The Last Days of Night New York, Appleton

A young bride shuts herself up in a bedroom on her wedding day, refusing to get married. In this moving and humorous look at contemporary Israel and the chaotic ups and downs of love everywhere, her family gathers outside the locked door, not knowing what to do. The bride's mother has lost a younger daughter in unclear circumstances. Her grandmother is hard of hearing, yet seems to understand her better than anyone. A male cousin who likes to wear women's clothes and jewelry clings to his grandmother like a little boy. The family tries an array of unusual tactics to ensure the wedding goes ahead, including calling in a psychologist specializing in brides who change their mind and a ladder truck from the Palestinian Authority electrical company. The only communication they receive from behind the door are scribbled notes, one of them a cryptic poem about a prodigal daughter returning home. The harder they try to reach the defiant woman, the more the despairing groom is convinced that her refusal should be respected. But what, exactly, ought to be respected? Is this merely a case of cold feet? A feminist statement? Or a mourning ritual for a lost sister? This provocative and highly entertaining novel lingers long after its final page.

Dorothy Whipple's key theme is 'Live and Let Live'. And what she describes throughout her short stories are people, and particularly parents, who defy this maxim. For this reason her work is timeless, like all great writing. It is irrelevant that Dorothy Whipple's novels were set in an era when middle-class women expected to have a maid; when fish knives were used for eating fish; when children did what they were told. The moral universe she creates has not changed: there are bullies in every part of society; people try their best but often fail; they would like to be unselfish but sometimes are greedy. Like George Eliot, like Mrs Gaskell, like EM Forster, Dorothy Whipple describes men and women in their social milieu, which in her case is the inter-war period, and shows them being all-too human. But her books are not nostalgia reads either, any more than reading George Eliot or Forster is a nostalgia read, nor are they old-fashioned or simplistic. Her prose, it is true, is pure, uncluttered, straightforward, pared down to the bone and never labours the point; her subtlety is the reason why so many people - generally those who have not read her - overlook her excellence.

"I'm so many people. They shock me sometimes. I wish I was just me!" --Marilyn Monroe Nearly sixty years after her death, Marilyn Monroe remains an icon whom everyone loves but no one really knows. The conversations gathered here--spanning her emergence on the Hollywood scene to just days before her death at age 36--show Monroe at her sharpest and most insightful on the thorny topics of ambition, fame, femininity, desire, and more. Together with an introduction by Sady Doyle, these pieces reveal yet another Marilyn: not the tragic heroine she's become in the popular imagination, but a righteously and justifiably angry figure breaking free of the limitations the world forced on her.

I am so proud to finally let you meet The Girl Behind the Closed Door. She was in hiding for a very long time, but as with anything that is life changing, the wait was worthwhile. I have suffered greatly from loneliness, fear and depression and only through my writing and other learning tools, did I find ways to emerge as a stronger and more powerful woman. Poetry was a wonderful gift that I was given to free myself from the ugly grips of depression, and now I want to share its healing power with you. In every poem, I guarantee that you will find a piece of the heart of the girl behind the closed door. That girl, who used to be me, is resting now, but her wonderful essence is still alive in these works. All that I am today is because of the courage

that she showed every day, just to survive. Be gentle with her, and she will show you her love. I will bet that when you find her heart, you will recognize it as a part of your own.

"The new year was already some hours old, but the world to which it had come was still dark. Dark with a curious obscurity, that was absolutely opaque yet faintly luminous, because of the white fog which lay on all things and hid them from the stars; for the sky above was clear, cold, almost frosty. That was why the fog, born, not of cool vapour seeking for cloud life among the winds of heaven, but of hot smoke loving the warmth of dust and ashes, clung so

closely to the earth; to its birthplace. It was an acrid, bitter smoke, not even due to the dead hearthfires of a dead day, since they--like all else pertaining to the domestic life of India--give small outward sign of existence, but to the smouldering piles of litter and refuse which are lit every evening upon the outskirts of human habitation. Dull heaps with a minimum of fire, a maximum of smoke, where the humanity which has produced the litter, the refuse, gathers for gossip or for warmth. Even in the fields beyond the multitude of men, where some long-limbed peasant, watching his hope of harvest, dozes by a solitary fire, this same smoke rises in a solid column, until--beaten down by the colder moister air above--it drifts sideways to spread like a vast cobweb over the dew-set carpet of green corn. ... --Taken from prologue.

NEW YORK TIMES BESTSELLER • "A world of invention and skulduggery, populated by the likes of Edison, Westinghouse, and Tesla."--Erik Larson "A model of superior historical fiction . . . an exciting, sometimes astonishing story."--The Washington Post From Graham Moore, the Oscar-winning screenwriter of *The Imitation Game* and New York Times bestselling author of *The Sherlockian*, comes a thrilling novel--based on actual events--about the nature of genius, the cost of ambition, and the battle to electrify America. New York, 1888. Gas lamps still flicker in the city streets, but the miracle of electric light is in its infancy. The person who controls the means to turn night into day will make history--and a vast fortune. A young untested lawyer named Paul Cravath, fresh out of Columbia Law School, takes a case that seems impossible to win. Paul's client, George Westinghouse, has been sued by Thomas Edison over a billion-dollar question: Who invented the light bulb and holds the right to power the country? The case affords Paul entry to the heady world of high society--the glittering parties in Gramercy Park mansions, and the more insidious dealings done behind closed doors. The task facing him is beyond daunting. Edison is a wily, dangerous opponent with vast resources at his disposal--private spies, newspapers in his pocket, and the backing of J. P. Morgan himself. Yet

this unknown lawyer shares with his famous adversary a compulsion to win at all costs. How will he do it? In obsessive pursuit of victory, Paul crosses paths with Nikola Tesla, an eccentric, brilliant inventor who may hold the key to defeating Edison, and with Agnes Huntington, a beautiful opera singer who proves to be a flawless performer on stage and off. As Paul takes greater and greater risks, he'll find that everyone in his path is playing their own game, and no one is quite who they seem.
