So this second volume in the "Lost Starship" series by Vaughn Heppner starts off little after the plot from the first outing wrapped up. The plot picks up a couple of new twists and turns as we realise that there are, perhaps, some new players in the mix and, as the reader is re-acquainted with the Starship of the series title, we see the plot threads developing quite nicely.

The Lost Command Starship 2

The Lost Command (Lost Starship
Series Book 2) Science Fiction Book

Review. This series is my first attempt at reading anything by Heppner but I don't think it will be the last. It's easy reading that doesn't ask the brain to stretch too deep into pondering life questions but for the quick getaway, this is a good series.

[Lost Starship Series by Vaughn Heppner - Goodreads](#)

On his second novel of the Lost Starship series, author Vaughn Heppner brings back the conflicted Captain Maddox and his eclectic crew who despite their faults make saving the universe their obsession. "The Lost Command" appears more character driven than many of Heppner's books.

This is the second book of the Lost Command Starship series that is a

superlative sequel to the first book. The author surely will continue the series. The characters are very well developed. Each with its own distinctive personas. The enemy is well defined. An enemy that is and isn't human.
