The Plastics

Paradox is the first

and only book to

reveal the truth

about plastics and

the environment.

Based on over 400

scientific articles,

it dispels the

myths that the

public believe

today. We are told

that plastics are

not green when in

fact, they are

usually the greenest choice according to lifecycle analysis (LCA) We are told that plastics create a waste problem when they are proven to dramatically reduce waste, for example replacing 1lb of plastic requires 3-4lb of the replacement material We are told that plastics take 1000 years to degrade when in fact a plastic bag disintegrates in just one year outdoors We are led to believe that plastic bags and straws are an issue when in fact they barely register in the statistics The list

goes on...

Everything you believe now is untrue and we are making policies that harm the environment based on bad information. After reading *The Plastics Paradox* you will be able to make wise choices that help create a brighter future for us and for our children.

All the Little Lies

Henry Holt and Company
Dr. Thurman draws on his knowledge as a clinical psychologist with the Minirth-Meier Clinic, as well as his deep familiarity with the Bible, to give readers Christ's

own answers to their most personal questions on forgiveness, taking responsibility, being honest, and relying on God.

Five Lies That Ruin Relationships Study Guide: Wrong Beliefs Produce Wrong Behavior
Thomas Nelson
As Dr. Thurman showed in "The Lies We Believe," people have been conditioned to believe certain lies that produce emotional

misery. This workbook is designed to help readers quit lying to themselves and stop hurting. The interactive workbook format allows readers to open up more freely and uncover feelings or aspects of their lives previously hidden. The *Lies We Believe Workbook* WaterBrook Christopher Hitchens, described in the *London Observer* as "one of the most prolific, as well as brilliant, journalists of our

time ” takes on his biggest subject yet – the increasingly dangerous role of religion in the world. In the tradition of Bertrand Russell ’ s Why I Am Not a Christian and Sam Harris ’ s recent bestseller, The End Of Faith, Christopher Hitchens makes the ultimate case against religion. With a close and erudite reading of the major religious texts, he documents the ways in which religion is a man-made wish, a cause of dangerous sexual repression, and a distortion of our

origins in the cosmos. With eloquent clarity, Hitchens frames the argument for a more secular life based on science and reason, in which hell is replaced by the Hubble Telescope ’ s awesome view of the universe, and Moses and the burning bush give way to the beauty and symmetry of the double helix. Live No Lies Princeton University Press
In a world that is veering dangerously off course from what it calls “ truth ” comes a classic work that unmask the lies we unwittingly

believe, lies that destroy us and ultimately damage our emotional health, relationships, and spiritual life. In this completely revised and updated edition, psychologist Dr. Chris Thurman guides the reader through the lies we believe about ourselves, relationships, life, men, women, and, most important, God. He then unpacks the twelve essential truths for emotional health and the truth about God—the ultimate source of Truth. This easy-to-follow guide to renewing the mind helps identify problem areas and the midcourse correction needed in

how we view ourselves and our world. With discussion questions and biblical support, this timeless classic is required reading to help develop the mind of Christ and be able to experience the abundant life.

In Lies We Trust

Penguin

What politicians and the media don't want you to know. Millions of Americans at both ends of the political spectrum are angry and fed up with being lied to by politicians and the media. The emergence of "outsider" presidential candidates Donald Trump and Bernie Sanders is proof that people are sick and tired of Washington's culture of deception. Thumbing his nose at

political correctness, negotiation expert and political commentator Ed Brodow exposes the outrageous lies that have been disseminated about the most important issues of our time. He tells the uncensored truth about the threat of Islamic extremism, global warming, the welfare entitlement system, Obamacare, racial tension and other important things that our elected representatives don't want you to know. If you vote in national elections, the candor of *In Lies We Trust* will help you make decisions based on facts instead of misinformation.

When God Doesn't Fix It
Thomas Nelson
A wide-ranging argument by a

renowned anthropologist that the capacity to believe is what makes us human. Why are so many humans religious? Why do we daydream, imagine, and hope? Philosophers, theologians, social scientists, and historians have offered explanations for centuries, but their accounts often ignore or even avoid human evolution. Evolutionary scientists answer with proposals for why ritual, religion, and faith make sense as adaptations to past challenges

or as by-products of our hyper-complex cognitive capacities. But what if the focus on religion is too narrow? Renowned anthropologist Agustín Fuentes argues that the capacity to be religious is actually a small part of a larger and deeper human capacity to believe. Why believe in religion, economies, love? A fascinating intervention into some of the most common misconceptions about human nature, this book employs evolutionary, neurobiological,

and anthropological evidence to argue that belief—the ability to commit passionately and wholeheartedly to an idea—is central to the human way of being in the world. *9 Common Lies Christians Believe* McClelland & Stewart Krakauer's page-turning bestseller explores a famed missing person mystery while unraveling the larger riddles it holds: the profound pull of the American wilderness on our imagination; the allure of high-risk activities to young men of a certain cast of mind; the complex,

charged bond between fathers and sons. "Terrifying... Eloquent... A heart-rending drama of human yearning." —New York Times In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. He had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Four months later, his decomposed body was found by a moose hunter. How Christopher Johnson McCandless came to die is the

unforgettable story of
Into the Wild.
Immediately after
graduating from
college in 1991,
McCandless had
roamed through the
West and Southwest
on a vision quest like
those made by his
heroes Jack London
and John Muir. In
the Mojave Desert he
abandoned his car,
stripped it of its
license plates, and
burned all of his cash.
He would give
himself a new name,
Alexander
Supertramp, and,
unencumbered by
money and
belongings, he would
be free to wallow in
the raw, unfiltered
experiences that
nature presented.
Craving a blank spot
on the map,

McCandless simply
threw the maps away.
Leaving behind his
desperate parents
and sister, he
vanished into the
wild. Jon Krakauer
constructs a
clarifying prism
through which he
reassembles the
disquieting facts of
McCandless's short
life. Admitting an
interest that borders
on obsession, he
searches for the clues
to the drives and
desires that propelled
McCandless. When
McCandless's
innocent mistakes
turn out to be
irreversible and fatal,
he becomes the stuff
of tabloid headlines
and is dismissed for
his naiveté,
pretensions, and
hubris. He is said to

have had a death wish
but wanting to die is
a very different thing
from being
compelled to look
over the edge.
Krakauer brings
McCandless's
uncompromising
pilgrimage out of the
shadows, and the
peril, adversity, and
renunciation sought
by this enigmatic
young man are
illuminated with a
rare
understanding--and
not an ounce of
sentimentality.
Mesmerizing,
heartbreaking, Into
the Wild is a tour de
force. The power and
luminosity of Jon
Krakauer's storytelling
blaze through every
page.

From the author of the bestselling

novel *The Shack* and the New York Times bestsellers *Cross Roads* and *Eve* comes a compelling, conversational exploration of twenty-eight assumptions about God—assumptions that just might be keeping us from experiencing His unconditional, all-encompassing love. In his wildly popular novels, Wm. Paul Young portrayed the Triune God in ways that challenged our thinking—sometimes upending long-held beliefs, but always centered in the eternal, all-encompassing

nature of God's love. Now, in Wm. Paul Young's first nonfiction book, he invites us to revisit our assumptions about God—this time using the Bible, theological discussion, and personal anecdotes. Paul encourages us to think through beliefs we've presumed to be true and consider whether some might actually be false. Expounding on the compassion fans felt from the "Papa" portrayed in *The Shack*—now a major film starring Sam Worthington and Octavia Spencer—Paul

encourages you to think anew about important issues including sin, religion, hell, politics, identity, creation, human rights, and helping us discover God's deep and abiding love.

The bestselling author of *The Ruthless Elimination of Hurry* equips readers to recognize and resist the lies that seek to rob them of peace and freedom. "Live No Lies is brilliant, deep, scriptural, and will equip you to face the enemy and

fight. ” —Jennie Allen, New York Times bestselling author of *Get Out of Your Head* We are at war. Not with a foreign government or domestic terrorists or a creepy new artificial intelligence hell-bent on taking over the world. No, it ’ s a war we feel deep inside our own chests: we are at war with lies. The problem isn ’ t so much that we tell lies but that we live them. We let them into our bodies, and they sabotage our peace. All around us in the culture and deep within our own body memories are lies: deceptive ideas that wreak havoc on our emotional health and spiritual well-being,

and deceptive ideas about who God is, who we are, and what the good life truly is. The choice is not whether to fight or not fight, but whether we win or surrender. Ancient apprentices of Jesus developed a paradigm for this war; they spoke of the three enemies of the soul: the devil, the flesh, and the world. *Live No Lies* taps into this ancient wisdom from saints of the Way and translates the three enemies for the modern era, with all its secularism and sophistication. As a generation, we chuckle at the devil as a premodern myth, we are confused by

Scripture ’ s teaching on the flesh in an age where sensual indulgence is a virtue not a vice, and we have little to no category for the New Testament concept of the world. In this provocative and practical book, bestselling author John Mark Comer combines cultural analysis with spiritual formation. He identifies the role lies play in our spiritual deformation and lays out a strategic plan to overcome them. Do you feel the tug-of-war in your own heart, the inner conflict between truth and lies? The spirit and the flesh? *The Way of Jesus* and the world? It ’ s time to start winning.

From the Pulitzer Prize – winning critic comes an impassioned critique of America ' s retreat from reason
We live in a time when the very idea of objective truth is mocked and discounted by the occupants of the White House.
Discredited conspiracy theories and ideologies have resurfaced, proven science is once more up for debate, and Russian propaganda floods our screens.
The wisdom of the crowd has usurped

research and expertise, and we are each left clinging to the beliefs that best confirm our biases.
How did truth become an endangered species in contemporary America? This decline began decades ago, and in *The Death of Truth*, former New York Times critic Michiko Kakutani takes a penetrating look at the cultural forces that contributed to this gathering storm.
In social media and literature, television, academia, and politics, Kakutani identifies the trends—originating on both the right and the left—that have combined to elevate subjectivity over

factuality, science, and common values.
And she returns us to the words of the great critics of authoritarianism, writers like George Orwell and Hannah Arendt, whose work is newly and eerily relevant. With remarkable erudition and insight, Kakutani offers a provocative diagnosis of our current condition and points toward a new path for our truth-challenged times.
The Infinite Day
Book Guild Publishing
The Pulitzer Prize – winning journalist discusses America ' s most taboo topics in a no-holds-barred

extended interview with Salon founder David Talbot. Chris Hedges has been telling truth to (and against) power since his earliest days as a radical journalist. An intellectual heir to heroes such as Thomas Paine and Noam Chomsky, he continues to confront American empire in the most incisive, challenging ways. In *Unspeakable*, Hedges and Salon founder David Talbot discuss the most pressing issues that face our nation. He tackles the rise of a fascist right in support of Donald Trump; the false posturing of inclusivity from establishment elites on both sides of the aisle; politicians who continue to implement policies that widen income inequality; the contemporary glamorization of the military and the unchallenged hawkishness of contemporary American foreign policy; and many other topics. Hedges also discusses a path forward, underscoring the necessity of protest movements—such as Black Lives Matter—that represent Americans refusing to take the destruction of their country lying down. If we are to combat the intellectual and moral decay that have taken hold of American life, we must listen to the urgent messages raised in this book.

The Search for Significance
Grand Central Publishing
As a veteran war correspondent, Chris Hedges has survived ambushes in Central America, imprisonment in Sudan, and a beating by Saudi military police. He has seen children murdered for sport in Gaza and petty thugs elevated into war heroes in the

Balkans. Hedges, who is also a former divinity student, has seen war at its worst and knows too well that to those who pass through it, war can be exhilarating and even addictive: “ It gives us purpose, meaning, a reason for living. ” Drawing on his own experience and on the literature of combat from Homer to Michael Herr, Hedges shows how war seduces not just those on the front lines but entire societies—corrupting politics, destroying culture, and perverting basic human desires. Mixing hard-nosed realism with profound moral and philosophical insight,

you better understand the good and the bad when it comes to the attitude you carry into each day. Far too often, we focus on changing our circumstances as the best way to improve our lives.
