The King Arthur Baking School: Lessons and Recipes for Every Baker Arcadia Publishing

With praise from Dorie Greenspan, Jim Lahey, and David Lebovitz, the definitive bread-baking book for a new generation. But this book isn't just about baking bread-- it's about what to do with the slices and heels and nubs from those many loaves you'll bake. Alexandra Stafford grew up eating her mother's peasant bread at nearly every meal—the recipe for which was a closely-guarded family secret. When her blog, Alexandra's Kitchen, began to grow in popularity, readers started asking how to make the bread they'd heard so much about; the bread they had seen peeking into photos. Finally, Alexandra's mother relented, and the recipe went up on the internet. It has since inspired many who had deemed bread-baking an impossibility to give it a try, and their results have exceeded expectations. The secret is in its simplicity: the no-knead dough comes together in fewer than five minutes, rises in an hour, and after a second short rise, bakes in buttered bowls. After you master the famous peasant bread, you'll work your way through its many variations, both in flavor (Cornmeal, Jalapeno, and Jack; Three Seed) and form (Cranberry Walnut Dinner Rolls; Cinnamon Sugar Monkey Bread). You'll enjoy bread's usual utilities with Food Cart Grilled Cheese and the Summer Tartine with Burrata and Avocado, but then you'll discover its true versatility when you use it to sop up Mussels with Shallot and White Wine or juicy Roast Chicken Legs. Finally, you'll find ways to savor every last bite, from Panzanella Salad Three Ways to Roasted Tomato Soup to No-Bake Chocolate-Coconut Cookies. Bread, Toast, Crumbs is a 2018 nominee for The IACP Julia Child First Book Award, and Alexandra's Kitchen was a finalist for the Saveur Blog Awards Most Inspired Weeknight Dinners 2016

Tartine Book No. 3 King Arthur Flour Cookbooks

The James Beard Award-winning, bestselling author of *CookWise* and *KitchenWise* delivers a lively and fascinating guide to better baking through food science. Follow kitchen sleuth Shirley Corriher as she solves everything about why the cookie crumbles. With her years of experience from big-pot cooking at a boarding school and her classic French culinary training to her work as a research biochemist at Vanderbilt University School of Medicine, Shirley looks at all aspects of baking in a unique and exciting way. She describes useful techniques, such as brushing your puff pastry with ice water—not just brushing off the flour—to make the pastry higher, lighter, and flakier. She can help you make moist cakes; shrink-proof perfect meringues; big, crisp cream puffs; amazing pastries; and crusty, incredibly flavorful, open-textured French breads, such as baguettes. Restaurant chefs and culinary students know Shirley from their grease-splattered copies of *CookWise*, an encyclopedic work that has saved them from many a cooking disaster. With numerous “At-a-Glance” charts, *BakeWise* gives busy people information for quick problem solving. *BakeWise* also includes Shirley's signature “What This Recipe Shows” in every recipe. This scientific and culinary information can apply to hundreds of recipes, not just the one in which it appears. *BakeWise* does not have just a single source of knowledge; Shirley loves reading the works of chefs and other good cooks and shares their tips with you, too. She applies not only her expertise but that of the many artisans she admires, such as famous French pastry chefs Gaston Lenôtre and Chef Roland Mesnier, the White House pastry chef for twenty-five years; and Bruce Healy, author of *Mastering the Art of French Pastry*. Shirley also retrieves “lost arts” from experts of the past such as Monroe Boston Strause, the pie master of 1930s America. For one dish, she may give you techniques from three or four different chefs plus her own touch of science—“better baking through chemistry.” She adds facts such as the right temperature, the right mixing speed, and the right mixing time for the absolutely most stable egg foam, so you can create a light-as-air génoise every time. Beginners can cook from *BakeWise* to learn exactly what they are doing and why. Experienced bakers find out why the techniques they use work and also uncover amazing pastries from the past, such as Pont Neuf (a creation of puff pastry, pâte à choux, and pastry cream) and Religieuses, adorable “little nuns” made of puff pastry filled with a satiny chocolate pastry cream and drizzled with mocha icing. Some will want it simply for the recipes—incredibly moist whipped cream pound cake made with heavy cream; flourless fruit soufflés; chocolate crinkle cookies with gooey, fudgy centers; huge popovers; famed biscuits. But this book belongs on every baker's shelf.
