The Light of Other Days is a story about growing up in a turbulent household with an anxiety disorder, coupled with the strain of an absent father and an emotionally-bankrupt stepfather. It is also a story about a wonderful relationship between a child and his great-grandfather, a man who unknowingly (and happily) filled a parental void in the midst of his own depression. Beginning in the blue-collar world of 1970s Philadelphia and ending over two decades later, The Light of Other Days follows the trials of adolescence and an internal monologue that was often louder than the outside

world.

The Georgia Coast is one the most intriguing areas of the United States. A land of sluggish rivers, murkey blackwater swamps, and studded with a string of islands, it is the home of a special breed of people. They are as wild, reckless, exciting, beautiful, and contradictory as the land itself. One thing is for sure: both natives and visitors love it. But the story of this land is one that is often known about only in legend and hearsay, in stories and novels, and even in a few dissertations. By focusing on James Hamilton Couper, James Bagwell paints a portrait of the Georgia Coast during the late eighteenth century through the middle of the nineteenth century. Couper's family was originally from Scotland, where the story actually begins, but settled on the Georgia Coast. When James Hamilton Couper was grown, he attended Yale, but returned to make a name for himself and his plantation in politics, plantation management, scientific agriculture, archaeology, and architecture. Bagwell also discusses the role of Couper as a slave owner and of slave-life on the plantation. But the book is more than about Couper; he is simply the pivot of the book. The real story here is the Coastal land itself: socially, economically, religiously, and politically. From the colonial days on the coast through the

American Civil War, Bagwell has written a compelling story of a most enigmatic land: the Georgia Coast.

The Wheel of Time is now an original series on Prime Video, starring Rosamund Pike as Moiraine! With Robert Jordan's untimely passing in 2007, Brandon Sanderson, the New York Times bestselling author of the Mistborn novels and the Stormlight Archive, was chosen by Jordan's editor—his wife, Harriet McDougal—to complete the final volume in The Wheel of Time®, later expanded to three books. In *A Memory of Light*, the fourteenth and concluding novel in Jordan's #1 New York Times bestselling epic fantasy series, the armies of Light gather to fight in Tarmon Gai'don, the Last Battle, to save the Westland nations from the shadow forces of the Dark One. Rand al'Thor, the Dragon Reborn, is ready to fulfill his destiny. To defeat the enemy that threatens them all, he must convince his reluctant allies that his plan—as foolhardy and dangerous as it appears—is their only chance to stop the Dark One's ascension and secure a lasting peace. But if Rand's course of action fails, the world will be engulfed in shadow. Across the land, Mat, Perrin, and Egwene engage in battle with Shadowspawn, Trollocs, Darkfriends, and other creatures of the Blight. Sacrifices are made, lives are lost, but victory is unassured. For when Rand confronts the Dark One in Shayol Ghul, he is bombarded with conflicting visions of the future that reveal there is more at stake for humanity than

winning the war. Since its debut in 1990, *The Wheel of Time®* by Robert Jordan has captivated millions of readers around the globe with its scope, originality, and compelling characters. The last six books in series were all instant #1 New York Times bestsellers, and *The Eye of the World* was named one of America's best-loved novels by PBS's *The Great American Read*. The Light of the Labyrinth Tor Books
NOW A NETFLIX LIMITED SERIES—from producer and director Shawn Levy (Stranger Things) starring Mark Ruffalo, Hugh Laurie, and newcomer Aria Mia Loberti Winner of the Pulitzer Prize and National Book Award finalist, the beloved instant New York Times bestseller and New York Times Book Review Top 10 Book about a blind French girl and a German boy whose paths collide in occupied France as both try to survive the devastation of World War II. Marie-Laure lives with her father in Paris near the Museum of Natural History where he works as the master of its thousands of locks. When she is six, Marie-Laure goes blind and her father builds a perfect miniature of their neighborhood so she can memorize it by touch and navigate her way home. When she is twelve, the Nazis occupy Paris, and father and daughter flee to the walled

citadel of Saint-Malo, where Marie-Laure's reclusive great uncle lives in a tall house by the sea. With them they carry what might be the museum's most valuable and dangerous jewel. In a mining town in Germany, the orphan Werner grows up with his younger sister, enchanted by a crude radio they find. Werner becomes an expert at building and fixing these crucial new instruments, a talent that wins him a place at a brutal academy for Hitler Youth, then a special assignment to track the Resistance. More and more aware of the human cost of his intelligence, Werner travels through the heart of the war and, finally, into Saint-Malo, where his story and Marie-Laure's converge. Doerr's "stunning sense of physical detail and gorgeous metaphors" (San Francisco Chronicle) are dazzling. Deftly interweaving the lives of Marie-Laure and Werner, he illuminates the ways, against all odds, people try to be good to one another. Ten years in the writing, *All the Light We Cannot See* is a magnificent, deeply moving novel from a writer "whose sentences never fail to thrill" (Los Angeles Times).

Sevener Harper Collins

The classic postapocalyptic thriller with "all the reality of a vividly realized nightmare" (The Times, London). Triffids are odd, interesting little plants that grow in everyone's garden. Triffids are no more than mere curiosities—until an event occurs that alters human life forever. What seems to be a spectacular meteor shower turns into a bizarre, green inferno that blinds everyone and renders humankind helpless. What follows is even stranger: spores from the inferno cause the triffids to suddenly take on a life of their own. They become large, crawling vegetation, with the ability to uproot and roam about the country, attacking humans and inflicting pain and agony. William Masen somehow managed to escape being blinded in the inferno, and now after leaving the hospital, he is one of the few survivors who can see. And he

may be the only one who can save his species from chaos and eventual extinction . . . With more than a million copies sold, *The Day of the Triffids* is a landmark of speculative fiction, and “ an outstanding and entertaining novel ” (Library Journal). “ A thoroughly English apocalypse, it rivals H. G. Wells in conveying how the everyday invaded by the alien would feel. No wonder Stephen King admires Wyndham so much. ”

—Ramsey Campbell, author of *The Overnight*

“ One of my all-time favorite novels. It ’ s absolutely convincing, full of little telling details, and that sweet, warm sensation of horror and mystery. ” —Joe R. Lansdale, author of *Edge of Dark Water*

From the #1 New York Times bestselling author of *Anathem*, *Reamde*, and *Cryptonomicon* comes an exciting and thought-provoking science fiction epic—a grand story of annihilation and survival spanning five thousand years. What would happen if the world were ending? A catastrophic event renders the earth a ticking time bomb. In a feverish race against the inevitable, nations around the globe band together to devise an ambitious plan to ensure the survival of humanity far beyond our atmosphere, in outer space. But the complexities and unpredictability of human nature coupled with unforeseen challenges and dangers threaten the intrepid pioneers, until only a handful of survivors remain . . . Five thousand years later, their progeny—seven distinct races now three billion strong—embark on yet another audacious journey into the unknown . . . to an alien world utterly transformed by cataclysm and time: Earth. A writer of dazzling genius and imaginative vision, Neal Stephenson combines science, philosophy, technology, psychology, and literature in a magnificent work of speculative fiction that offers a portrait of a future that is both extraordinary and eerily recognizable. As he

did in *Anathem*, *Cryptonomicon*, the *Baroque Cycle*, and *Reamde*, Stephenson explores some of our biggest ideas and perplexing challenges in a breathtaking saga that is daring, engrossing, and altogether brilliant.

“ A haunting novel that will make readers wonder. ” -Orlando Sentinel
Nemo's mother and father left him behind to enter "the Bin"—joining twelve billion uploaded personalities who live in crime-free, disease-free and deathless virtual societies. Nemo has come of age on a dangerous, near-deserted planet populated by a handful of stragglers: religious fundamentalists and rebels, the creeps and the crazies. Now he is twenty-one. And on a rare, reluctant visit to the parents who abandoned flesh and son for cyber-utopia, Nemo has met the perfect woman: a new Bin arrival named Justine, a beautiful pop singer who dreams other people's dreams in the virtual night. Now an inconvenient attraction is leading two lovers into a perilous mire of irreversible choice. For Justine has no body to return to. And Nemo the renegade has sworn never to sacrifice his own; to live, age, and die instead in a bleak earthly hell. Because, as an outsider, he may enter the Bin for short periods of time. But if he ever decides to stay...there will be no way out again. “ EARTHLY AND SPIRITUAL DELIGHTS AROUND... DENNIS DANVERS'S MOVE TO SF IS A WELCOME ONE.”-Washington Post

From Arthur C. Clarke, the brilliant mind that brought us *2001: A Space Odyssey*, and Stephen Baxter, one of the most cogent SF writers of his generation, comes a novel of a day, not so far in the future, when the barriers of time and distance have suddenly turned to glass. When a brilliant, driven industrialist harnesses cutting-edge physics to enable people everywhere, at trivial cost, to see one another at all times—around every corner, through every wall—the result is the sudden and complete abolition of human privacy, forever. Then the same technology proves able to look backward in time as well. *The Light of Other Days* is a story that will change your view of what it is to be human. Other Days, Other Eyes Del Rey
THE INSTANT NEW YORK TIMES BESTSELLER! Also on the USA Today, Washington Post, Boston Globe, Globe and Mail, Publishers Weekly, and Indie bestseller lists. One of the most important stories of World War II, already optioned by Steven Spielberg for a major motion picture: a spectacular, searing history that brings to light the extraordinary accomplishments of brave Jewish women who became resistance fighters—a group of unknown heroes whose exploits have never been chronicled in full, until now. Witnesses to the brutal murder of their families and neighbors and the violent destruction of their communities, a cadre of Jewish women in Poland—some still in their teens—helped transform the Jewish youth

groups into resistance cells to fight the Nazis. With courage, guile, and nerves of steel, these “ghetto girls” paid off Gestapo guards, hid revolvers in loaves of bread and jars of marmalade, and helped build systems of underground bunkers. They flirted with German soldiers, bribed them with wine, whiskey, and home cooking, used their Aryan looks to seduce them, and shot and killed them. They bombed German train lines and blew up a town’s water supply. They also nursed the sick, taught children, and hid families. Yet the exploits of these courageous resistance fighters have remained virtually unknown. As propulsive and thrilling as *Hidden Figures*, *In the Garden of Beasts*, and *Band of Brothers*, *The Light of Days* at last tells the true story of these incredible women whose courageous yet little-known feats have been eclipsed by time. *Judy Batalion*—the granddaughter of Polish Holocaust survivors—takes us back to 1939 and introduces us to Renia Kukielka, a weapons smuggler and messenger who risked death traveling across occupied Poland on foot and by train. Joining Renia are other women who served as couriers, armed fighters, intelligence agents, and saboteurs, all who put their lives in mortal danger to carry out their missions. *Batalion* follows these women through the savage destruction of the ghettos, arrest and internment in Gestapo prisons and concentration camps, and for a lucky few—like Renia, who orchestrated her own audacious escape from a brutal Nazi jail—into the late 20th century and beyond. Powerful and inspiring, featuring twenty black-and-white photographs, *The Light of Days* is an unforgettable true tale of war, the fight for freedom, exceptional bravery, female friendship, and survival in the face of staggering odds. The Light of Other Days Rosetta Books

The Firstborn – the mysterious race of aliens who first became known to science fiction fans as the builders of the iconic black monolith in *2001: A Space Odyssey* – have inhabited legendary master of science fiction Sir Arthur C. Clarke’s writing for decades. With *Time’s Eye* and *Sunstorm*, the first two books in their acclaimed *Time Odyssey* series, Clarke and his brilliant co-author Stephen Baxter imagined a near-future in which the *Firstborn* seek to stop the advance of human civilization by employing a technology indistinguishable from magic. Their first act was the *Discontinuity*, in which Earth was carved into sections from different eras of history, restitched into a patchwork world, and renamed *Mir*. *Mir*’s inhabitants included such notables as Alexander the Great, Genghis Khan, and United Nations peacekeeper Bisesa Dutt. For reasons unknown to her, Bisesa entered into communication with an alien artifact of inscrutable purpose and godlike power – a power that eventually returned her to Earth. There, she played an instrumental role in humanity’s race against time to stop a doomsday event: a massive solar storm triggered by the alien *Firstborn* designed to eradicate all life from the planet. That fate was averted at an inconceivable price. Now, twenty-seven years later, the *Firstborn* are back. This time, they are pulling no punches:

They have sent a “ quantum bomb. ” Speeding toward Earth, it is a device that human scientists can barely comprehend, that cannot be stopped or destroyed – and one that will obliterate Earth.

Bisesa ’ s desperate quest for answers sends her first to Mars and then to Mir, which is itself threatened with extinction. The end seems inevitable. But as shocking new insights emerge into the nature of the Firstborn and their chilling plans for mankind, an unexpected ally appears from light-years away.
