How the Girl Guides Won the War Hachette Books

This title provides comprehensive overviews on archaeological philological, linguistic, and historical issues at the forefront of Anatolian scholarship in the 21st century.

Lion El'Jonson: Lord of the First Penguin

Narrated from death row by Alcibiades' bodyguard and assassin, a man whose own love and loathing for his former commander mirrors the mixed emotions felt by all Athens, *Tides of War* tells an epic saga of an extraordinary century, a war that changed history, and a complex leader who seduced a nation. Brilliant at war, a master of politics, and a charismatic lover, Alcibiades was Athens' favorite son and the city's greatest general. A prodigal follower of Socrates, he embodied both the best and the worst of the Golden Age of Greece. A commander on both land and sea, he led his armies to victory after victory. But like the heroes in a great Greek tragedy, he was a victim of his own pride, arrogance, excess, and ambition. Accused of crimes against the state, he was banished from his beloved Athens, only to take up arms in the service of his former enemies. For nearly three decades, Greece burned with war and Alcibiades helped bring victories to both sides — and ended up trusted by neither. **BONUS:** This edition contains an excerpt from Steven Pressfield's *The Profession*. Praise for *Tides of War* "Pressfield's battlefield scenes rank with the most convincing ever written." —USA Today "Pressfield serves up not just hair-raising battle scenes... but many moments of valor and cowardice, lust and bawdy humor... Even more impressively, he delivers a nuanced portrait of ancient Athens." —Esquire "Unabashedly brilliant, epic, intelligent, and moving." —Kirkus Reviews "Pressfield's attention to historic detail is exquisite... This novel will remain with the reader long after the final chapter is finished." —Library Journal "Astounding, historically accurate tale... Pressfield is a master storyteller, especially adept in his graphic and embracing descriptions of the land and naval battles, political intrigues and colorful personalities, which come together in an intense and credible portrait of war-torn Greece." —Publishers Weekly

Hold Back the Stars Tyndale House Publishers, Inc.

Book 13 in The Horus Heresy Primarch Series Each primarch is an exemplary being, derived from the Emperor's own genetic stock to embody a facet of His personality. Their powers are unfathomable, but only one of them is the First. Lion El'Jonson is the paragon of what it is to be a primarch. His Legion, pre-eminent for most of their long history, typify the virtues of temperance, pride, and martial excellence that the Lion embodies. They are the Emperor's last line and final sanction. They are His Dark Angels. Now, while the Emperor gathers His mightiest sons for an assault on Ullanor Prime, the Lord of the First instead draws his Legion to the farthest reaches of the known galaxy, seeking to subdue a single rebellious world. Is this but another example of the Lion's infamous pride, or is there more afoot amidst that graveyard of empires that is the Ghoul Stars, more than the Lion will share even with his own sons?

Flyy Girl Oxford University Press

Eilam's Arc reveals the inside story on how Israel became a military technology powerhouse within a period of less than two generations. The book blends the broad view of an individual who led the creation of incredibly far-sighted research and development programs with intimate portraits of the main players in a complex strategy that spans continents, corporations, and armies. More than any other account, it explains how a very small country was able to make a concentrated use of its limited assets with astute leverage of international relationships, while at the same time creating the backbone of Israeli civilian technology industries. Brigadier General Uzi Eilam was born and raised in a deeply socialist kibbutz where science and learning were scorned as useless and effete. His is the journey that an entire country, made from devising a better spade to creating an internationally competitive space program. During this journey, Eilam learned step-by-step how to manage the complex relationship with the United States, which he says was willing to supply Israel with high technology only if it knew that Israel was well on its way to developing its own version of the same technology. *Eilam's Arc* will be of interest not only to military historians, but also to those who have an interest in innovation and innovation policy. Israeli innovation policies, both civilian and military, have a proven track record of success, and Uzi Eilam explains how governments can nurture, stimulate, and lead individuals, corporations, and foreign partners towards a desired goal.

Through the Lion Gate Black Library

From the time Dr. Mark Goldstein was a little boy—even before he had his first dog—he was fascinated by creatures both domestic and wild. After graduating veterinary school at Cornell University, he became a veterinarian in clinical practice, then director of zoos in Boston and Los Angeles, then head of a progressive humane society where he advocated for animal welfare. During his extraordinary 30-year career, Dr. Mark has accrued a lifetime of experiences working with all sorts of animals and the people who care for them. Dr. Mark's life with animals taught him more than how to be a great

doctor, it taught him how to live life. The stories in this book reflect those lessons; they will make you laugh and cry as they entertain and amaze you. Each real-life experience sheds light on the challenges and hard work of the talented individuals who work in the world of animal welfare. These are stories that illustrate the tremendous impact animals have on our daily lives—they are hallmarks of the sacred importance of the human-animal bond. On your journey through the exhilarating life of Dr. Mark, you'll meet some of the finned, furred, and feathered animals who offered him invaluable insights—Harold the hamster, Sasha the Siberian tiger, St. Francis the German Shepherd, Ralph the buffalo, Gus the stallion, Frank the goldfish, and many more fascinating creatures!

The Atonement Child Yale University Press

Two worlds, two stories, two books in one, to be flipped and read from whichever direction you like!

A Gate at the Stairs Crown

An American woman gives up her job at Paramount Pictures, Inc. Hollywood, California and follows her husband to the oil fields of Saudi Arabia, an underdeveloped country of the nineteen fifties. She lives in a fenced in compound, isolated from the veiled and shrouded local women. Her open face and twentieth century manners disturb the simplicity of village life, and the black robed figures run from her. She determines to find a place for herself in this closed society. Thus she challenges the tabus, Oil Company directives, religious zealots, armed soldiers and guards of the Royal Harem. Under a veil of secrecy, she becomes friends with the family of the Governor of the Eastern Province, first cousins of the King. One day a Princess tells her: "There is a Prince who wants to marry your daughter." Was this the crowning glory of success, or had she dug herself too deeply into a society she could not accept as her own.

Tides of War Penguin

This work is about the art of living mentally well. Told through the first-hand experience of mental health advocate, activist and speaker Kevin Hines (who has bipolar disorder), the story is an honest account of the struggle to live mentally well, and teach others how to do t...

An American Jew Bantam

"A completely original history of one of the most extraordinary movements in the world - the Girl Guides - and how they helped win the war. Mention Girl Guides to any woman and the reaction will be strong. They either loved them or hated them; they were either proud to wear their uniform or refused to join. Whatever their feelings, most former Guides retain strong memories of their experiences. All too often regarded merely in terms of biscuit sales and sing-songs, hardly anybody is aware of the massive impact that the Guides had on gender equality and, more fundamentally, the outcome of the Second World War. In this eye-opening history, Janie Hampton explores how the Guides' work was crucial to Britain's victory. When the Blitz broke out, the Guides knew what to do. They kept up morale in bomb shelters, demonstrating 'blitz cooking' with emergency ovens made from the bricks of bombed houses at the request of the Ministry of Food. They grew food on their company allotments and knitted for the entire country. The embodiment of the Home Front spirit, they dug shelters, provided crucial First Aid, and also assisted the millions of children who were forced to flee their city homes to safer places in the country. It is difficult to imagine what the war effort would have looked like without the Guides. Full of fond and funny anecdotes and rich social history, 'How the Guides Won the War' takes us on the journey of one of the twentieth century's most extraordinary movements." --

Lions and Tigers and Hamsters Oxford University Press

When he's accidentally duplicated while teleporting, Joel Byram must outrun the most powerful corporation on the planet and find a way back to his wife in a world that now has two of him. Dubbed the "next Ready, Player One," by former Warner Brothers President Greg Silverman, and now in film development at Lionsgate.

Animal Farm HarperCollins UK

The award-winning New York Times bestseller about the American women who secretly served as codebreakers during World War II--a "prodigiously researched and engrossing" (New York Times) book that "shines a light on a hidden chapter of American history" (Denver Post). Recruited by the U.S. Army and Navy from small towns and elite colleges, more than ten thousand women served as codebreakers during World War II. While their brothers and boyfriends took up arms, these women moved to Washington and learned the meticulous work of code-breaking. Their efforts shortened the war, saved countless lives, and gave them access to careers previously denied to them. A strict vow of secrecy nearly erased their efforts from history; now, through

dazzling research and interviews with surviving code girls, bestselling author Liza Mundy brings to life this riveting and vital story of American courage, service, and scientific accomplishment.

Into the Lion's Den Imprint

A selection of Sherlock Holmes stories, in simplified English for Russian speakers.

The Oxford Handbook of Ancient Anatolia Games Workshop

In 1943, fierce aerial bombardment razed the Berlin zoo and killed most of its animals. But only two months after the war's end, Berliners had already resurrected it, reopening its gates and creating a symbol of endurance in the heart of a shattered city. As this episode shows, the Berlin zoo offers one of the most unusual--yet utterly compelling--lenses through which to view German history. This enormously popular attraction closely mirrored each of the political systems under which it existed: the authoritarian monarchy of the kaiser, the Weimar Republic, Nazi Germany, and the post-1945 democratic and communist states. Gary Bruce provides the first English-language history of the Berlin zoo, from its founding in 1844 until the 1990 unification of the West Berlin and East Berlin zoos. At the center of the capital's social life, the Berlin zoo helped to shape German views not only of the animal world but also of the human world for more than 150 years. Given its enormous reach, the German government used the zoo to spread its political message, from the ethnographic display of Africans, Inuit, and other "exotic" peoples in the late nineteenth century to the Nazis' bizarre attempts to breed back long-extinct European cattle. By exploring the intersection of zoology, politics, and leisure, Bruce shows why the Berlin zoo was the most beloved institution in Germany for so long: it allowed people to dream of another place, far away from an often grim reality. It is not purely coincidence that the profound connection of Berliners to their zoo intensified through the bloody twentieth century. Its exotic, iconic animals--including Rostom the elephant, Knautschke the hippo, and Evi the sun bear--seemed to satisfy, even partially, a longing for a better, more tranquil world.

Code Girls Anchor

"Deeply personal and profoundly moving...An American Jew has filled me with the love and pride for my brothers and sisters, the Children of Israel."-- Randall Wallace, author of BRAVEHEART and director of HEAVEN IS FOR REAL Steven Pressfield grew up assuming he was like every other kid in his red-white-and-blue, Sunday-School attending, Christmas-tree decorating suburb. Then at age thirteen he found out he was in fact not a member of that tribe, but of a very different one. Five decades later, in November 2011, Pressfield boarded an El Al jet bound for Israel. At long last, he'd committed to researching and writing THE LION'S GATE, a book that would finally wrestle with the riddle of his own identity. What he learned as an artist and a man in the three years it took to complete the work is the subject of AN AMERICAN JEW, an on-the-front-lines account of the creative process...in all its wonderfully confounding forms.

[A Blade So Black](#) Health Communications Incorporated

#1 NATIONAL BESTSELLER • Two starcrossed magicians engage in a deadly game of cunning in the spellbinding novel that captured the world's imagination. • "Part love story, part fable ... defies both genres and expectations." --The Boston Globe The circus arrives without warning. No announcements precede it. It is simply there, when yesterday it was not. Within the black-and-white striped canvas tents is an utterly unique experience full of breathtaking amazements. It is called Le Cirque des Rêves, and it is only open at night. But behind the scenes, a fierce competition is underway: a duel between two young magicians, Celia and Marco, who have been trained since childhood expressly for this purpose by their mercurial instructors. Unbeknownst to them both, this is a game in which only one can be left standing. Despite the high stakes, Celia and Marco soon tumble headfirst into love, setting off a domino effect of dangerous consequences, and leaving the lives of everyone, from the performers to the patrons, hanging in the balance.

The Punch Escrow Simon and Schuster

In this autobiography, former Prime Minister of Israel Ariel Sharon tells his captivating story with frankness, power, intelligence, and a brilliant gift for detail. Prime Minister of Israel from March 2001 to April 2006, Ariel Sharon was a dynamic and controversial leader. A hero in Israel's wars, perhaps the most daring and successful commander in Israel's extraordinary military history, Sharon has always been a warrior, whether the enemies were hostile Arab nations, terrorists, Time magazine, or rival politicians. The public man is well known--aggressive in battle, hardline in politics--but the private man has always been obscured by Sharon's dazzling career and powerful personality. In this compelling and dramatic autobiography, the real Sharon appears for the first time: a complex man, a loving father, a figure of courage and compassion. A warrior who commands the respect and love of his troops, a visionary, and an uncompromising, ruthless pragmatist, Sharon is as outspoken as his friends--and enemies--would expect him to be.

Gates of Fire Bantam

Experts estimate that as many as 98,000 people die in any given year from medical errors that occur in

hospitals. That's more than die from motor vehicle accidents, breast cancer, or AIDS--three causes that receive far more public attention. Indeed, more people die annually from medication errors than from workplace injuries. Add the financial cost to the human tragedy, and medical error easily rises to the top ranks of urgent, widespread public problems. To Err Is Human breaks the silence that has surrounded medical errors and their consequences--but not by pointing fingers at caring health care professionals who make honest mistakes. After all, to err is human. Instead, this book sets forth a national agenda--with state and local implications--for reducing medical errors and improving patient safety through the design of a safer health system. This volume reveals the often startling statistics of medical error and the disparity between the incidence of error and public perception of it, given many patients' expectations that the medical profession always performs perfectly. A careful examination is made of how the surrounding forces of legislation, regulation, and market activity influence the quality of care provided by health care organizations and then looks at their handling of medical mistakes. Using a detailed case study, the book reviews the current understanding of why these mistakes happen. A key theme is that legitimate liability concerns discourage reporting of errors--which begs the question, "How can we learn from our mistakes?" Balancing regulatory versus market-based initiatives and public versus private efforts, the Institute of Medicine presents wide-ranging recommendations for improving patient safety, in the areas of leadership, improved data collection and analysis, and development of effective systems at the level of direct patient care. To Err Is Human asserts that the problem is not bad people in health care--it is that good people are working in bad systems that need to be made safer. Comprehensive and straightforward, this book offers a clear prescription for raising the level of patient safety in American health care. It also explains how patients themselves can influence the quality of care that they receive once they check into the hospital. This book will be vitally important to federal, state, and local health policy makers and regulators, health professional licensing officials, hospital administrators, medical educators and students, health caregivers, health journalists, patient advocates--as well as patients themselves. First in a series of publications from the Quality of Health Care in America, a project initiated by the Institute of Medicine

Killing Rommel Simon & Schuster

From the acclaimed master of historical fiction comes an epic saga about a reluctant hero, the Roman Empire, and the rise of a new faith. Jerusalem and the Sinai desert, first century AD. In the turbulent aftermath of the crucifixion of Jesus, officers of the Roman Empire acquire intelligence of a pilgrim bearing an incendiary letter from a religious fanatic to insurrectionists in Corinth. The content of this letter could bring down the empire. The Romans hire a former legionary, the solitary man-at-arms, Telamon of Arcadia, to intercept the letter and capture its courier. Telamon operates by a dark code all his own, with no room for noble causes or lofty beliefs. But once he overtakes the courier, something happens that neither he nor the empire could have predicted. In his first novel of the ancient world in thirteen years, the best-selling author of Gates of Fire and Tides of War returns with a gripping saga of conquest and rebellion, bloodshed and faith.

[The Outliers](#) Simon and Schuster

The unthinkable has happened Terra has fallen to the traitor forces of Warmaster Horus! Nothing else could explain the sudden disappearance of the Astronomican's guiding light at the heart of the Imperium, or so Robute Guilliman would believe. Ever the pragmatist, he has drawn all his forces to Ultramar and begun construction of the new empire known as Imperium Secundus. Even with many of his primarch brothers at his side, he still faces war from without and intrigue from within with the best of intentions, were the full truth to be known it would likely damn them all as traitors for all eternity.

Watch out, Nancy Drew--Devlin Quick is smart, strong, and she will DEFINITELY close the case in this thrilling new mystery series for girls and boys from New York Times bestselling author Linda Fairstein Someone has stolen a page from a rare book in the New York Public Library. At least, that's what Devlin's friend Liza thinks she's seen, but she can't be sure. Any other kid might not see a crime here, but Devlin Quick is courageous and confident, and she knows she has to bring this man to justice--even if it means breathlessly racing around the city to collect evidence. But who is this thief? And what could the page--an old map--possibly lead to? With her wits, persistence, and the help of New York City's finest (and, okay, a little bit of help from her police commissioner mother, too), Dev and her friends piece the clues together to uncover a mystery that's bigger than anyone expected--and more fun, too. With all of the heart-pounding excitement that made her internationally bestselling Alexandra Cooper series a hit, Linda Fairstein paves the way for another unstoppable heroine . . . even if she is only twelve.
