History in Dutch Studies re-considers the central role of history within the discipline of Dutch Studies as viewed from a range of specializations within the field. Contributions by scholars of Dutch history, art history, literature and linguistics all illustrate how the past, and one's theories and views of history, affect the practice of each part of the discipline. One reflection of the history of the Low Countries in "Dutch Studies" is the range of the field: it is interpreted broadly in this volume to include studies of Afrikaans as well as Dutch literature- poetry as well as prose- in light of their histories, the history of Flanders and that of the Netherlands, approaches within Dutch linguistics as well as a history of language contact and its influence on Dutch. This breadth continues in the range of institutions and nationalities that are represented. The volume presents work from major scholars from the Netherlands, Belgium, and South Africa as well as from the United States of America. These articles therefore provide a good cross-section of ongoing research in the Netherlandic Studies the world over.

In this remarkable fictionalised memoir, Lulu Wang tells the story of a teenage girl, Lian, during the Cultural Revolution. Separated from her lower-caste friend, Kim, when she joins her mother in a reeducation camp, Lian finds solace there with some of China's leading scholars, who teach her to distinguish truth from propaganda. But on her return home, Lian struggles to keep her integrity as the rigid traditional caste-system undermines her friendship with Kim and as the country is swept by a fresh wave of terror and chaos. An immense success on its publication in the Netherlands, this is a beautifully written account of an intellectual, emotional and sexual awakening in extraordinary circumstances.

This guide is based on our much larger (530-page) guide to Bolivia. Here we zero in on La Paz, the capital, and all of the nearby attractions. La Paz is not a big city on the world scale, but it is certainly one of the more interesting ones. Built in a bowl created by the Choqueyapu River, the upper parts of the city stand 1,645 ft/500 m above the lower sections. Unlike any other city in the world, the richer neighborhoods are located at the lower levels. This is partly due to the fact that it is warmer and easier to breathe at the lower altitudes. Also, the pinnacles and spires of conglomerate rock and clay that have been sculptured by wind and water make a dramatic backdrop for those living below them. The higher up the bowl one goes, the more unstable the land becomes and the more likely a landslide will occur. The plazas, squares and Prado are well kept in La Paz and even in the depth of winter plants are tended to help make the city attractive. Street cleaners are out every day and local merchants regularly wash the area in front of their shops. On a clear day, Mount Illimani, a snow-covered monolith, can be seen as a sentry towering over the city. Valley of the Moon is six miles/10 km from the center of La Paz and can be reached by joining a tour or by taking micro bus #11 or minibus #231 or 273 to Mallasilla. The hillside features a maze of clay canyons and pinnacles that have been sculpted by wind and rain. Narrow trails through the landscape take about an hour to walk. There is also a cactus park just before the entrance. The park overlooks a gorge and has paths leading around numerous types of cacti. As you continue up the road you will come to Parque National Mallasa with its bird observatory and, across the road, the zoo area. The road passes under natural stone bridges and past Chulpani's Red Hill. There is no mistaking which hill this is. From Mallasa one can see across the river to the highest golf course in the world. Devil's Tooth or Muela del Diablo is a huge volcanic plug sticking out of the landscape to a height of 13,000 ft/3,950 m. Several trails go to the right; follow the one that obviously leads to the village. From there, go to the left for .3 miles (about half a kilometer), to the foot of the rock. Climbers are occasionally found on the east face. Canyon de Palca, or Valle de Animas, is a deep canyon that was carved by the Rio Palca centuries ago. To get there, take a bus going to Huni from Plaza Belzu on Avenida Mexico in San Pedro. There are huge pinnacles and wind-carved conglomerates. The trail continues along the bottom of the canyon to a natural obelisk. Just past the obelisk is a rock that has the appearance of a human hiding in a cave. The rock is called the hermit of the canyon. Continue along the canyon to its end and climb to your left up to the village of Palca. This is a long day-hike. All of the detailed information you need is here about the hotels, restaurants, shopping, sightseeing. But we also lead you to new discoveries, turning corners you haven't turned before, helping you to interact with the world in new ways. That's what makes our Adventure Guides unique. "An excellent addition to the Adventure Guide series, packed with detail, from where to stay and eat, to where to shop for local crafts and how to enjoy historic sites. This guide surveys the wildlife and outdoor opportunities of the country, which range from tropical jungle to high plains deserts. Hiking and viewing opportunities blend with cultural insights. Personal narratives have become one of the most potent vehicles for advancing human rights claims across the world. These two contemporary domains, personal narrative and human rights, literature and international politics, are commonly understood to operate on separate planes. This study however, examines the ways these intersecting realms unfold and are enfolded in one another in ways both productive of and problematic for the achievement of social justice. Human Rights and Narrated Lives explores what happens when autobiographical narratives are produced, received, and circulated in the field of human rights. It asks how personal narratives emerge in local settings; how international rights discourse enables and constrains individual and collective subjectivities in narration; how personal narratives circulate and take on new meanings in new contexts; and how and under what conditions they feed into, affect, and are affected by the reorganizations of politics in the post cold war, postcolonial, globalizing human rights contexts. To explore these intersections, the authors attend the production, circulation, reception, and affective currents of stories in action across local, national, transnational, and global arenas. They do so by looking at five case studies: in the context of the Truth and Reconciliation processes in South Africa; the National Inquiry into the Forced Removal of Indigenous Children from their Families in Australia; activism on behalf of former 'comfort women' from South/East Asia; U.S. prison activism; and democratic reforms in the aftermath of the Tiananmen Square Massacre in China.

** THE INTERNATIONAL PHENOMENON ** 'There are many laughs in this book but it's so much more than just a comedy. It's a story about how friendship, selflessness and dignity lie at the heart of the human experience. When I'm an old man, I want to be Hendrik Groen' John Boyne, author of international bestseller *The Boy in the Striped Pyjamas* *** 'Another year and I still don't like old people. Me? I am 83 years old.' Hendrik Groen may be old, but he is far from dead and isn't planning to be buried any time soon. Granted, his daily strolls are getting shorter because his legs are no longer willing and he had to visit his doctor more than he'd like. Technically speaking he is ... elderly. But surely there is more to life at his age than weak tea and potted geraniums? Hendrik sets out to write an exposé: a year in the life of his care home in Amsterdam, revealing all its ups and downs - not least his new endeavour the anarchic Old-But-Not Dead Club. And when Eefje moves in - the woman Hendrik has always longed for - he polishes his shoes (and his teeth), grooms what's left of his hair and attempts to make something of the life he has left, with hilarious, tender and devastating consequences. The indomitable Hendrik Groen - Holland's unluckiest hero - has become a cultural phenomenon in his native Netherlands and now he and his famously anonymous creator are conquering the globe. A major Dutch bestseller, *The Secret Diary of Hendrik Groen* will not only delight older readers with its wit and relevance, but will charm and inspire those who have years to go before their own expiry date. *** Praise for *The Secret Diary of Hendrik Groen, 83 Years Old* 'A story with a great deal of heart, it pulled me in with its self-deprecating humour, finely drawn characters and important themes. Anyone who hopes to grow old with dignity will have much to reflect on' Graeme Simsion 'There are many laughs in this book but it's so much more than just a comedy. It's a story about how friendship, selflessness and dignity lie at the heart of the human experience. When I'm an old man, I want to be Hendrik Groen' John Boyne 'A funny but also touching diary praised for its wit and realism' BBC Radio 4 Front Row 'I laughed until I cried and then laughed and cried some more' David Suchet 'Thoughtful, anxious and gruff... Laced with humour' The Best New Fiction Mail on Sunday 'Amusing [and] wickedly accurate ... I was constantly put in mind of *One Flew Over the Cuckoo's Nest*, another comic-tragedy concerning the tyranny of institutions of the unwanted. Enjoy Groen's light touch but do not be fooled by it. We live in an ageing society. The *Secret Diary of Hendrik Groen* is a handbook of resistance for our time' ***** FIVE STARS Sunday Express 'Highly entertaining ... a delightful and touching saga of one man's way of coping with old age ... we may assume that Hendrik Groen is a character of fiction. But it is a fiction so closely

based on the observation of real life that it is utterly convincing'' Daily Express ''A joy to read, as much concerned with friendship and dignity as it is with the debilitating effects of aging ... An entertaining and uplifting story of a man in the winter of his days, stoic in the face of bureaucratic nonsense and an unabashed need to wear a nappy. Imagined or not, this is the diary of someone who wants nothing more than to be allowed see out his days with dignity and respect. It''s not too much to ask, really, is it?'' John Boyne Irish Times ''Full of off-beat charm and quirky characters'' Cathy Rentzenbrink, Stylist ''Hendrik pens an expos of his care home, sets up the Old-But-Not-Dead club and relishes the arrival of a new female resident. This geriatric Adrian Mole made me laugh and think. Terrific'' Fanny Blake, Woman and Home

The new diary from one of literature's most beloved octogenarians. On The Bright Side picks up where The Secret Diary of Hendrik Groenleft off, at the care home of the anarchic Old-But-Not-Dead Club where Hendrik and his friends are determined to enjoy their autumn years full of optimism. Written with his characteristic charm and humour Hendrik proves, yet again, that age is simply a number.

The Hormone Factory Michael Joseph

Arrive in Beijing and spend a few days soaking up the Imperial sights -the Forbidden City, Temple of Heaven, Summer Palaces and the Great Wall. Spend your evenings enjoying Beijing duck, opera and maybe a trip to the acrobats. If you have time, take a train up to Chengde and spend a couple of days enjoying the imperial retreat before returning to the capital and flying on to Xi'an. Allow a full day at the Terracotta Warriors and another day to explore the fascinating walled city. Make sure you enjoy a Dumpling Banquet, as well as dinner in the Muslim markets. Reflect on your trip in the overnight train back to Beijing. Beijing, literally translated, means Northern Capital, a title it has held since the Ming Dynasty (see History) and a name that still holds true today. Whether imagining the past or marveling at the future, this city is most definitely still the cultural, political and, to the Pekinese, geographical, heart of the Middle Kingdom. While Beijing's modern appearance owes much to the Communist era and the recent influx of capitalist cash, its most impressive and inspiring monuments are recognition of its long imperial tradition. The scale of the city, with its population of 15 million, can initially be overwhelming, but even a short meander into one of Beijing's remaining hutong districts brings you close to the realities of daily life and all of a sudden the city seems human again. While the vast number of construction sites, flyovers and mirrored skyscrapers can come as a shock to those hoping for a view of the years when Beijing was the emperor's seat, a visit to any one of the principal imperial sights (the Forbidden City, the Temple of Heaven or the Summer Palaces) easily remedies this. However, the greatest of Beijing's, if not the world's, sights lies north of the city. The Great Wall never ceases to amaze and it's worth spending a couple of days out of the city to fully appreciate its majesty. If you have enough time and want more imperial splendor, the rugged countryside around the capital holds Ming and Qing tombs, while, farther afield, the Mountain Resort at Chengde was long a popular emperor's haunt and has some wild scenery along with its subdued palaces and grand temples. This a highly detailed guide to everything you need to know about Beijing and its surroundings - the places to stay, the restaurants, and what to see and do - along with an extensive introductory section on China as a whole. The author lives in China and has been a tour guide there full-time for close to 10 years. This guide is an excerpt from his much larger guide to all of China, also published by Hunter, which is 650 pages in the print edition.

Eastern China is the country's boom-belt and its heart is the Pearl of the Orient, Shanghai, a city which was recently wonderfully described to me as "Hong Kong on steroids." Shanghai is the country's most modern city, but manages to retain both its Chinese and European history and its economic development is also helping a renaissance in culture and the arts, along with a shopping and nightlife scene matched only by Beijing and Hong Kong. Around Shanghai, the Water Towns have picturesque canals lined with classic Ming architecture and can make for great day trips, and a little further out, the city of Suzhou offers more of the same, albeit on a larger scale, along with some of the country's finest gardens and the opportunity for some serious silk shopping. Nearly 100 miles south along the Grand Canal, the former Southern Song dynasty (1126-1279) capital of Hangzhou is set on pretty West Lake and is a prime tea-growing region. Away from the lake the city is much like any other Chinese city, but the surrounding countryside and its smattering of temples and tea villages make for some excellent bike rides. Some 110 miles west of Hangzhou, Huangshan is arguably the most beautiful of eastern China's mountains and offers the region's finest scenery and best hiking. The mountain's mist-shrouded, jagged peaks, lone pines and perched temples are straight from a watercolor and it's no wonder Huangshan attracts so many visitors. But fortunately there are enough paths to ensure you can always find yourself a quiet spot. Known as the Pearl of the Orient, Shanghai has endured a boom-bust cycle like no other city in China and is a must-see for a glimpse into the China of the future. It currently has some 20 million residents. A walk along the Bund on the banks of the Huangpu River offers a cityscape to rival Hong Kong's, taking in the glory of Shanghai's colonial past, while at the same time giving views across the river to the city of tomorrow, Pudong. Less than 20 years ago, this was just marshy farmland, but today it boasts countless skyscrapers, among them China's highest tower, the Pearl Oriental TV Tower, and loftiest lodgings, the

88-floor Grand Hyatt. Traditional Chinese sights are a little sparse due to Shanghai's comparative youth, but its colonial and revolutionary history over the past 150 years has left it with a series of significant political buildings. What is more, there are modern activities aplenty, reflecting the city's dynamic and modern heart -fine dining, nightlife, shopping and a kaleidoscope of exhibition centers and good museums await. This a highly detailed guide to everything you need to know about Shanghai and its surroundings - the places to stay, the restaurants, and what to see and do - along with an extensive introductory section on China as a whole. The author lives in China and has been a tour guide there full-time for close to 10 years. This guide is an excerpt from his much larger guide to all of China, also published by Hunter, which is 650 pages in the print edition.

The Lily Theater is a strikingly original debut novel-an international literary sensation-based on the author's experience growing up in China during the Cultural Revolution. Two Old Men and a Baby The Lily Theater

The Cultural Revolution was a watershed event in the history of the People's Republic of China, the defining decade of half a century of communist rule. Before 1966, China was a typical communist state, with a command economy and a powerful party able to keep the population under control. But during the Cultural Revolution, in a move unprecedented in any communist country, Mao unleashed the Red Guards against the party. Tens of thousands of officials were humiliated, tortured, and even killed. Order had to be restored by the military, whose methods were often equally brutal. In a masterly book, Roderick MacFarquhar and Michael Schoenhals explain why Mao launched the Cultural Revolution, and show his Machiavellian role in masterminding it (which Chinese publications conceal). In often horrifying detail, they document the Hobbesian state that ensued. The movement veered out of control and terror paralyzed the country. Power struggles raged among Lin Biao, Zhou Enlai, Deng Xiaoping, and Jiang Qing--Mao's wife and leader of the Gang of Four--while Mao often played one against the other. After Mao's death, in reaction to the killing and the chaos, Deng Xiaoping led China into a reform era in which capitalism flourishes and the party has lost its former authority. In its invaluable critical analysis of Chairman Mao and its brilliant portrait of a culture in turmoil, "Mao's Last Revolution" offers the most authoritative and compelling account to date of this seminal event in the history of China. A disturbing story that describes how the alliance between science and capitalism can lead to disaster when the people in charge lose track of their humanity Mordechai de Paauw was the Dutch cofounder and CEO of the first pharmaceutical company to invent the contraceptive pill and hormonal treatments. Hitler's invasion of Holland and the threat he poses to the survival of De Paauw's family and the Jewish scientists working for him doesn't affect De Paauw's urge to test his treatments on his female workers and exploit them sexually. Even after the war, which he survives unscathed, De Paauw will continue his mischief until a catastrophe that he himself couldn't have imagined allows him to come to his senses long enough to tell us his story. The Hormone Factory weaves questions of scientific integrity, sibling rivalry, and sex into a narrative that is as troubling as it is thought provoking.
