9 Common Lies Christians Believe
David C Cook
“This disturbing but very important book makes clear we must dig

deeper than the normal solutions we are offered.”—Yvon Chouinard, founder of Patagonia Works
"Bright Green Lies" exposes the hypocrisy and bankruptcy of leading environmental

groups and their most prominent cheerleaders. The best-known environmentalists are not in the business of speaking truth, or even holding up rational solutions to blunt the impending ecocide, but

instead indulge in a environmental mendacious and self-serving delusion that provides comfort at the expense of reality. They fail to state the obvious: We cannot continue to wallow in hedonistic consumption and industrial expansion and survive as a species. The environmental debate, Derrick Jensen and his coauthors argue, has been distorted by hubris and the childish desire by those in industrialized nations to sustain the unsustainable. All debates about

policy need to begin with honoring and protecting, not the desires of the human species, but with the sanctity of the Earth itself. We refuse to ask the right questions because these questions expose a stark truth—we cannot continue to live as we are living. To do so is suicidal folly. ‘Tell me how you seek, and I will tell you what you are seeking,’ the German philosopher Ludwig Wittgenstein said. This is the power of Bright Green

A “hair-raising . . . devilishly complicated mystery” from the Scottish crime master. “Don’t even try to guess the outcome” (The New York Times Book Review). Diana Jager is clever, strong, and successful, a skilled surgeon and fierce campaigner via her blog about sexism in medicine. Yet it takes only hours for her life to crumble when her personal details are released on the internet as revenge for her writing. Then Diana meets Peter. He is kind, generous, and knows nothing about her past—the second chance she’s been waiting for. Within six months, they are married. Within six

more, Peter is dead in a road accident, a nightmare end to their fairy-tale romance. But Peter’s sister doesn’t believe in fairy tales, and tasks rogue reporter Jack Parlabane with discovering the dark truth behind the woman the media is calling the Black Widow. Still on the mend from a turbulent divorce, Jack’s investigation into matters of the heart takes him to hidden places no one should ever have to go. Winner of the 2017 Theakson Old Peculier Crime Novel of the Year Award and the 2016 McIlvanney Prize for Scottish Crime Book of the Year “Brookmyre excels at melding the true

chills of a psychological thriller with rollicking—if dark—humor. A witty and wild page-turner, Black Widow shines in showcasing this winning combination.” —The Boston Globe “Exceptionally good—a knotty mystery that’s . . . one of the most perceptive excavations of a dysfunctional marriage I can remember reading.” —The Guardian (UK) “A tense and provocative read.” —Entertainment Weekly The Dawkins Delusion? Regnery Publishing Addresses the top lies teenage girls

believe about such topics as God, guys, media, relationships, and faith, analyzes why they are incorrect, and discusses scriptures that reveal the truth.

Without even realizing it, many people

believe lies about God, such as: "God's love must be earned." "God has lost control of everything." "God gives us everything we want in life."
In *The Lies We Believe* about God, psychologist Chris Thurman explores the influences that affect everyone's view of God, the cost of not knowing God for who He really is, and how knowing God more intimately can bring greater meaning and joy to life. This engaging, biblically

rooted book calls readers to see the truth of who God is—truth that can set them free to enjoy a deeper relationship with Him.

live in a time when the very idea of objective truth is mocked and discounted by the occupants of the White House. Discredited conspiracy theories and ideologies have resurfaced, proven science is once more up for debate, and Russian propaganda floods our screens. The wisdom of the crowd

has usurped research and expertise, and we are each left clinging to the beliefs that best confirm our biases. How did truth become an endangered species in contemporary America? This decline began decades ago, and in *The Death of Truth*, former New York Times critic Michiko Kakutani takes a

penetrating look at the cultural forces that contributed to this gathering storm. In social media and literature, television, academia, and politics, Kakutani identifies the trends—originating on both the right and the left—that have combined to elevate subjectivity over

factuality, science, and common values. And she returns us to the words of the great critics of authoritarianism, writers like George Orwell and Hannah Arendt, whose work is newly and eerily relevant. With remarkable erudition and insight, Kakutani offers a provocative diagnosis of our current

condition and points toward a new path for our truth-challenged times.

That All Shall Be Saved
Thomas Nelson
Maybe God isn't who you think He is. Maybe He's much better. Pastor and speaker Shane Pruitt guides readers in identifying the Christian cliches we've all heard that are actually unbiblical lies. He then counters with the truths about God as presented in the Bible,

truths that bring encouragement and freedom for our lives. God won't give you more than you can handle. Really? Pastor and speaker Shane Pruitt shines a light on this and other Christian cliches that upon further inspection are actually unbiblical lies that keep far too many believers stuck in spiritual immaturity.

How Will You Measure Your Life? (Harvard Business

Review Classics) Thomas Nelson White Lies considers African-American bodies as the site of cultural debates over a contested "white religion" in the United States. Rooting his analysis in the work of W.E.B. DuBois and James Baldwin, Christopher Driscoll traces the shifting

definitions of "white religion" from the nineteenth century up to the death of Michael Brown and other racial controversies of the present day. He engages both modern philosophers and popular imagery to isolate the instabilities central to a "white religion," including the inadequacy of this framing

concept as a way of describing and processing death. The book will be of interest to students and scholars interested in African-American Religion, philosophy and race, and Whiteness Studies. Living Joy Simon and Schuster What do straight, married female revelers at an all-

women's sex club in LA have in common with nomadic pastoralists in Namibia who bear children by men not their husbands? Like women worldwide, they crave sexual variety, novelty, and excitement. In ancient Greek tragedies, Netflix series, tabloids and pop songs, we've long portrayed

such cheating women as dangerous and damaged. We love to hate women who are untrue. But who are they really? And why, in this age of female empowerment, do we continue to judge them so harshly? In Untrue, Wednesday Martin takes us on a bold, fascinating journey to reveal the unexpected evolutionary
