LibraryReads What does it mean not just to survive, but to truly live? One summer morning, twelve-year-old Edward Adler, his beloved older brother, his parents, and 183 other passengers board a flight in Newark headed for Los Angeles. Among them are a Wall Street wunderkind, a young woman coming to terms with an unexpected pregnancy, an injured veteran returning from Afghanistan, a business tycoon, and a free-spirited woman running away from her controlling husband. Halfway across the country, the plane

crashes. Edward is the sole survivor. Edward ' s story captures the attention of the nation, but he struggles to find a place in a world without his family. He continues to feel that a part of himself has been left in the sky, forever tied to the plane and all of his fellow passengers. But then he makes an unexpected discovery—one that will lead him to the answers of some of life ' s most profound questions: When you ' ve lost everything, how do you find the strength to put one foot in front of the other? How do you learn to feel safe again? How do you find meaning in your life? Dear

Edward is at once a transcendent coming-of-age story, a multidimensional portrait of an unforgettable cast of characters, and a breathtaking illustration of all the ways a broken heart learns to love again. Praise for Dear Edward “ Dear Edward made me think, nod in recognition, care about its characters, and cry, and you can ' t ask more of a novel than that. ” —Emma Donoghue, New York Times bestselling author of Room “ Weaving past and present into a profoundly beautiful, page-turning story of mystery, loss, and

wonder, Dear Edward is a meditation on survival, but more important, it is about carving a life worth living. It is about love and hope and caring for others, and all the transitory moments that bind us together.

Byron in Love: A

Short Daring Life

Random House

From the dark shadow of civil war to the pastel-painted towns of today, *Making Ireland Irish* provides a sweeping account of the evolution of the Irish tourist industry over the twentieth century.

Drawing on an extensive array of previously untapped or underused sources, Eric G. E. Zuelow examines how a small group of tourism advocates, inspired by tourist development movements in countries such as France and Spain, worked tirelessly to convince their Irish compatriots that tourism was the secret to Ireland's success. Over time, tourism went from being a national joke

to a national interest.

Men and women from across Irish society joined in, eager to help shape their country and culture for visitors' eyes. The result was Ireland as it is depicted today, a land of blue skies, smiling faces, pastel towns, natural beauty, ancient history, and timeless traditions.

With lucid prose and vivid detail, Zuelow explains how careful planning transformed Irish towns and villages from grey and unattractive to bright and inviting; sanitized Irish history to avoid offending Ireland's largest tourist market, the English; and supplanted traditional rural fairs revolving around muddy animals and featuring sexually suggestive ceremonies with new family-friendly

festivals and events filling today's tourist calendar. By challenging existing notions that the Irish tourist product is either timeless or the consequence of colonialism, Zuelow demonstrates that the development of tourist imagery and Irish national identity was not the result of a handful of elites or a postcolonial legacy, but rather the product of an extended discussion that ultimately involved a broad cross-section of society, both inside and outside Ireland. Tourism, he argues, played a vital role in "making Ireland Irish."

Harper Collins Brunonia Barry, the New York Times bestselling author of *The Lace Reader*, offers an emotionally compelling novel about finding your true place in the world. Zee Finch has come a long way from a motherless childhood spent stealing boats—a talent that earned her

the nickname Trouble. She's now a respected psychotherapist working with the world-famous Dr. Liz Mattei. She's also about to marry one of Boston's most eligible bachelors. But the suicide of Zee's patient Lilly Braedon throws Zee into emotional chaos and takes her back to places she though she'd left behind. What starts as a brief visit home to Salem after Lilly's funeral becomes the beginning of a larger journey for Zee. Her father, Finch, long ago diagnosed with Parkinson's disease, has been hiding how sick he really is. His longtime companion, Melville, has moved out, and it now falls to Zee to help her father through this difficult time. Their

relationship, marked by half-truths and the untimely death of her mother, is strained and awkward. Overwhelmed by her new role, and uncertain about her future, Zee destroys the existing map of her life and begins a new journey, one that will take her not only into her future but into her past as well. Like the sailors of old Salem who navigated by looking at the stars, Zee has to learn to find her way through uncharted waters to the place she will ultimately call home.
