no memory of her true origins, is unaware that she has a vital role to play in the ancient prophecies that are about to begin coming true. Older than most who are just beginning their magical training, Lara will soon find out that destiny waits for no one, especially when the fate of the world rests on their shoulders. With the help of

her new friends, Lara will learn that in order to save the future, she must journey into the past - to a time when Dragons ruled the world! This is the first book in the upcoming Dragon Born series!

Kids Book (#2) Createspaceduring meal times. That Independent Publishing Platform First Foods is a how-to book with a wealth of tips, delicious recipes for young children, and suggestions on making and eating food as a family. Throughout the book, readers can see how food shapes the life of a family from nursing, early childhood, and including children in preparing meals together. From the moment a child is welcomed into the family, food becomes a focus. As parents, we must pay attention to nutrition, variety, and the connectedness we have

connection grows as our children become independent eaters, contributors to family meals, and caregivers for others through food. This book is the story of using a Montessori approach to become a family who values food and community. We don't always get it right, but as with anything, we keep trying. First Foods is a complete family meals handbook. It covers everything from nursing to grocery shopping with children to setting up your kitchen tools so children can prepare meals

independently. It is perfect for new parents, families with young children, and grandparents who want to enjoy preparing food alongside their grandchildren. Readers will benefit from Sarah Moudry's years of experience with her own children and teaching parent-child cooking classes. First Foods also reflects Moudry's own attempts to live slowly and in the moment with her family. Her focus on intentionality around food and meals is clear throughout the book. If you're looking for a cookbook for young children

that gives you the whole picture, not just simple recipes, this is it. If you want to be more intentional around family meals, this book will give you that support. If you have a young child about to start solid foods, this book will guide you through weaning and help you to set up all aspects of your family meals.
