Thirteen Reasons Why 10th Anniversary Edition  
HarperCollins  
2015 INDIEFAB Book of the Year Bronze Award for Short Fiction Short stories about the complex maze of health care Conventional medical narratives often fail to capture the incoherent, surreal, and logic-twisting reality of the contemporary healthcare experience, where mystery, absurdity, and even cruelty are disguised as logic, reason, and compassion. In this new collection of stories by physician and writer Jay Baruch, characters struggle in their quest for meaning and a more hopeful

tomorrow in a strange landscape where motivations are complex and convoluted and what is considered good and just operates as a perpetually shifting proposition. Readers are invited to eavesdrop on the conversations and thoughts of those negotiating the healthcare landscape while attempting to maintain their sanity. Each glimpse into the minds of patients, doctors, and family members reveals the stark reality that reason and compassion are not always the lifeblood of a system devoted to healing. From a weary night shift doctor dealing with a chronic patient to a physician figuring out how to tell the next of kin about a relative's death, each of Baruch's characters exposes the multitude of emotions lurking behind the strained and sickly faces in the hospital waiting

room. With imagination and an eye for detail, Baruch takes readers on an unsparing ride through the hidden, ignored, or misunderstood challenges facing healers and the ill. It is a world where communities shoulder unrelenting burdens, optimism is held with caution, and people ration their dreams. Baruch's vivid storytelling guides his readers through the incoherent and emotionally fraught reality he has faced during his twenty years as an emergency physician. The stories in *What's Left Out* ask readers to take risks, to make leaps into unfamiliar territory, and, like the larger healthcare enterprise, to develop comfort and trust in the untraditional and unexpected.

Vikram is not your model Indian-American teenager. Growing up

---

in late 1980s Wisconsin, he is rebellious, adrift, and resentful of his Indian roots. But a disastrously drunken weekend becomes a one-way ticket back to the homeland for Vikram after his outraged parents decide to pack up the family and return to India. So begins a profound journey of culture shock, loneliness, and self-discovery as Vikram-navigating the chaos of daily Indian life and the antiquated social rules of his college-finds the confidence to explore his own creativity, reconnect with his family, and meet unforgettable new friends. Most of all, he discovers that India is his soul ... but America is his heart, the land of his destiny, leading to a once-in-a-lifetime test of courage as he sets out to chart a bold new course for his future. \* \* "Atmospheric and vivid, [Vikram's] journey transports readers to a place that is both unfamiliar and familiar at the same time. A touching story about family, friendship, and belonging." - Kashmira Sheth, author of "Boys Without Names" and "Keeping Corner" "A tale of hope and sacrifice, ambition and acceptance, of old contentions and emerging identity. "The Leaving of Things" is a map of all the invisible trails carved into the spirit by an inherited past." - Gina Nahai, author of "Caspian Rain" and "Sunday's Silence" Things We Couldn't Say Spectra "Avoid the Day truly seems to me to push nonfiction memoir as far as it can go without it collapsing into a singularity and I am at a loss for

words. You are just going to have to read it." -Helen Macdonald, author of *H is for Hawk* A surreal, high-wire act of narrative nonfiction that redefines the genre, *Avoid the Day* is part detective story, part memoir, and part meditation on the meaning of life—all told with a dark pulse of existential horror. What emerges is an unforgettable study of mortality and the artist's journey. Seeking to answer the mystery of a missing manuscript by Béla Bartók, and using the investigation to avoid his father's deathbed, award-winning magazine writer Jay Kirk heads off to Transylvania, going to the same villages where the "Master," like a vampire in search of fresh plasma, had found his new material in the folk music of the peasants. With these stolen songs, Bartók redefined music in the 20th Century. Kirk, who is also seeking to renew his writing, finds inspiration in the composer's unorthodox methods, but begins to lose his tether as he sees himself in Bartók's darkest and most personal work, the

*Cantata Profana*, which revolves around the curse of fathers and sons. After a near-psychotic episode under the spell of Bartók, the author suddenly finds himself on a posh eco-tourist cruise in the Arctic. There, accompanied by an old friend, now a documentary filmmaker, the two decide to scrap the documentary and make a horror flick instead—shot under the noses of the unsuspecting passengers and crew. Playing one of the main characters who finds himself inexplicably trapped on a ship at the literal end of the world, alone, and under the influence of the midnight sun, Kirk gets lost in his own cerebral maze, struggling to answer his most plaguing question: can we find meaning in experience? **Retribution Falls Twelve** After ten years of exile among fairies who teach her to use her magically-enhanced strength and courage, Sleeping Beauty's daughter Aurora enlists the help of Niklaas, eleventh son of King Eldorio, in the fight to reclaim her throne. **Think Like a Monk** Candlewick Press The Defining Decade has changed the way millions of twentysomethings think about

their twenties—and themselves. Revised and reissued for a new generation, let it change how you think about you and yours. Our "thirty-is-the-new-twenty" culture tells us the twentysomething years don't matter. Some say they are an extended adolescence. Others call them an emerging adulthood. In *The Defining Decade*, Meg Jay argues that twentysomethings have been caught in a swirl of hype and misinformation, much of which has trivialized the most transformative time of our lives. Drawing from more than two decades of work with thousands of clients and students, Jay weaves the latest science of the twentysomething years with behind-closed-doors stories from twentysomethings themselves. The result is a provocative read that provides the tools necessary to take the most of your twenties, and shows us how work, relationships, personality, identity and even the brain can change more during this decade than at any other time in adulthood—if we use the time well. Also included in this updated edition: Up-to-date research on work, love, the brain, friendship, technology, and fertility What a decade of device use has taught us about looking at friends—and looking for love—online 29 conversations to have with your partner—or to keep in mind as you search for one A social experiment in which "digital natives" go without their phones A Reader's Guide for book clubs, classrooms, or further self-reflection
