The Lost Continent, initially published as a serial in 1899, remains one of the enduring classics of the "lost race" genre. In it we follow Deucalion, a warrior-priest on the lost continent of Atlantis, as he tries to battle the influence of an egotistical upstart empress. Featuring magic, intrigue, mythical monsters, and fearsome combat on both land and sea, the story is nothing if not a swashbuckling adventure.

The Lost Continent was very influential on pulp fiction of the subsequent decades, and echoes of its style can be found in the work of Edgar Rice Burroughs, Robert E. Howard, and others. This book is part of the Standard Ebooks project, which produces free public domain ebooks.

important work on the concept of social change, first published in 1973, puts forward the paradigm of historical change as an alternative to the functionalist theory of evolutionary change. He shows that, in attempting to provide a theory of social change, functionalism reveals itself as a species of 'frozen' evolutionism. Functionalism, he argues, is unable to cope with the mechanisms of historical transitions or account for novelty and emergence; it confuses classification of variations with explanation of processes; and its endogenous view of change prevents it from coming to grips with the real events and transformations of the historical record. In his assessment of functionalism, Dr Smith traces its explanatory failures in its accounts of the developments of civilisation, modernisation and revolution. He concludes that the study of 'evolution' is largely irrelevant to the investigation of social change. He proposes instead an exogenous paradigm of social change, which places the study of contingent historical events at its centre.
