In The Lucifer Effect,  
the award-winning and  
internationally  
respected  
psychologist, Philip  
Zimbardo, examines how  
the human mind has the  
capacity to be  
infinitely caring or  
selfish, kind or  
cruel, creative or  
destructive. He  
challenges our  
conceptions of who we  
think we are, what we  
believe we will never  
do - and how and why  
almost any of us could

be initiated into the  
ranks of evil doers.
