## The Definitive ANTLR 4

Reference Penguin Books

If you think about it, all languages are made up - some are just more open about it than others. In *The Universal Translator*, Yens Wahlgren heads up an expedition through time, space and multiple universes to explore the words that have built worlds. From the classic constructed languages of *Star Trek* and Tolkien to (literally) Orwellian Newspeak and pop-culture sensations such as *Game of Thrones*, *The Witcher* and *The Mandalorian*, this is your portal to over a hundred realms and lexicons – and perhaps the starting point to creating your own.

Understanding Construction

Drawings OUP Oxford

The bestselling workbook and grammar guide, revised and updated! Hailed as one of the

best books around for teaching grammar, *The Blue Book of Grammar and Punctuation* includes easy-to-understand rules, abundant examples, dozens of reproducible quizzes, and pre- and post-tests to help teach grammar to middle and high schoolers, college students, ESL students, homeschoolers, and more. This concise, entertaining workbook makes learning English grammar and usage simple and fun. This updated 12th edition reflects the latest updates to English usage and grammar, and includes answers to all reproducible quizzes to facilitate self-assessment and learning. Clear and concise, with easy-to-follow explanations, offering "just the facts" on English grammar, punctuation, and usage Fully updated to reflect the latest rules, along with even more quizzes and pre- and post-tests to help teach grammar Ideal for students from seventh grade through adulthood in the US

---

and abroad For anyone who wants to understand the major rules and subtle guidelines of English grammar and usage, The Blue Book of Grammar and Punctuation offers comprehensive, straightforward instruction.

"Toki Pona was my philosophical attempt to understand the meaning of life in 120 words....I first published my micro-language on the Web in 2001....In this book, I hope to present the language in its completed form."--From the preface.

Understanding MARC Bibliographic

Createspace Independent Publishing Platform

"This book is an essential reference on creating words. It's packed with etymologies, ideas on derivation, places you can diverge

from English, and fascinating things to think about. Plus it contains the real-world knowledge you need to name everything from colors to elements, from kinship systems to guilds" -- Back cover.

**The Universal Translator**

Independently Published

This book sets out to answer a question that many linguists have been hesitant to ask: are some languages better than others? Can we say, for instance, that because German has three genders and French only two, German is a better language in this respect? Jarawara, spoken in the Amazonian jungle, has two ways of

---

showing possession: one for a part (e.g. 'Father's foot') and the other for something which is owned and can be given away or sold (e.g. 'Father's knife'); is it thus a better language, in this respect, than English, which marks all possession in the same way? R. M. W. Dixon begins by outlining what he feels are the essential components of any language, such as the ability to pose questions, command actions, and provide statements. He then discusses desirable features including gender agreement, tenses, and articles, before concluding with his view of what the ideal language would look like - and an explanation of why it does not and probably never will exist. Written in the author's usual accessible and engaging style, and full of personal anecdotes and unusual linguistic phenomena, the book will be of interest to all general language enthusiasts as well as to a linguistics student audience, and particularly to anyone with an interest in linguistic typology. Eats, Shoots & Leaves Clarkson Potter A. K. Larkwood's The Unspoken Name is a stunning debut fantasy about a

---

young priestess  
sentenced to die,  
who at the last  
minute escapes her  
fate; only to  
become an assassin  
for the wizard who  
saved her. What if  
you knew how and  
when you will die?  
Csorwe does—she  
will climb the  
mountain, enter the  
Shrine of the  
Unspoken, and gain  
the most honored  
title: sacrifice.  
But on the day of  
her foretold death,  
a powerful mage  
offers her a new  
fate. Leave with  
him, and live. Turn  
away from her  
destiny and her god  
to become a thief,  
a spy, an  
assassin—the

wizard's loyal  
sword. Topple an  
empire, and help  
him reclaim his  
seat of power. But  
Csorwe will soon  
learn—gods  
remember, and if  
you live long  
enough, all debts  
come due. "In the  
vein of Le Guin's  
magnificent Tombs  
of Atuan—if Arha  
the Eaten One got  
to grow up to be a  
swordswoman  
mercenary in thrall  
to her dubious  
wizard mentor. I  
love this book so  
much."—Arkady  
Martine, author of  
A Memory Called  
Empire "I cannot  
recommend it  
enough." -- Tamsyn  
Muir, author of

*Advanced Language Construction* The Porcupine's Quill Here is the captivating story of humankind's enduring quest to build a better language—and overcome the curse of Babel. Just about everyone has heard of Esperanto, which was nothing less than one man's attempt to bring about world peace by means of linguistic solidarity. And every Star Trek fan knows about Klingon. But few people have

heard of Babm, Blissymbolics, Loglan (not to be confused with Lojban), and the nearly nine hundred other invented languages that represent the hard work, high hopes, and full-blown delusions of so many misguided souls over the centuries. With intelligence and humor, Arika Okrent has written a truly original and enlightening book for all word freaks, grammar geeks, and plain old language lovers.

The Unspoken Name arsenal pulp press The World's Major Languages features over 50 of the world's languages and language families. This revised edition includes updated bibliographies

---

for each chapter and up-to-date census figures. The featured languages have been chosen based on the number of speakers, their role as official languages and their cultural and historical importance. Each language is looked at in depth, and the chapters provide information on both grammatical features and on salient features of the language's history and cultural role. The *World's Major Languages* is an accessible and essential reference work for linguists. *In the Land of Invented Languages* Edinburgh Textbooks on the English Language A companion volume to the Language Construction Kit,

this book explains everything you need to know about creating your own world with its own geology, creatures, cultures, religions, technology, and styles of war- plus how to create maps, illustrations and 3-D models. An essential whether you're writing science fiction or fantasy, designing RPGs, creating movies or video games, or remodeling a spare asteroid. *A Wish Too Dark And Kind* Routledge This textbook introduces the main units and concepts you require to describe speech sounds accurately. By working through the book and the various exercises included, you will

---

come to understand the need for a dedicated system of description and transcription for speech sounds, and for a degree of phonological abstraction to support our understanding of the behaviour of sounds in particular languages and varieties. You will learn to carry out elementary, broad phonetic transcription, and be able to establish contrastive vowel and consonant systems for your own varieties and to express simple generalisations reflecting the productive and predictable patterns of English sounds. At the end of the book there is a section guiding you through some of the exercises and there is also a detailed glossary

which will be useful for assignments or revision during exams. *Hatchet Createspace* Independent Publishing Platform An accessible but incisive introduction to modern syntax and generative grammar, for conlangers and anyone interested in languages or linguistics. Syntax can be frustrating, because there are multiple schools that seem to fight over inessential things. I hope I can show you that this is normal for a new field, and that it actually makes syntax fun. New discoveries are being made, and you

---

can participate-  
something that's a  
lot harder to do  
in, say, quantum  
mechanics. The  
emphasis here is on  
doing syntax--  
learning how to  
make and how to  
evaluate syntactic  
arguments. What's in  
it? An introduction  
to the Chomsky  
Hierarchy, a  
classification of  
grammars that's  
used both in  
linguistics and  
computer science,  
as well as a  
comparison to other  
generative  
techniques, such as  
Markov text  
generators. A tour  
of Chomsky's  
methods- production  
rules and

transformations-  
with overnight  
stays in the  
Syntactic  
Structures, X-bar,  
and Minimalist  
stages in his  
thought. A  
leisurely stroll  
through interesting  
bits of syntax: the  
English verbal  
complex, pronouns  
and other anaphors,  
relative clauses,  
quantifiers and  
more. The emphasis  
is on doing syntax-  
not just learning  
rules and drawing  
trees, but learning  
how syntactic  
arguments are made.  
An overview of  
alternatives to  
Chomsky's approach:  
generative syntax,  
cognitive

---

linguistics,  
relational  
grammars, word  
grammar,  
construction  
grammar,  
Jackendoff's  
Simpler Syntax, and  
Comrie's  
universals. A  
chapter on  
production which  
asks, how real are  
these grammars? Do  
we really have  
syntactic  
categories and  
transformations in  
the brain, or in  
the genome? A  
chapter on how you  
can apply all this  
to your conlangs.  
The Syntactic  
Bestiary- an  
annotated list of  
transformations and  
constraints, which

you can think about  
for conlanging, or  
use to evaluate  
syntactic theories.  
Plus, unlike most  
syntax textbooks,  
this one comes with  
a set of web toys  
so you can see the  
rules in action and  
write your own. It  
makes the ideas  
come alive much  
more than mere  
diagrams can.  
*Goldman Fristoe 2* The  
History Press  
We all know the basics  
of punctuation. Or do  
we? A look at most  
neighborhood signage  
tells a different  
story. Through sloppy  
usage and low  
standards on the  
internet, in email,  
and now text messages,  
we have made proper  
punctuation an  
endangered species. In

---

Eats, Shoots & Leaves, former editor Lynne Truss dares to say, in her delightfully urbane, witty, and very English way, that it is time to look at our commas and semicolons and see them as the wonderful and necessary things they are. This is a book for people who love punctuation and get upset when it is mishandled. From the invention of the question mark in the time of Charlemagne to George Orwell shunning the semicolon, this lively history makes a powerful case for the preservation of a system of printing conventions that is much too subtle to be mucked about with. *The Art of Language Invention*

Publishing Platform  
Celebrate the thirtieth anniversary of the Newbery Honor-winning survival novel Hatchet with a pocket-sized edition perfect for travelers to take along on their own adventures. This special anniversary edition includes a new introduction and commentary by author Gary Paulsen, pen-and-ink illustrations by Drew Willis, and a water resistant cover. Hatchet has also been nominated as one of America's best-loved novels by PBS's The Great American Read. Thirteen-year-old Brian Robeson,

---

haunted by his secret over from scratch  
knowledge of his mother's infidelity, is traveling by single-engine plane to visit his father for the first time since the divorce. When the plane crashes, killing the pilot, the sole survivor is Brian. He is alone in the Canadian wilderness with nothing but his clothing, a tattered windbreaker, and the hatchet his mother had given him as a present. At first consumed by despair and self-pity, Brian slowly learns survival skills—how to make a shelter for himself, how to hunt and fish and forage for food, how to make a fire—and even finds the courage to start

when a tornado ravages his campsite. When Brian is finally rescued after fifty-four days in the wild, he emerges from his ordeal with new patience and maturity, and a greater understanding of himself and his parents.

safety standards from the California Code of Regulations. The major subject headings are alphabetized and cross-referenced within the text, and it has a detailed index. Spiral bound, 8.5 x 5.5"

**The Lava in My Bones**

John Wiley & Sons

This textbook provides an introduction to language typology which assumes minimal prior knowledge of linguistics.

An Introduction to Language and

Linguistics Penguin

The sensational US debut of a major French writer—an intense, delicious meringue of a novella In a large country house shut off from the world by a gated garden, three young governesses

responsible for the education of a group of little boys are preparing a party. The governesses, however, seem to spend more time running around in a state of frenzied desire than attending to the children's education. One of their main activities is lying in wait for any passing stranger, and then throwing themselves on him like drunken Maenads. The rest of the time they drift about in a kind of sated, melancholy calm, spied upon by an old man in the house opposite, who watches their goings-on through a telescope. As they hang paper lanterns and prepare for the ball in their own honor, and in honor of the little boys rolling hoops on the lawn, much is mysterious: one

---

reviewer wrote of the book's "deceptively simple words and phrasing, the transparency of which works like a mirror reflecting back on the reader." Written with the elegance of old French fables, the dark sensuality of Djuna Barnes and the subtle comedy of Robert Walser, this semi-deranged erotic fairy tale introduces American readers to the marvelous Anne Serre.

The Conlanger's Lexipedia Mitchell Beazley

Among the immortals that inhabit our world, Arnaud Demeure is known as the man who can fulfill your one true wish or who can also conjure your worst nightmares. Eight invitations are sent to eight immortals, and when

Arnaud Demeure hosts a party, no one refuses his request. Why have they been summoned? Is it for a celebration or does a sinister fate await them? After all, in the ways of magick, a party can also be a ritual to end the world. As the mystery deepens, the attendees must overcome their personal grudges to unravel the threads of Demeure's grand plan that has been centuries in the making. But, with one of the guests secretly working with their host to sabotage the group's every move, it seems impossible to look behind the curtain to learn Demeure's true intentions. With each guest hiding dark secrets and darker intentions, will they be able to uncover

---

Demeure's mysterious motives or will the party prove to be the deadly nightmare that they each fear?
