Continuing the Deep Space Nine saga—an original novel from New York Times bestselling author David R. George III! With the ship 's crew suddenly incapacitated, seventy-eight of the 1,300 aboard are abducted—including Sisko 's daughter, Rebecca. But Rebecca had already been kidnapped years earlier by a Bajoran religious zealot, part of a sect believing that her birth fulfilled the prophecy of the arrival of the Infant Avatar. Does her disappearance now have anything to do with the harrowing events of the past? And for what purposes have these enemies taken Sisko 's daughter and the rest of the missing?

Androids used to mingle among us, pretending to be human. Then an alien puppet-master altered their programming. Unknown to us, androids began leaving human society, burning their clothes and peeling off their skin to reveal the chrome-colored bodies underneath. They gathered in a system where a star had exploded, blowing away the atmosphere of a Jupiter-like planet. The supernova had hurled heavy metals against the remaining core. The androids are mining supermetals that can turn ordinary ship weapons and shields into invincible armaments. The altered programming includes human genocide, which will start with a murderous attack on Earth. Luckily, Captain Maddox finds the enemy system. But during a space battle, something happens to hurl Victory thousands of light-years away into the Scutum-Centaurus Spiral Arm. The crippled starship will take years to reach home again. Long before that, Earth will be a radioactive ruin. Now begins a desperate journey in hostile space that will stretch everyone as Maddox strains to reach the Lord High Admiral in time with knowledge about the coming android attack.
