Downriver is an evocative, gorgeously written short story: the tale of one woman's past--and her inability to escape it--from Jess Montgomery, author of the Kinship series.

"Now that I'm dying, I must decide what to do about the necklace."

In 1939, many years ago, Rona Carter was a shy, lonely girl. Nothing like the pretty, popular Emily--the golden girl of Liberty, Ohio. Emily, whose body was

found in the river.

Now, the legend of Emily's death has lived on in Rona, in the town, and in the tiger's eye necklace that Emily's mother gave her. Forced to reckon with her own mortality, Rona must decide whether to share a secret long kept buried--or take it to her grave.

I have a home office that I've decorated with vintage fairy tale treasures that I've collected (my favorite is a Cinderella cookie jar from the forties) and NaNoWriMo posters, but sometimes writing there starts to feel too much like work. Hold on to your hats: The authors who brought you the New York Times bestseller *My Plain Jane*, which

Booklist praised as “delightfully deadpan” (starred review) and Publishers Weekly called “a clever, romantic farce” (starred review), are back with another irreverent historical adventure. Welcome to 1876 America, a place bursting with gunslingers, outlaws, and garou—better known as werewolves. And where there are garou, there’re hunters: the one and only Calamity Jane, to be precise, along with her fellow stars of Wild Bill’s Traveling Show, Annie Oakley and

---

Frank "the Pistol Prince" Butler. After a garou hunt goes south and Jane finds a suspicious-like bite on her arm, she turns tail for Deadwood, where there's talk of a garou cure. But rumors can be deceiving—meaning the gang better hightail it after her before they're a day late and a Jane short. In this perfect next read for fans of *A Gentleman's Guide to Vice and Virtue*, bestselling authors Cynthia Hand, Jodi Meadows, and Brodi Ashton bring their signature spark to the side-splittin', whopper-filled (but

actually kind of factual?) tale of Calamity Jane. **Archenemies** Macmillan Sixteen-year-old heiress and paparazzi darling Liddi Jantzen hates the spotlight. But as the only daughter in the most powerful tech family in the galaxy, it's hard to escape it. So when a group of men shows up at her house uninvited, she assumes it's just the usual media-grubs. That is, until shots are fired. Liddi escapes, only to be pulled into an interplanetary conspiracy more complex than she ever could have imagined. Her older brothers have been caught as well, trapped in the conduits between the planets. And when their captor implants a device in Liddi's

---

vocal cords to monitor her speech, their lives are in her hands: One word, and her brothers are dead. Desperate to save her family from a desolate future, Liddi travels to another world, where she meets the one person who might have the skills to help her bring her eight brothers home—a handsome dignitary named Tiav. But without her voice, Liddi must use every bit of her strength and wit to convince Tiav that her mission is true. With the tenuous balance of the planets deeply intertwined with her brothers' survival, just how much is Liddi willing to sacrifice to bring them back? Haunting and mesmerizing, this retelling of Hans Christian Andersen's

The Wild Swans fuses all the heart of the classic tale with a stunning, imaginative world in which a star-crossed family fights for its very survival.
