For fans of Dan Brown and Clive Cussler, THE LOCH NESS LEGACY is a "fantastic read" (Graham Brown) that "delivers an adrenaline fueled thrill ride" (Allison Brennan).BOOK DESCRIPTION:1827 -- During a trek to Loch Ness, Scotland, a young Charles Darwin encounters a mysterious and terrifying creature that provides a spark for his evolutionary theory.2013 -- Almost two hundred years later and across the Channel in Paris, the Eiffel Tower is under attack. Only through detective work, intuition, and a judicious application of high-tech weaponry does former Army combat engineer Tyler Locke prevent a massacre.What Tyler doesn't know is that the assault is just the beginning of a conspiracy so dark that it not only threatens the lives of those he loves, but could also ignite World War III. Racing against time to uncover Darwin's centuries-old secret, he must solve a series of cryptic clues to find a manuscript that has been so cleverly hidden it hasn't been seen since the Victorian age.Tyler's quest takes him from the bustling tourist hotspots of Seattle to the splendor of Versailles to the remote Highlands of Scotland in a battle to reveal the shocking truth behind the legend of the Loch Ness monster. *** Tyler Locke's first three adventures are also available!Book 1: THE ARK ("Mach-speed mayhem" -- Steve Berry)Book 2: THE VAULT ("An electrifying blend of history, myth, and science" -- Publishers Weekly starred review)Book 3: THE ROSWELL CONSPIRACY ("Sky-high stakes and relentless pacing from beginning to end." -- Patrick Lee)And check out Boyd's standalone thrillers:ROGUE WAVE ("Top-notch suspense" -- Douglas Preston)THE CATALYST ("Frighteningly smart" -- Jason Frost, RubiconReader)REVIEWS: "Boyd Morrison's Loch Ness Legacy is a fantastic read: part mystery, part thriller, part scientific exploration. Like his character, Tyler Locke, Morrison is at home with high-technology, the latest gadgets and the weaving of great escapes from the most dangerous of perils. Both are up to the challenge here, as the world faces a new danger from its warlike past, one that leads eventually to Scotland, the lake known to so many and the legendary creature that may haunt its dark and foreboding waters." -Graham Brown, #1 NY Times bestselling author of THE EDEN PROPHECY and DEVIL'S GATE"A quartet of heroes worth cheering for, an enemy as sinister as they come, secrets from the past, more action that you can shake a broadsword at and the Loch. Ness. Monster! What more could you ask for in a thriller? Loch Ness Legacy is a perfect storm of history, science and action that is sure to please anyone with a pulse, and maybe a few without them." -Jeremy Robinson, bestselling author of RAGNAROK and ISLAND 731"The Loch Ness Legacy starts with a bang and delivers an adrenaline

fueled thrill ride to the very end. Tyler Locke is my new favorite hero! If you like Dan Brown and James Rollins, you'll love Boyd Morrison." -Allison Brennan, NY Times bestselling author of STOLEN"Boyd Morrison delivers yet another fast paced, action-packed adventure that will leave you breathless." -Douglas Richards, NY Times bestselling author of AMPED -----To find out more about Boyd and his books and to connect with Boyd:Visit his website at [www.BoydMorrison.com](#)Join Boyd on Facebook at [www.facebook.com/BoydMorrison](#)WriterJoin Boyd on Twitter at [www.twitter.com/BoydMorrison](#)

Stable Isotope Ecology Orbit Books

This book was previously published as The Palmyra Impact. A minor seismic disturbance in a remote section of the Pacific causes barely a ripple of concern for Kai Tanaka, acting director of the Pacific Tsunami Warning Center in Honolulu. But when an airliner en route from L.A. to Sydney vanishes in the same location, Kai is the first to realize that a mysterious explosion has unleashed a series of massive waves destined to obliterate Hawaii. In just one hour, Kai will lose all he has ever known—including his wife and daughter— unless he can save them from nature ’ s most destructive force.

Robert Ludlum's (TM) The Bourne Dominion Random House

« Un tiers de mystère, un tiers de thriller, un tiers d'exploration scientifique : un cocktail détonant ! » Graham Brown Lorsqu'un sommet politique au premier étage de la tour Eiffel fait l'objet d'une attaque terroriste, l'ingénieur militaire Tyler Locke parvient de peu à éviter le désastre. Mais la faction extrémiste en cause ne compte pas s'arrêter là : elle aurait mis au jour une arme biologique redoutable, capable d'accélérer le vieillissement des cellules humaines. De Paris à Seattle, en passant par les Highlands écossaises, Tyler tente désespérément d'enrayer une conspiration à l'échelle mondiale...

L'H é ritage du loch Ness Blackstone Publishing

The Ocean Dark is a riveting novel of suspense from Christopher Golden, author of Tin Men, written under the pseudonym Jack Rogan. In the uncharted waters of the Caribbean, far from the usual shipping lanes, lies a mysterious island surrounded by a graveyard of sunken ships—an island so remote that it ’ s the perfect rendezvous point for a handful of Central American arms dealers and the Antoinette, a gun-smuggling cargo ship out of Miami. Amid the wreckage of ships new and old, the crew of the Antoinette—and the undercover FBI agent on board—enter what looks like a haven for modern pirates, only to discover that it hides something far more terrifying. In Washington, two Department of Defense scientists might understand what is about to happen. On an FBI ship monitoring the Antoinette ’ s illegal trade, armed agents might be able to intervene. But this assumes that the Antoinette ’ s crew survives their first encounter with a creature virtually unknown to man, yet whose eerie songs nevertheless echo down the corridors of mankind ’ s darkest legends. From the Paperback edition.

St Paul ’ s Labyrinth University of Ottawa Press

1947 Ten-year-old Fay Allen of Roswell, New Mexico, witnesses the fiery crash of an extraordinary craft unlike anything she's ever seen... 2012 More than sixty years later, army engineer Tyler Locke rescues Fay from a pair of assassins. She says they were after a piece of wreckage she obtained from the Roswell crash - and she claims to know secrets about that incident that have never previously been revealed. Tyler is initially sceptical, but after he is kidnapped by a mysterious band of mercenaries, he comes to believe that Roswell holds the key to his and his countrymen's survival. And he realises that there is a desperate race against time for him to uncover its secrets... Fast-paced and thrilling, The Roswell Conspiracy draws on actual details from the Roswell Incident to create a page-turning and thought-provoking thriller.

In the high mountains of Tibet, rumors are spreading. People whisper of an outbreak, of thousands of dead, of bodies pushed into mass graves. It is some strange new disease ... a disease, they say, that can kill in minutes. The Chinese government says the rumors aren't true, but no one is allowed in or out of Tibet. At the Pentagon, Admiral James Curtiss is called to an emergency meeting. Satellite images prove that a massive genocide is underway, and an American spy has made a startling discovery. This is no disease. It's a weapons test. Chinese scientists have developed a way to kill based on a person's genetic traits. But that is only the tip of the iceberg. The success of their new weapon proves that the Chinese are nearing "Replication"-a revolutionary breakthrough that will tip the global balance of power and change the way wars are waged. Now the US must scramble to catch up before it is too late. Admiral Curtiss gathers the nation's top scientists, including a promising young graduate student named Eric Hill who just might hold the missing piece to the replication puzzle. Soon Hill and his colleague Jane Hunter are caught up in a deadly game of sabotage as the two nations strive to be the first to reach the coveted goal. But in their headlong race, they create something unexpected ... something the world has never seen and something more powerful than they had ever imagined. The Last Sword Maker is an exciting globe-trotting thriller with unforgettable characters that depicts a haunting vision of the future of warfare. "A gripping, frighteningly plausible techno-thriller...Nelson's intriguing scientific predictions and distinctive near-future setting make this sure to please speculative fiction readers as well as thriller fans."-Publishers Weekly "An all-too-plausible examination of how emerging technologies could be weaponized to horrible ends. I don't recommend reading this one right before bedtime-unless you are prepared to stay up very, very late to finish it."-Lisa Brackmann, New York Times bestselling author "A head-spinning sci-fi-infused military thriller, with China and the United States putting everything they have into developing the perfect weapon, no matter the cost. "-Francisco Toro, columnist, Washington Post "The danger is unique, and the treachery vast, in this rapid-paced adventure that delivers in equal doses of amazing, yet possible. An intriguing tale that will leave you thinking. "-Steve Berry, New York Times bestselling author "A compelling thriller...Nelson's riveting narrative captures the drama of great power competition...This is a terrific debut."-Patrick Duddy, Duke University, former US Ambassador to Venezuela "An amazing read. The Last Sword Maker has everything"-Moises Naim, New York Times bestselling author "A terrifying vision of future warfare in the vein of Tom Clancy's and Michael Crichton's novels...A powerhouse near-future thriller with explosive action and exciting science."-Foreword Reviews

A Foreign Affair Carol Publishing Corporation

This volume explores the theoretical foundations of postcolonial translation in settings as diverse as Malaysia, Ireland, India and South America. Changing the Terms examines stimulating links that are currently being forged between linguistics, literature and cultural theory. In doing so, the authors probe complex sequences of intercultural contact, fusion and breach. The impact that history and politics have had on the role of translation in the evolution of literary and cultural relations is investigated in fascinating detail. Published in English.

The Ocean Dark HarperCollins UK

With six Academy Awards, four entries on the American Film Institute's list of 100 greatest American movies, and more titles on the National Historic Register of classic films deemed worthy of preservation than any other director, Billy Wilder counts as one of the most accomplished filmmakers ever to work in Hollywood. Yet how American is Billy Wilder, the Jewish é migr é from Central Europe? This book underscores this complex issue, unpacking underlying contradictions where previous commentators routinely smoothed them out. Wilder emerges as an artist with roots in sensationalist journalism and the world of entertainment as well as with an awareness of literary culture and the avant-garde, features that lead to productive and often highly original confrontations between high and low.

[The Lawless Land](#) Simon and Schuster

One man. One hour. One million people to save... Over the remote central Pacific, an airliner is rocked by a massive explosion and plummets into the ocean, leaving no survivors. Twelve hundred miles away in Hawaii, Kai Tanaka, the acting director of the Pacific Tsunami Warning Centre in Honolulu, notes a minor seismic disturbance but doesn't make the connection with the lost airplane. He has no reason to worry about his wife,

manager of a luxury hotel, or his daughter, who is enjoying the sunshine at Waikiki beach. But when all contact with neighbouring Christmas Island is lost, Kai is the first to realize that Hawaii faces an epic catastrophe: in one hour, a series of massive waves will wipe out Honolulu. He has just sixty minutes to save the lives of a million people, including his wife and daughter... Addictive and fast-paced, The Tsunami Countdown pitches an ordinary man against the odds in an electrifying and action-packed thriller. You won't be able to put it down.

Deep Shadow Simon and Schuster

THE SUNDAY TIMES BESTSELLER What are you afraid of? In his first-ever Doctor Who novel, Tom Baker ' s incredible imagination is given free rein. A story so epic it was originally intended for the big screen, Scratchman is a gripping, white-knuckle thriller almost forty years in the making. The Doctor, Harry and Sarah Jane Smith arrive at a remote Scottish island, when their holiday is cut short by the appearance of strange creatures — hideous scarecrows, who are preying on the local population. The islanders are living in fear, and the Doctor vows to save them all. But it doesn ' t go to plan — the time travellers have fallen into a trap, and Scratchman is coming for them. With the fate of the universe hanging in the balance, the Doctor must battle an ancient force from another dimension, one who claims to be the Devil. Scratchman wants to know what the Doctor is most afraid of. And the Doctor ' s worst nightmares are coming out to play...

The Loch Ness Legacy Gallery Books

Dilara Kenner, an ambitious young archaeologist, must run for her life when an old friend is murdered right in front of her. Before he dies in her arms, he gasps a few cryptic words about a vast conspiracy to hide an amazing historical artefact and tells Dilara that the only person who can help her is a former Army combat engineer named Tyler Locke. Dilara finds Locke on a North Atlantic oil platform but the helicopter she arrives in suffers a mechanical failure and goes down next to the rig. The quick-thinking Locke manages to rescue everyone on board, including Dilara. She tells him that the helicopter crash was no accident. Someone wants to stop her from finding Noah's Ark. Locke and Dilara head to Arizona, and their investigation reveals a chilling discovery. A group of religious fanatics has recovered a weapon from the Ark that will let them recreate the effects of the biblical flood and mold the remnants of humanity according to their leader's twisted vision. Now Locke and Dilara have just seven days to find the Ark and the secret hidden inside before it is used to wipe out civilization again...

Intelligence and Design Penguin

In the mid-nineteenth century, American and British governments marched with great fanfare into the marketplace of knowledge and publishing. British royal commissions of inquiry, inspectorates, and parliamentary committees conducted famous social inquiries into child labor, poverty, housing, and factories. The American federal government studied Indian tribes, explored the West, and investigated the condition of the South during and after the Civil War. Performing, printing, and then circulating these studies, government established an economy of exchange with its diverse constituencies. In this medium, which Frankel terms "print statism," not only tangible objects such as reports and books but knowledge itself changed hands. As participants, citizens assumed the standing of informants and readers. Even as policy investigations and official reportage became a distinctive feature of the modern governing process, buttressing the claim of the state to represent its populace, government discovered an unintended consequence: it could exercise only limited control over the process of inquiry, the behavior of its emissaries as investigators or authors, and the fate of official reports once issued and widely circulated. This study contributes to current debates over knowledge, print culture, and the growth of the state as well as the nature and history of the "public sphere." It interweaves innovative, theoretical discussions into meticulous, historical analysis.

Critical Thinking JHU Press

SPECTATOR BOOKS OF THE YEAR 2015 Britain's empire has gone. Our manufacturing base is a shadow of its former self; the Royal Navy has been reduced to a skeleton. In military, diplomatic and economic terms, we no longer matter as we once did. And yet there is still one area in which we can legitimately claim superpower status: our popular culture. It is extraordinary to think that one British writer, J. K. Rowling, has sold more than 400 million books; that Doctor Who is watched in almost every developed country in the world; that James Bond has been the central character in the longest-running film series in history; that The Lord of the Rings is the second best-selling novel ever written (behind only A Tale of Two Cities); that the Beatles are still the best-selling musical group of all time; and that only Shakespeare and the Bible have sold more books than Agatha Christie. To put it simply, no country on earth, relative to its size, has contributed more to the modern imagination. This is a book about the success and the meaning of Britain's modern popular culture, from Bond and the Beatles to heavy metal and Coronation Street, from the Angry Young Men to Harry Potter, from Damien Hirst to The X Factor.

The Last Sword Maker Orbit Books

This book is developed from and includes the presentations of leading international experts and scholars in the 12-14 July, 2006 Wingspread Workshop. With urban waters as a focal point, this book will explore the links between urban water quality and hydrology, and the broader concepts of green cities and smart growth. It also addresses legal and social barriers to urban ecological sustainability and proposes practical ways to overcome those barriers. Cities of the Future features chapters containing visionary concepts on how to ensure that cities and their water resources become ecologically sustainable and are able to provide clean water for all beneficial uses. The book links North American and Worldwide experience and approaches. The book is primarily a professional reference aimed at a wide interdisciplinary audience, including universities, consultants, environmental advocacy groups and legal environmental professionals.

Shadow Tyrants Hachette UK

THE EXPERIMENT WAS A FAILURE. THE RESEARCH SOUNDLY DISMISSED. BUT SOMEONE IS HUNTING DOWN THE SECRET KNOWLEDGE A YOUNG CHEMIST HAS UNEARTHED . . . IN AN EXHILARATING THRILLER FROM THE AUTHOR OF THE ARK. Chemistry grad student Kevin Hamilton is sure his advisor Michael Ward ' s death in a suspicious fire was no accident. The young Ph.D. candidate received a cryptic message from Ward just before the fatal blaze—a warning that their recent collaboration on a supposedly failed experiment had actually brought about one of the most important discoveries of the century: Adamas, a chemical process worth billions, and one with the potential to topple entire industries. Now on the run with his girlfriend, Erica, the two must elude relentless assassins long enough to protect the top-secret information, thwart a global conspiracy, and save their own lives before time runs out.

Rogue Wave Cambridge University Press

The Oregon crew must work without their usual resources when a rogue hacker empties their bank account in this action-packed installment from the #1 New York Times — bestselling grand master of adventure. When a bank heist during the Monaco Grand Priz decimates the Corporation ' s “ offshore ” account, Juan Cabrillo and the crew of the Oregon find themselves unexpectedly vulnerable. Without his usual financial assets, Juan must trust a woman from his past, an old friend from his days with the CIA, to help him keep his team safe. Together, they ' ll face a mysterious hacker with a brutal vendetta. It is only after the hunt begins that the enormity of the plan comes into focus: the bank theft is just the first step in a plot that will result in the deaths of millions and bring the world ' s economies to a standstill. The catalyst for the scheme? A stunning document stolen during Napoleon ' s disastrous invasion of Russia. But two hundred years later, it may be the thing that brings Europe to its knees.

Of Fury and Fangs Penguin UK

The legendary Nostradamus predicted numerous world-changing events. But his most important prophecies remained hidden. After discovering a message written in a series of codes and ancient languages a young woman is prompted to seek out former Special Forces Operatives Jonathan Payne and David Jones for help. Unfortunately, their meeting is interrupted by an assassin whose only mission is to kill all who know of the secret message. Pursued across two continents, Payne and Jones must locate this sacred text from the past that could change the future.

Doctor Who: Scratchman Ballantine Books

What does research tell us about the effects of school leadership on student achievement? What specific leadership practices make a real difference in school effectiveness? How should school leaders use these practices in their day-to-day management of schools and during the stressful times that accompany major change initiatives? Robert J. Marzano, Timothy Waters, and Brian A. McNulty provide answers to these and other questions in School Leadership That Works. Based on their analysis of 69 studies conducted since 1970 that met their selection criteria and a recent survey of more than 650 building principals, the authors have developed a list of 21 leadership responsibilities that have a significant effect on student achievement. Readers will learn the specific behaviors associated with the 21 leadership responsibilities; the difference between first-order change and second-order change and the leadership responsibilities that are most important for each; how to work smart by choosing the right work to focus on to improve student achievement; the advantages and disadvantages of comprehensive school reform models for improving student achievement; how to develop a site-specific approach to improving student achievement, using a framework of 11 factors and 39 action steps; and a five-step plan for effective school leadership. Combining rigorous research with practical advice, School Leadership That Works gives school administrators the guidance they need to provide strong leadership for better schools.
