The final volume in one of the most acclaimed works of military history of this generation. Here is Peter Caddick-Adams' third volume in his trilogy about the final year of the Western front in World War Two. *Fire & Steel* covers the war's final 100 days—beginning in late January 1945 and continuing until May 8th, 1945, when the German high

---

command surrendered unconditionally to all Allied forces. Caddick-Adams' previous two volumes in the acclaimed series-Sand & Steel, which covers the invasion of Normandy in June 1944, and Snow & Steel, the definitive study of the Battle of the Bulge, the German's final offensive in the war-have set the stage for this concluding volume. In these final months of World War Two, all of Germany is ablaze, from daily bombing runs launched from just across its borders and incessant artillery fire from the east. In the west, the Allied progress was inexorable, with Eisenhower's seven armies taking on Germany's seven armies, town by town, bridge by bridge. With his customary narrative verve and utter mastery of the material, Caddick-Adams does these climactic final months full justice, from the capture of the Ludendorff Railway Bridge at Remagen, to the liberation of the Bergen-Belsen concentration camp, to the taking of Munich on Hitler's birthday, April 20th, and through to VE Day. Fire &

Steel ends with the return of prisoners, demobilization of servicemen, and the beginning of the occupation of Germany. A triumphant concluding volume to one of the most distinguished works of military history of this generation.

The Adhikaris are a regular, happy family - or so they will have you believe. But at the dinner table, a silence hangs heavy over the three children, especially Arihant and Ishan. Twenty-two-year-old Arihant possesses a secret talent and a shattered heart. He yearns for his muse and ex-girlfriend, only to surprise himself when they finally meet after a long and difficult time apart. If only Ishan could share some brotherly advice rather than sneak about, aloof and

increasingly suspicious. Ishan twenty-eight, seems to have the job of his dreams - or at least, his parents' dreams. But how long can he stay torn between two worlds? How long before someone finds out about his evenings: about the place he goes to and the woman he sees. Here is a story set in the calm before a storm - after which nothing will be the same for this seemingly happy household.

Home to Stay Little, Brown Book Group  
Home is no longer the place he left... but it ' s all he ' s got. John Roster is flying to his childhood home in Maine after a medical discharge from the Army. No one will be there to welcome him home other than his cranky grandfather... a personality trait the two men share. No job. No friends. And with a storm canceling all flights at the moment, no plane to catch. Killing time at the USO in the airport, he bonded with a few fellow servicemen also waiting out the storm, as

well as the irrepressible hostess who offered a suggestion... find a purpose by thanking someone who 'd helped while he was stationed overseas. Lucy Carrington 's special project for her history class has come to an end. The letters they had written to a fellow-Maine soldier had stopped now that he was leaving the military. Staring at the picture of the handsome soldier with the haunted eyes, she wished they could meet in person. One day, in the middle of their lesson, he appeared. He 's much more gorgeous in person... and just as haunted. John expected a matronly teacher to greet him, not the bright-eyed, friendly-smile, knock-out that made up the whole package of Lucy. Sparks fly, but he 's got a long way to go to have more to offer than a beat-up former soldier, so he 'll settle for friendship. A new job offer with a

prestigious security firm might lead him to the future he wants. A threat against her thrusts him into the role of protector. Keeping her safe is his mission... earning her love is his goal. And a soldier never quits.

**The Long Walk Home Bookbaby**  
The author, a travel writer and actor, delivers a memoir about how travel helped him become the man he wanted to be, helping him overcome life-long fears and confront his resistance to commitment. From time immemorial, travel has been a pursuit of passion, from adventurers of old seeking gold or new lands, to today's spiritual and pleasure seekers who follow in the footsteps of Elizabeth Gilbert. Some see travel as a form of light-hearted escapism while others believe it has

---

the power to open your mind, forcing you to confront your demons, and discover your true self. The author belongs to this second category of traveler. His memoir follows his excursions to Patagonia, the Amazon, Costa Rica, Baltimore, Vienna, Kilimanjaro, Dublin, and beyond. He uses his wanderlust to examine his motives and desires, and explore his ambivalence about commitment. He ponders his personal life, his acting career, and his impulse to leave home, all building toward one of the most significant moments of his life: his wedding day. His message about the transformative power of travel is universal, and his exploration of the nature and passion of relationships,

both fleeting and enduring, strikes a chord with every man and woman who has ever wondered at the vicissitudes of the human heart.

Reflections on America and the American experience as he has lived and observed it by the bestselling author of *The Greatest Generation*, whose iconic career in journalism has spanned more than fifty years. tumultuous Sixties, up to the present, this personal story is a reflection on America in our time. Tom Brokaw writes about growing up and coming of age in the heartland, and of the family, the people, the culture and the values that shaped him then and still do today. His father, Red Brokaw, a genius with machines, followed the instincts of Tom's mother Jean, and took the risk of moving his small family from an Army base to Pickstown, South Dakota, where Red got a job as a heavy equipment operator in the Army Corps of Engineers' project building the Ft. Randall dam along the Missouri River. Tom Brokaw describes how this move became the pivotal decision in their lives, as the Brokaw family, along with others after World War II, began to live out the American Dream: community, relative prosperity, middle class pleasures and good educations for their children. "Along the river and in the surrounding hills, I had a Tom Sawyer boyhood," Brokaw writes; and as he describes his own pilgrimage as it unfolded—from childhood to love, marriage, the early days in broadcast journalism, and beyond—he also reflects on what brought him and so many Americans of his generation to lead lives a long

Winner of Best Memoir at the  
Parliamentary Book Awards 2020 'Dan Jarvis's story is a belter. It's about love, loss, courage and determination told with his customary modesty which fails to disguise the amazing man behind the story' Alan Johnson Dan Jarvis is an MP and a Mayor, but this is not a book about politics. This is a book about service and

family - specifically his time serving in the elite Parachute Regiment, and the tragic death of his wife Caroline. Dan used to be a soldier, and although soldiering provides the backdrop to some of the book, what it is really about is love, life and death - and all the stuff that goes in between. It is about making decisions when under extreme pressure, about keeping calm, keeping going and keeping a smile on your face - well, most of the time, anyway. Specifically, it is about the two biggest challenges Dan faced and the way he tried to cope with them - taking on the Taliban in Afghanistan, and losing his wife to cancer at a tragically young age. For a long time Dan did not feel ready or able to talk about it, but ten years on, he now wants to tell the story. From the mortal danger and nerve-tangling fear of night-fighting in Helmand province to the aching

heartache of bereavement, this is a unique and compelling memoir by a man of courage and character. Though it has been a hard book for Dan to write, it is a gripping and inspiring one to read.

This a story of pioneers, intrepid aviators, adventurers, tycoons and innovators. It is also a story of dedication and determination, for despite fixed-wing aircraft proving their value over the battlefields of the Western Front during the First World War, convincing governments and public alike that they had a role in peacetime proved far more challenging. The Americans, as inventors of heavier-than-air powered flight, had briefly courted with a passenger airline across Tampa Bay in 1914, yet it took a further nine years for mail to be flown coast-to-coast. In 1919 a British company made the first international scheduled flight between London and Paris, but the continuation of regular services was thwarted by a less-than-enthusiastic government that allowed its generously

---

subsidised French competition, for a short time at least, to fly cross-Channel passenger schedules unimpeded. The British eventually realized that fast links with their Empire were vital, followed the example of the French and Dutch who had forged air links with their cousins in North Africa and the Far East. Meanwhile, in South America, the Germans, forbidden under the Versailles Treaty from any major aircraft-building, were establishing cunning supremacy by forming airlines throughout South America and in China. While America awaited a transcontinental passenger service, Juan Trippe's Pan American Airways was crossing swords with Ralph O'Neill of New York, Rio & Buenos Aires Line (NYRBA) for air supremacy between the US, Brazil, Argentina and elsewhere in Latin America that led to the formation of arguably the world's greatest airline. In Russia, Igor Sikorsky had built a vast passenger-carrying aircraft, the Il'ya Muromets, and politicians debated whether giant airships or fixed-wing aircraft should rule the skies – an issue that was put firmly to bed when the mighty German airship Hindenburg exploded while mooring at Lakehurst in 1937. Robert Bluffield's highly researched and detailed account tells the dramatic stories of explorers such as Kingsford Smith, Lindbergh and Cobham, and flamboyant entrepreneurs, some well known, others forgotten, who risked fortunes and reputations to follow their dreams of reaching and ruling the skies over empires, continents and oceans. Against bewildering adversity, corruption, underhanded deals and dwindling resources, these tenacious individuals braved the elements using primitive,

---

entirely unsuitable equipment to establish earth-shrinking aerial services that criss-crossed the great oceans and the globe's most inhospitable territories. These are the stories of those pioneers \_ of A\_ropostale, CNAC, Air Orient, Imperial Airways, KLM, Deutsche Luft Hansa, Pan Am, SCADTA, The Condor Syndicat, Qantas and others that had a far-reaching impact on the way the modern world would travel.

what drives the human spirit: hope. *Hospitalities* Taylor & Francis  
This collection of imaginative essays traces notions of hospitality across a sequence of theoretical permutations, not only as an urgent challenge for our conflicted present, but also as foundational for ethics and resonant within the play of language. The plural form of the title highlights the inter-implication of hospitality with its exclusive others, holding suspicious rejection in tension with the receptiveness that transforms socio-cultural relations. Geographically, the collection traverses the globe from Australia and Africa to Britain, Europe and the United States, weaving exchanges from south to north, as well

as south to south, and thoughtfully remapping our world. Temporally, the chapters range from the primordial hospitality offered by the earth, through the Middle Ages, to contemporary detention centres and the crisis of homelessness. Thematically, hospitality embraces sites of dwelling and the land, humans and animals in their complex embodiment, spectres and the dead, dolls and art objects. This text openly welcomes the reader to participate in shaping fresh critical discourses of the hospitable, whether in literary and linguistic studies, art and architecture, philosophy or politics.

Calm and kind, and oddly knowledgeable about her, the man helps her through the long journey of understanding where she came from, who she is, and where she is going.

Alzheimer's Disease shows no discrimination, no mercy, nor does it limit its boundaries in its victims and their loved ones. This story reflects one family--a typical, everyday family--who finds itself thrown into an alternate universe and struggles to hold together and just...live. *The Long Road Home* was written as a tribute, a guide, and a memoir to those beautiful souls who lose their way once they are within the grip of this disease, and to their caretakers, and to give, perhaps, a glimpse of hope that the way will be made clear once again.
