The Laymans Guide To Trading

The skinny Layman's Guide, with lots of white space, has a price/word ratio that is up there. However I look at it this way. The Layman's Guide to Trading Stocks is a great, simple, but not simple-minded, guide for discretionary

trading of pullbacks. It's very good for an introduction to trading; I've asked my college-aged daughter to read it. It's great for me; I've been trading for about a year.
