A great safari had come to Africa to make a movie. It had struggled through the jungle in great ten-ton trucks, equipped with all the advantages of civilization. But now it was halted, almost destroyed by the poisoned arrows of the savage Bansuto tribe. There was no way to return. And ahead lay the strange valley of diamonds, where hairy gorillas lived in their town of London on the Thames, ruled by King Henry the Eighth. Behind them came Tarzan of the Apes with the Golden

Lion, seeking the man who might have been his twin brother in looks - though hardly in courage! The Mad King BoD – Books on Demand THE ORIGINAL MAGAZINE TEXT! All Lustadt was in an uproar. The mad king had escaped. Little knots of excited men stood upon the street corners listening to each latest rumor concerning this most absorbing occurrence. Before the palace a great crowd surged to and fro, awaiting they knew not what. For ten years no man of them had set eyes upon the face of the boy-king who had been hastened to the grim castle of Blentz

upon the death of the old king, his father. There had been murmurings then when the lad's uncle, Peter of Blentz, had announced to the people of Lutha the sudden mental affliction which had fallen upon his nephew, and more murmurings for a time after the announcement that Peter of Blentz had been appointed Regent during the lifetime of the young King Leopold, "or until God, in His infinite mercy, shall see fit to restore to us in full mental vigor our beloved monarch." But ten years is a long time. The boy-king had become but a vague memory to the subjects who could recall him at all. There were many, of course, in the capital city, Lustadt, who still retained a mental picture of the handsome boy who had ridden out nearly every morning from the palace gates beside the tall, martial figure of the old king, his father, for a canter across the broad plain which lies at the foot of the mountain town of Lustadt; but even these had long since given up hope that their young king would ever ascend his throne, or even that they should see him alive again.

HELIUM, June 8th, 1925 MY DEAR MR.

BURROUGHS: It was in the Fall of nineteen seventeen at an officers' training camp that I first became acquainted with John Carter, War Lord of Barsoom, through the pages of your novel "A Princess of Mars." The story made a profound impression upon me and while my better judgment

assured me that it was but a highly imaginative piece of fiction, a suggestion of the verity of it pervaded my inner consciousness to such an extent that I found myself dreaming of Mars and John Carter, of Dejah Thoris, of Tars Tarkas and of Woola as if they had been entities of my own experience rather than the figments of your imagination. It is true that in those days of strenuous preparation there was little time for dreaming, yet there were brief moments before sleep claimed me at night and these were my dreams. Such dreams! Always of Mars, and during my waking hours at night my eyes always sought out the Red Planet when he was above the horizon and clung there seeking a solution of the seemingly unfathomable riddle he has presented to the Earthman for ages.

The Efficiency Expert is a 1921 short novel by American writer Edgar Rice Burroughs. One of a small number of Burroughs' novels set in contemporary America as opposed to a fantasy universe, The Efficiency Expert follows the adventures of Jimmy Torrance as he attempts to make a career for himself in 1921 Chicago. The book is remarkable for the criminal livelihoods of the hero's friends. It was also admitted to be a fictionalization of Burroughs' own difficulties in finding a job prior to becoming a best-selling writer. Though written in 1919, it was first published in the October 1921 edition of the All-Story Weekly magazine. The first book publication was by House of Greystoke in 1966.

Edgar Rice Burroughs wrote this tale of confused identity and royal intrigue in 1914 and 1915, as World War I was getting ready to happen: it means to be an homage to Anthony Hope's *Prisoner of Zenda*. But, of course, it isn't Hope writing, but Burroughs: the events that led to the war inform the book, and it speaks to the real events happening as Burroughs wrote. That makes it a very different story from Hope's almost-whimsical novel. Part of the reason Burroughs left such a lasting mark on the world is because he was engaged in the events that surrounded him; the news troubled him deeply and personally. As well it might! He was writing, as he always did, on fantastical topics; but it is the fantastic nature of the twentieth century that is the real text of the man's career. The events that shape our own times now inform the work at hand: Edgar Rice Burroughs is generally described as a "Pulp Writer" -- that's code for a successful hack -- but the truth is that he was much, much more.

Von Der Tann, Leopold's promised bride and then becomes intimately involved in Luthan affairs, working to help the king and ultimately allowing himself to be proclaimed as king while impersonating Leopold to prevent Prince Peter from seizing the throne. Unfortunately, after his coronation, King Leopold discovers the shared love between Barney and Princess Emma, and Barney is forced to leave Lutha, mimicking the flight of his father years earlier, though his father left with a princess--Barney has only a soldier. Thus ends part one. In the second part of the novel, the European skies are darkening as World War I has begun. In Lutha, King Leopold has proven himself to be a bad ruler and has not yet persuaded Princess Emma to marry him. In Nebraska, Barney's soldier friend leaves the farm to return to Lutha. Barney himself is attacked by one of Prince Peter's henchmen and he decides to return to Lutha as well. After an adventurous trip across war-torn Europe, which includes being mistaken for a spy by the Austrians and barely escaping a firing squad, Barney finally reaches Lutha, where he once again is forced to impersonate the king in order to save Lutha from the advancing Austrians. He makes a diplomatic

alliance with Serbia, and defeats the Austrians in person, thereby saving Lutha. The real king Leopold, who has been his antagonist throughout the second part of the novel, is mistaken for Barney and killed by one of Prince Peter's henchmen. Barney then consents to remain as king of Lutha, married at last to Princess Emma.
