COMRADE DON CAMILLO Ember Wilson's ambition alone is exciting. . . . [His] writing has a Houdini-like perfection, wherein no matter how grim the variables, each lovely sentence manages to escape with all its parts intact." —Boston Globe
The eagerly-anticipated follow-up to the New York Times bestseller *The Family Fang*—a warm-hearted and moving story about a young woman making a family on her own terms. When Isabelle Poole meets Dr. Preston Grind, she's fresh out of high school, pregnant with her art teacher's baby, and totally on her own. Izzy knows she can be a good mother but without any money or relatives to help, she's left searching.

Dr. Grind, an awkwardly charming child psychologist, has spent his life studying family, even after tragedy struck his own. Now, with the help of an eccentric billionaire, he has the chance to create a "perfect little world"—to study what would happen when ten children are raised collectively, without knowing who their biological parents are. He calls it The Infinite Family Project and he wants Izzy and her son to join. This attempt at a utopian ideal starts off promising, but soon the gentle equilibrium among the families disintegrates: unspoken resentments between the couples begin to fester; the project's funding becomes tenuous; and Izzy's growing feelings for Dr. Grind make her question her participation in this strange experiment in the first place. Written with the same compassion and charm that won over legions of readers with *The Family Fang*, Kevin Wilson shows us with grace and humor that the best families are the ones we make for

ourselves .

Reading Giovanni Guareschi's stories about the little world between the Great River and the Mountains, is to travel to the Emilia-Romagna in northern Italy, and to do so in the incomparable company of a cast of characters which testifies to the exquisite humour and humanity of their creator. Place and people are as one: 'The river country of the little world created them;' the author wrote. 'I crossed their path, linked their arms with mine and made them run through the alphabet, from one end to another.' The year is 1953. All is peaceful in the village we know so well. The people are cheerful and friendly, and exercise their famous sense of humour. But the national elections hang like a shadow over proceedings. The Soviet Union is the West's No. 1 enemy and the Vatican has issued its famous 'Decree against Communism', which makes voting communist a mortal sin. No.6 in the Don Camillo series provides the sharpest real-life context yet for the often hilarious feud between the battling village priest and the communist Mayor, Peppone. Although, as ever, the author's message as to what truly lies at the heart of being human is for all times and peoples. 'These haunting stories about this haunting place... Somehow Guareschi made people laugh at their own predicament at a time when humour was sorely needed.' BBC Radio 4

Amusing collection of facts, trivia, quotes and more about Ireland and Irish culture, yesterday and today.

It's a Bitter Little World ChiZine Publications
"[L]ike reading a great tragicomic Irish novel."
—James Wood, *The New Yorker* "Masterful . . . astonishing."
—Cullen Murphy, *The Atlantic* "A landmark history . . . Leavened by the brilliance of O'Toole's insights and wit."
—Claire Messud, *Harper's Winner • 2021 An Post Irish Book Award* — *Nonfiction Book of the Year •* from the judges: "The most remarkable Irish nonfiction book I've read in the last 10 years"; "[A] book for the ages." A celebrated Irish writer's magisterial, brilliantly insightful chronicle of the wrenching transformations that dragged his homeland into the modern world. Fintan O'Toole was born in the year the revolution began. It was 1958, and the Irish government—in despair, because all the young

people were leaving—opened the country to foreign investment and popular culture. So began a decades-long, ongoing experiment with Irish national identity. In *We Don't Know Ourselves*, O'Toole, one of the Anglophone world's most consummate stylists, weaves his own experiences into Irish social, cultural, and economic change, showing how Ireland, in just one lifetime, has gone from a reactionary "backwater" to an almost totally open society—perhaps the most astonishing national transformation in modern history. Born to a working-class family in the Dublin suburbs, O'Toole served as an altar boy and attended a Christian Brothers school, much as his forebears did. He was enthralled by American Westerns suddenly appearing on Irish television, which were not that far from his own experience, given that Ireland's main export was beef and it was still not unknown for herds of cattle to clatter down Dublin's streets. Yet the Westerns were a sign of what was to come. O'Toole narrates the once unthinkable collapse of the all-powerful Catholic Church, brought down by scandal and by the activism of ordinary Irish, women in particular. He relates the horrific violence of the Troubles in Northern Ireland, which led most Irish to reject violent nationalism. In O'Toole's telling, America became a lodestar, from John F. Kennedy's 1963 visit, when the soon-to-be martyred American president was welcomed as a native son, to the emergence of the Irish technology sector in the late 1990s, driven by American corporations, which set Ireland on the path toward particular disaster during the 2008 financial crisis. A remarkably compassionate yet exacting observer, O'Toole in coruscating prose captures the peculiar Irish habit of "deliberate unknowing," which allowed myths of national greatness to persist even as the foundations were crumbling. Forty years in the making, *We Don't Know Ourselves* is a landmark work, a memoir and a national history that ultimately reveals how the two modes are entwined for all of us.

In 2011 the World Bank—with funding from the Bill and Melinda Gates Foundation—launched the Global Findex database, the world's most comprehensive data set on how adults save, borrow, make payments, and manage risk. Drawing on survey data collected in collaboration with Gallup, Inc., the Global Findex database covers more than 140 economies around the world. The initial survey round was followed by a second one in 2014 and by a third in 2017. Compiled using nationally representative surveys of more than 150,000 adults age 15 and above in over 140 economies, *The Global Findex Database 2017: Measuring Financial Inclusion and the Fintech Revolution* includes updated indicators on access to and use of formal and informal financial services. It has additional data on the use of financial technology (or fintech), including the use of mobile phones and the Internet to conduct financial transactions. The data reveal opportunities to expand access to financial services among people who do not have an account—the unbanked—as well as to promote greater use of digital financial services among those who do have an account. The Global Findex database has become a mainstay of global efforts to promote financial inclusion. In addition to being widely cited by scholars and development practitioners, Global Findex data are used to track progress toward the World Bank goal of Universal Financial

Access by 2020 and the United Nations Sustainable Development Goals. The database, the full text of the report, and the underlying country-level data for all figures—along with the questionnaire, the survey methodology, and other relevant materials—are available at www.worldbank.org/globalindex.

A NEW YORK TIMES NOTABLE BOOK

- The dramatic story of the Flint water crisis, by a relentless physician who stood up to power. " Stirring . . . [a] blueprint for all those who believe . . . that ' the world . . . should be full of people raising their voices. ' " —The New York Times " Revealing, with the gripping intrigue of a Grisham thriller. " —O: The Oprah Magazine Here is the inspiring story of how Dr. Mona Hanna-Attisha, alongside a team of researchers, parents, friends, and community leaders, discovered that the children of Flint, Michigan, were being

exposed to lead in their tap water—and then battled her own government and a brutal backlash to expose that truth to the world. Paced like a scientific thriller, *What the Eyes Don't See* reveals how misguided austerity policies, broken democracy, and callous bureaucratic indifference placed an entire city at risk. And at the center of the story is Dr. Mona herself—an immigrant, doctor, scientist, and mother whose family's activist roots inspired her pursuit of justice. *What the Eyes Don't See* is a riveting account of a shameful disaster that became a tale of hope, the story of a city on the ropes that came together to fight for justice, self-determination, and the right to build a better world for their—and all of our—children. Praise for *What the Eyes Don't See* “ It is one thing to point out a problem. It is another thing altogether to step up and work to fix it. Mona Hanna-Attisha is a true American hero. ” —Erin Brockovich “ A clarion call to live a life of purpose. ” —The Washington Post “ Gripping . . . entertaining . . . Her book has power precisely because she takes the events she recounts so personally. . . . Moral outrage present on every page. ” —The New York Times Book Review “ Personal and emotional. . . She vividly describes the effects of lead poisoning on her young patients. . . . She is at her best when recounting the detective work she undertook after a tip-off about lead levels from a friend. . . . Flint will not be defined by this crisis, ’ vows Ms. Hanna-Attisha. ” —The Economist “ Flint is a public health disaster. But it was Dr. Mona, this caring, tough pediatrician turned detective, who cracked the case. ” —Rachel Maddow

Nothing to See Here Dell

From the Booker Prize-winning author of *The Remains of the Day* and *When We Were Orphans*, comes an unforgettable edge-of-your-seat mystery that is at once heartbreakingly tender and morally courageous about what it means to be human. Hailsham seems like a pleasant English boarding school, far from the influences of the city. Its students are well tended and supported, trained in art and literature, and become just the sort of people the world wants them to be. But, curiously, they are taught nothing of the outside world and are allowed little contact with it. Within the grounds of Hailsham, Kathy grows from schoolgirl to young woman, but it's only when she and her friends Ruth and Tommy leave the safe grounds of the school (as they always knew they would) that they realize the full truth of what Hailsham is. *Never Let Me Go* breaks through the boundaries of the literary novel. It is a gripping mystery, a beautiful love story, and also a scathing critique of human arrogance and a moral examination of how we treat the vulnerable and different in our society. In exploring the themes of memory and the impact of the past, Ishiguro takes on the idea of a possible future to create his

most moving and powerful book to date.
