Blurb: I don't like labels and I'm happy that way, but it's taken a long time to get here. A jerk of a father, too many bullies to name, and a string of dipshit boyfriends whose interest in me rarely made it

past the skirts I sometimes wear. Suffice to say, my faith in men runs a little thin. The last thing I need is a gruff, opinionated, fiery, closeted, Paralympian jock messing with my hard-won peace. Miller Harrison is a wrinkle in my life I could definitely do without. I have a job that I love at Auckland Med., a boss who understands me, and a group of friends who accept me as I am. I should walk away. But Miller knows a thing or two about living life against the grain, and that hope I thought

I'd buried a long time ago, is threatening to surface.

The Defining Decade has changed the way millions of twentysomethings think about their twenties—and themselves. Revised and reissued for a new generation, let it change how you think about you and yours. Our "thirty-is-the-new-twenty" culture tells us the

twentysomething years don't matter. Some say they are an extended adolescence. Others call them an emerging adulthood. In *The Defining Decade*, Meg Jay argues that twentysomethings have been caught in a swirl of hype and misinformation, much of which has trivialized the most transformative time of our lives. Drawing from more than two decades of work with thousands of clients and students, Jay weaves the latest science of the twentysomething years with behind-closed-doors stories from twentysomethings themselves. The result is a provocative read that provides the tools necessary to take the most of your twenties, and shows us how work, relationships, personality,

identity and even the brain can change more during this decade than at any other time in adulthood—if we use the time well. Also included in this updated edition: Up-to-date research on work, love, the brain, friendship, technology, and fertility What a decade of device use has taught us about looking at friends—and looking for love—online 29 conversations to have with your partner—or to keep in mind as you search for one A social experiment in which "digital natives" go without their phones A Reader's Guide for book clubs, classrooms, or further self-reflection Hope Heals Penguin When all seems lost, where can you find hope? Katherine and Jay Wolf married right after

college and sought adventure far from home in Los Angeles, CA. As they pursued their dreams--she as a model and he as a lawyer--they planted their lives in the city and their church community. Their son, James, came along unexpectedly in the fall of 2007, and just six months later, everything changed in a moment for this young family. On April 21, 2008, as James slept in the other room, Katherine collapsed, suffering a massive brain stem stroke without warning. Miraculously, Jay came home in time and called for help. Katherine was immediately rushed into brain surgery, though her chance of survival was slim. As the sun rose the next morning, the surgeon proclaimed that

Katherine had survived the removal of part of her brain, though her future recovery was uncertain. Yet in that moment, there was a spark of hope. Through forty days on life support in the ICU and nearly two years in full-time brain rehab, that small spark of hope was fanned into flame. Hope Heals documents Katherine and Jay's journey as they struggled to regain Katherine's quality of life and as she relearned to talk, eat, and walk. As Katherine returned home with a severely disabled body but a completely renewed purpose, she and Jay committed to celebrating this gift of a second chance by embracing life fully, even though that life looked very different than they could have ever imagined. As you uncover Katherine and Jay's remarkable story, you'll be encouraged to: Find lasting hope in the midst of struggle Embrace the unexpected Welcome God's miracles into your everyday life In the midst of continuing hardships, both in body and mind, Katherine and Jay found what we all long to find: a hope that heals the most broken place--our souls. Let Hope Heals be your guide along the way. Praise for Hope Heals: "As I read this book, tears streamed from my eyes even as joy flooded my heart. Jay and Katherine are a raw yet refreshing testimony to the unshakable trustworthiness of God amidst the unimaginable trials of life. This book reminds all of us where hope can be found in a

world where none of us know what the next day holds." --David Platt, author of the New York Times bestseller *Radical* and president of the International Mission Board "Hope Heals is a beautiful, true story that illustrates the love and protection God has for us even in the darkest times of our lives. Katherine and Jay's dedication to each other and the Lord through their most devastating season is inspiring. This book will help your heart believe that He sees, He knows, He cares, and He is still working miracles today!" --Lysa TerKeurst, New York Times bestselling author and president of Proverbs 31 Ministries

On October 23, 2030, a meteor explodes over Los Angeles, triggering chaos and panic. For seventeen-year-old Dev Harrison, the event coincides with a strange, recurring dream in which his long-disappeared physicist father reveals to him a location high on a

Tahoe peak where he's hidden the world's most coveted scientific secret. Eager to see if there's any truth to the dream, Dev hits the road with his best friends Abby and Conner. But their journey across a bleak California is far more dangerous than they imagined as they encounter fanatic separatists, mysterious drones, and a ruthless federal agent. Worst of all are the "crawlers"-not human, not animal, terrifying creatures whose appearance in the wake of the meteor is no coincidence. Courage, loyalty, wits: The friends want for none of these, but their adventure will demand

much more. Especially after a conspiracy comes to light, and Dev realizes he's all that stands between protecting his father's legacy and global forces hellbent on altering the fate of the universe.

What Light HarperCollins Please note that this is the third book in the series and should not be read prior to reading the first two. More Than This More Than Her "Our deepest fear is not that we are inadequate. Our deepest fear is that we are powerful beyond measure. It is our light, not our darkness, that most frightens us." - Marianne Williamson We live in a world of darkness and shadows, where monsters hide and aim to ruin. And they did. They ruined us and turned our dreams into nightmares. But now we're back. And we're fighting.

Not just for us, or for each other, but for our light. Where the Road Takes Me Bard Press 2015 INDIEFAB Book of the Year Bronze Award for Short Fiction Short stories about the complex maze of health care Conventional medical narratives often fail to capture the incoherent, surreal, and logic-twisting reality of the contemporary healthcare experience, where mystery, absurdity, and even cruelty are disguised as logic, reason, and compassion. In this new collection of stories by physician and writer Jay Baruch, characters struggle in their quest for meaning and a more hopeful

tomorrow in a strange landscape where motivations are complex and convoluted and what is considered good and just operates as a perpetually shifting proposition. Readers are invited to eavesdrop on the conversations and thoughts of those negotiating the healthcare landscape while attempting to maintain their sanity. Each glimpse into the minds of patients, doctors, and family members reveals the stark reality that reason and compassion are not always the lifeblood of a system devoted to healing. From a weary night shift doctor dealing with a chronic patient

to a physician figuring out how to tell the next of kin about a relative's death, each of Baruch's characters exposes the multitude of emotions lurking behind the strained and sickly faces in the hospital waiting room. With imagination and an eye for detail, Baruch takes readers on an unsparing ride through the hidden, ignored, or misunderstood challenges facing healers and the ill. It is a world where communities shoulder unrelenting burdens, optimism is held with caution, and people ration their dreams. Baruch's vivid storytelling guides his readers through the incoherent and

emotionally fraught reality he has faced during his twenty years as an emergency physician. The stories in *What's Left Out* ask readers to take risks, to make leaps into unfamiliar territory, and, like the larger healthcare enterprise, to develop comfort and trust in the untraditional and unexpected.
