Primarily set in the northern Bahamas, this book weaves its story of post-apocalyptic survival into the local sub-tropical seascape and the sailing culture that can be found there. With its evocative use of real locations haunted by zombie-like infected and atmospheric depictions of the trials of life at sea drawn from the author's own experiences, *For Those In Peril On The Sea* provides a new and unusual take on the traditional post-apocalyptic genre. From the back of the book: After a six week voyage across the Atlantic, they couldn't wait to get to shore. When they got there, they found the land would never be safe again... There was nothing to suggest it would be anything more than a routine delivery. Four people thrown together by chance, sailing a newly-built catamaran from South Africa to Miami. But while they were away, something happened, something none of them could ever have imagined. When they get back to civilisation, they find it no longer exists. The land is no longer safe. Their only option is to stay on the boat and try to survive. Join Bill, Rob, Jon and CJ as they travel around their frightening new world. One where they must struggle against the infected that now rule the land, the elements and each other.

When gays had to be closeted, ships were the only places where homosexual men could not only be out but also camp. And on some liners to the sun and the New World, queens and butches had a ball. They sashayed and minced their way across the world's oceans. Never before has the story been told of the masses. These are the thousands of queer seafarers, mainly stewards, who sometimes even outnumbered the straight men in the catering departments of ships that were household names and the pride of the British fleet. *Hello Sailor!* uniquely shows what it was like to be queer at sea at a time when land meant straightness.

Paul Mellon (1907--1999) was an unparalleled collector of British art. His collection, now at Yale in the museum and study center he founded to house it, rivals those in Britain's national museums and is unquestionably the most comprehensive representation of British art held outside of the United Kingdom. This book and the exhibition that it accompanies celebrate the centenary of his birth. Five introductory essays examine

Mellon's extraordinary collecting activity, as well as his role in creating both the Yale Center for British Art and the Paul Mellon Centre for Studies in British Art in London as gifts to his alma mater (Yale 1929). A lavishly illustrated catalogue section showcases 148 of the most exquisite and important paintings, watercolors, drawings, prints, sculpture, rare books, and manuscript material in the Yale Center's collection, including major works by Thomas Gainsborough, Joshua Reynolds, George Stubbs, John Constable, and J. M. W. Turner.

Discussion Notes on Paul Theroux's *The Kingdom by the Sea* Fortress Press

What Jesus began on and around the Sea of Galilee, Paul continued on and around the Mediterranean Sea. With Acts as the stage, the biblical narrative shifts from land to sea. Paul is the central actor in this part of the drama. Luke, the playwright, traveling with Paul on portions of his journeys, was deeply impressed by Paul's challenges and his creative engagement with both the pagans and the Jews living in the Roman Empire. In *With Paul at Sea*, Linford Stutzman, himself an accomplished sailor, relates key highlights of his personal experience of sailing Paul's voyages two thousand years later. Including examples of discoveries in the cities and harbors of Acts, combined with historical, archeological, and biblical evidence, Stutzman demonstrates the contribution and relevance of Paul for Christians in the twenty-first century. Portraying the modern world as a sea, the church as a ship, and a life of faith as sailing, *With Paul at Sea* is an invitation for today's Christians to travel with Paul.

Irenaeus and Paul Michael Grant

Set against the backdrop of Roman imperial history, *The Message and the Kingdom* demonstrates how the quest for the kingdom of God by Jesus, Paul, and the earliest churches should be understood as both a spiritual journey and a political response to the "mindless acts of violence, inequality, and injustice that characterized the kings of men." Horsley and Silberman reveal how the message of Jesus and Paul was profoundly shaped by the history of their time as well as the social conditions of the congregations to whom they preached.

Building on the work of Tertullian and Paul and The Apostolic Fathers and Paul, this volume continues a series of specially commissioned studies by leading voices in New Testament/early Christianity and patristics studies to consider how Paul was read, interpreted and received by the early Church Fathers. In this volume the use of Paul's writings is examined within the writings of Irenaeus of Lyon. Issues of influence, reception, theology and history are examined to show how Paul's work influenced the developing theology of the early Church. The literary style of Paul's output is also examined. The contributors to the volume represent leading lights in the study of Irenaeus, as well as respected names from the field of New Testament studies.

This exciting Greenville Collins biography is about seventeenth century navigation, focusing for the first time on mathematics practised at sea. This monograph argues the Restoration kings', Charles II and James II, promotion of cartography for both strategy and trade. It is aimed at the academic, cartographic and larger market of marine enthusiasts. Through shipwreck and Arctic marooning, and Dutch and Spanish charts, Collins evolved a Prime Meridian running through Charles's capital. After John Ogilby's successful *Britannia*, Charles set Collins surveying his kingdom's coasts, and James set John Adair surveying in Scotland. They triangulated at sea. Subsequently, Collins persuaded James to sustain his dead brother's ambition. This, the British coast's first survey took six years. After James's flight, and William III's invasion, Collins lead the royal yacht squadron for six years more, garnering funds to publish *Great Britain's Coasting Pilot*. The Admiralty and civic institutions subsidised what became his own pilot. Collins aided Royal Society members in their investigations, and his new guide remained vital to navigators through the century following. Charles's cartographic

promotion bloomed the most spectacularly in the atlases of Ogilby, Collins and John Flamsteed for roads, harbours, and stars.

Imagine what it would be like to go back in time to the 15th century Venice. And imagine what it would be like to meet your lifelong hero, Michelangelo. And imagine what it would be like if, on first meeting, you spill a tray of pasta and wine on that very same hero. Well, that's what happens to serious young artist Mark Breen. As the result of a drunken bet, Mark knocks out a painting of a toilet bowl. Much to his amazement, he sells it. In short order he's hailed as the new Andy Warhol and becomes an overnight sensation--and a very wealthy man. Soon, images of his toilet bowls are on more t-shirts, mugs, and calendars than Edvard Munch's *The Scream*. His friend and mentor, Hugh Connelly, afraid that Mark is in danger of losing his "artistic soul," advises him to go back to Italy and reacquaint himself with the "old masters." In Venice, Mark falls in love with Alexandra, a beautiful art restorer, but it's a one-sided affair. One night, hoping to win her over, he climbs up on a roof to find out who painted her favorite fresco. He falls off the roof and wakes up in 15th century Venice where he meets an innkeeper named Francesca, who looks exactly like Alexandra. And it gets curiouser and curiouser from there. During his stay--which is sometimes zany and sometimes frightening--he meet his hero, Michelangelo, who teaches him the true meaning of art.

Except for the Lord Jesus himself, no person has been more influential in the history of the church than Saul of Tarsus. Paul's influence upon the early church's most cherished convictions is so clear and powerful that some scholars have dared to describe him as the founder of Christianity. Paul had a greater impact on the formation of the Christian church than any other apostle. He wrote thirteen of the twenty-seven books of the New Testament so that nearly half of the New Testament documents bear his name. Although some of Paul's letters are brief compared to other New Testament books, his epistles compromise approximately one-fourth of the total volume of the New Testament. Approximately sixteen chapters of the Book of Acts focus on Paul's persecution of the church, conversion, missionary labors, arrest and imprisonment. When these chapters are combined with Paul's letters, Paul may be recognized as the author or subject of nearly one-third of the New Testament. Paul was not only the most effective Christian missionary and church planter in history, but also the most significant and influential interpreter of Jesus' teachings and of the significance of Jesus' life, death, resurrection, and return. This book introduces readers to this amazing man and his incredible story. It explains the background of each of Paul's letters and offers a summary of the beliefs of

one of the keenest theological minds in the history of the church.

All along, it enables the reader an opportunity to step into the world of Paul with over 150 photos, maps, illustrations, and charts.
