Knight's Shoe Dog comes the incredible untold story of how Netflix went from concept to company-all revealed by co-founder and first CEO Marc Randolph. Once upon a time, brick-and-mortar video stores were king.

Late fees were ubiquitous, video-streaming unheard of, and widespread DVD adoption seemed about as imminent as flying cars. Indeed, these were the widely accepted laws of the land in 1997, when Marc Randolph had an idea. It was a simple thought—leveraging the internet to rent movies—and was just one of many more and far worse proposals, like personalized baseball bats and a shampoo delivery service, that Randolph would pitch to his business partner, Reed Hastings, on their commute to work each morning. But Hastings was intrigued, and the pair—with Hastings as

the primary investor and Randolph as the CEO—founded a company. Now with over 150 million subscribers, Netflix's triumph feels inevitable, but the twenty first century's most disruptive start up began with few believers and calamity at every turn. From having to pitch his own mother on being an early investor, to the motel conference room that served as a first office, to server crashes on launch day, to the now-infamous meeting when Netflix brass pitched Blockbuster to acquire them, Marc Randolph's transformational journey exemplifies how anyone with grit,

gut instincts, and determination can change the world—even with an idea that many think will never work. What emerges, though, isn't just the inside story of one of the world's most iconic companies. Full of counter-intuitive concepts and written in binge-worthy prose, it answers some of our most fundamental questions about taking that leap of faith in business or in life: How do you begin? How do you weather disappointment and failure? How do you deal with success? What even is success? From idea generation to team building to knowing when it's time to let go, That Will

Never Work is not only the ultimate follow-your-dreams parable, but also one of the most dramatic and insightful entrepreneurial stories of our time.

DAVID QUANTICK davidquantick.com This is a literary quiz book with a difference. Rather than basic sets of questions, The Book Lover's Quiz Book mirrors the format of Gary's live quizzes, at the Betsey Trotwood in London and elsewhere. So, there are lots of multiple-choice questions, some amusing answers, clever red herrings, little-known facts about authors and some of the much-loved Say What You See picture round. Also, there are fixed and variable rounds - fixed ones

include 'Blankety Books' (one word missing from the title - always with a theme), 'Literary Links and lists' (what connects/next in the list etc.) and '2 of a Kind' (name the character and the author that share the same initials). The changeable rounds keep the quizzes fresh and include 'What the Dickens?' (real or made-up Dickens names), 'Romeo or Juliet' (real or made-up Shakespearean insults) and 'Book Bingo!' (identify the correct number). There are also more standard rounds such as 'First Lines', 'Working Titles' and 'Banned Books'. The aim of all Gary's quizzes, and this book, is that people should have fun and be able to guess (if they don't know) as much as possible.

For years, rumors of the “ Marsh Girl ” have haunted Barkley Cove, a quiet town on the North Carolina coast. So in late 1969, when handsome Chase Andrews is found dead, the locals immediately suspect Kya Clark, the so-called Marsh Girl. But Kya is not what they say. Sensitive and intelligent, she has survived for years alone in the marsh that she calls home, finding friends in the gulls and lessons in the sand. Then the time comes when she yearns to be touched and loved. When two young men from town become intrigued by her wild beauty, Kya opens herself to a new life—until the unthinkable happens. *Where the Crawdads Sing* is at once an exquisite ode to the natural world, a heartbreaking coming-of-age story, and a surprising tale of possible murder. *Owens* reminds us that we are forever shaped by the children we once

After September 11, 2001 Las Vegas Police Sergeant Randy Sutton began soliciting writing from law enforcement officers-his

goal being to bridge the gap between the police and those they serve, with a book that offers a broad and thoughtful look at the many facets of police life. Hundreds of active and former officers responded from all over the United States: men and women from big cities and small towns, some who had written professionally, but most for the first time. Sutton culled the selections into five categories: The Beat, Line of Duty, War Stories, Officer Down, and Ground Zero. The result is True Blue, a collection of funny, charming, exciting, haunting stories about murder investigations, missing children, bungling burglars, car chases, lonely and desperate shut-ins, routine traffic stops, officers killed in the line of duty, and the life-changing events of September 11. Here, officers reveal their emotions—fear and pride, joy and disgust, shame and love—as they recount the defining moments of their careers. In these stories, the heart and soul behind the badge shines through in unexpected ways. True Blue will change the way we think about the deeply human realm of police

service.

Jean Piaget, although internationally acclaimed for his revolutionary ideas about human intellectual development and how children learn, has been misunderstood by many of those attempting to interpret his theories and apply them. Fortunately, this dialogue between Dr. Evans and Piaget provides the student and general reader with a clear and accurate explanation of his theories and how he arrived at them. As David Elkind writes in the Introduction, Piaget's findings "are effecting a veritable Copernican revolution in our understanding of the growth and functioning of the human mind."
