Based on the provocative and

popular New York Times
op – ed, this memoir
alternates between the
examination of a
working – class upbringing
and a cultural analysis of the
historical, psychological, and
sociological sources that make
up the roots of toxic

masculinity and its impact on

society. As progressivism changes American society, and globalism shifts labor away from traditional manufacturing, the roles that have been prescribed to men since the Industrial Revolution have been rendered obsolete. Donald Trump's campaign successfully leveraged male resentment and entitlement, and now, with Trump as president and the rise of the #MeToo movement, it's clear that our current definitions of masculinity are outdated and even dangerous. Deeply personal and thoroughly researched, the author of *The People Are Going to Rise Like the Waters Upon Your Shore* has turned his keen eye to our current crisis of masculinity using his upbringing in rural Indiana to examine the personal and societal dangers of the patriarchy. *The Man They Wanted Me to Be* examines how we teach boys what's expected of men in America, and the long-term effects of that socialization which include depression, shorter lives, misogyny, and suicide. Sexton turns his keen eye to the establishment of the racist patriarchal structure which has favored white men, and investigates the personal and societal dangers of such outdated definitions of manhood. "By carefully and soberly examining his own story, Sexton deconstructs American life and gives many examples of how pervasive toxic masculinity is in our culture." Henry Rollins, *Los Angeles Times* "This book is critically important to our historical moment . . . Crackles with intensity and absolutely refuses to allow the reader to look away for even a

moment from the blight that toxic masculinity in America has wrought." Nicholas Cannariato, NPR

The Making Of A Man

Thomas Nelson

From an acclaimed historian comes an authoritative and balanced biography of FDR, based on previously untapped sources No president looms larger in twentieth-century American history than Franklin Delano Roosevelt, and few life stories can match his for sheer drama. Following in the footsteps of his

Republican cousin President Theodore Roosevelt, FDR devoted himself to politics as a Democrat and a true man of the people. Eventually setting his sights on the presidency, he was elected to office in 1932 by a nation that was mired in the Great Depression and desperate for revival. As the distinguished historian Alonzo Hamby argues in this authoritative biography, FDR's record as president was more mixed than we are often led to believe. The New Deal provided much-needed assistance to millions of Americans, but failed to restore prosperity, and while FDR became an outstanding commander-in-chief during World War II, his plans for the postwar world were seriously flawed. No less perceptive is Hamby's account of FDR's private

life, which explores the dynamics of his marriage and his romance with his wife's secretary, Lucy Mercer. Hamby documents FDR's final months in intimate detail, claiming that his perseverance, despite his serious illness, not only shaped his presidency, but must be counted as one of the twentieth century's great feats of endurance. Hamby reveals a man whose personality -- egocentric, undisciplined in his personal appetites, at times a callous user of aides and associates, yet philanthropic and caring for his nation's underdogs--shaped his immense legacy. *Man of Destiny* is a measured account of the life, both personal and public, of the most important American leader of the twentieth century.

From #1 New York Times bestselling author Jeffrey Archer The sweeping saga of the Cliftons—across generations, from Europe to America, through heartache and rivalry and triumph—is about to reach its stunning conclusion. Harry Clifton 's story began in 1920, as a dock worker in England, and now he is set to write his magnum opus. As he reflects on his days, the lives of his family continue to unfold, unravel, and intertwine in ways no one could have imagined . . . Harry ' s wife Emma, who just completed her time at the Bristol Royal Infirmary, receives a surprise call

from Margaret Thatcher.

Meanwhile, Giles Barrington discovers a shocking truth about his wife, Karin. Sebastian Clifton becomes chairman of Farthings Kaufman bank, but only after Hakim Bishara ' s abrupt resignation. Sebastian ' s daughter Jessica is expelled from school, but her aunt Grace comes to the rescue. And Lady Virginia, who is set to flee the country to avoid her creditors, finds an opportunity to clear her debts after the Duchess of Hertford dies—and a way to finally trump the Cliftons and Barringtons. Childbirth in England, 1660-1770 Central Chinmaya Mission Trust

Revised and updated and now in paperback. A devotional for men to give guidance, encouragement, and reassurance to help them triumph over current day challenges.

—Adam Gopnik, The New Yorker The epic story of how coffee connected and divided the modern world Coffee is an indispensable part of daily life for billions of people around the world. But few coffee drinkers know this story. It centers on the volcanic highlands of El Salvador, where James Hill, born in the slums of Manchester, England, founded one of the world ' s great coffee dynasties at the turn of the twentieth century. Adapting the innovations of the Industrial Revolution to plantation agriculture, Hill helped turn El Salvador into perhaps the most intensive monoculture in modern history—a place of extraordinary

productivity, inequality, and violence. In the process, both El Salvador and the United States earned the nickname “Coffeeland,” but for starkly different reasons, and with consequences that reach into the present.

Provoking a reconsideration of what it means to be connected to faraway people and places, Coffeeland tells the hidden and surprising story of one of the most valuable commodities in the history of global capitalism. *Man Before History* Thomas Nelson

The first volume in a pioneering account of Oliver Cromwell--providing a major new interpretation of one of the greatest figures in history Oliver Cromwell (1599-1658)--the only English commoner to become the overall head of state--is one of the great figures of history, but his character was very

complex. He was at once courageous and devout, devious and self-serving; as a parliamentarian, he was devoted to his cause; as a soldier, he was ruthless. Cromwell's speeches and writings surpass in quantity those of any other ruler of England before Victoria and, for those seeking to understand him, he has usually been taken at his word. In this remarkable new work, Ronald Hutton untangles the facts from the fiction. Cromwell, pursuing his devotion to God and cementing his Puritan support base, quickly transformed from obscure provincial to military victor. At the end of the first English Civil War, he was poised to take power. Hutton reveals a man who was both genuine in his faith and deliberate in his dishonesty--and uncovers the inner workings of the man who has puzzled biographers for centuries.

Toxic Masculinity and a Crisis of Our Own Making

Moody Publishers

The transformation from boy into man requires intentional guidance, education, and good role models. As a boy grows toward manhood, his parents can instill in their son the values and character traits needed to succeed in life. Highlighting famous Christian men throughout history and the character trait that made each an outstanding model of manhood, parenting expert Rick Johnson gives moms and dads intentional strategies to help mold their sons into honorable men.

The book includes men such as

- Martin Luther King Jr.

- George Washington
- John Wooden
- Abraham Lincoln
- Jedediah Smith

- Benjamin Franklin
- Leonardo da Vinci

- and more

With passion and practicality, Johnson covers all aspects of a young man's development, including his work ethic, education, and integrity.

No Man Left Behind Basic Books

The relationship between a father and a son is like none other. Dads have a God-given role to protect and provide for their families, always striving to teach their sons the life skills they'll need to grow into honorable men. But many dads struggle with feelings of inadequacy regarding their fathering abilities. They want to be better dads. Rick Johnson can show them how. In this insightful and practical book, Johnson shows how fathers can be equipped and inspired to be positive role models for their sons. He stresses the significance of

male bonding, discipline, and spiritual leadership; discusses important topics such as sexual purity, respect, and self-discipline; and reveals the top ten mistakes to avoid as a father. From commitment and courage to honesty and humility, Better Dads, Stronger Sons helps men strive to be the dads God designed them to be--so their sons can grow to be everything they are meant to be.

An Orientation Book
University of Toronto Press
Originally published in 1988, this book analyses the effect of public boarding school on those boys who grew to manhood under its influence. With access to over 2000 letters written by

parents to the Head Master and governors of Ellesmere College in the period 1929-50, it raises issues about the construction of masculinity in the mid-twentieth century. The author demonstrates from these candid letters the concerns of a small group of parents bringing up their sons: their aspirations, plans, fears and problems. She shows how parents' plans changed, sometimes very dramatically, due to the Second World War, and demonstrates the differences between social groups as diverse as clergy, widows and farmers in bringing up their sons. The author also presents fascinating and elusive evidence about the sons themselves and the effects of their schooling on their models of masculinity, sexuality and attitudes to

women. This book places the particular concerns of a relatively small group within the much wider contexts of education, social and gender structure.

Pujya Gurudev Swami
Chinmayananda made it a priority to revive the young generation of Indians, who were drifting through life without any clear goals, vision or direction. He believed that growth of the newly independent India could only be achieved by a motivated and clear-headed generation of youngsters. In order to inspire the youngsters of India and show them the possibilities of a nobler life, Gurudev delivered a series of fiery 10-minute talks on All India Radio, based on the Bhagavad-gita. He gave this ancient wisdom a contemporary context and presented in a form that was palatable and

practical to the modern youngsters. Although delivered in the 1960s, these teachings are as relevant, fresh and inspiring today as they were 40 years ago. 114

From his cavernous voice and unparalleled artistry to his fearless struggle for human rights, Paul Robeson was one of the twentieth century's greatest icons and polymaths. In Everything Man Shana L. Redmond traces Robeson's continuing cultural resonances in popular culture and politics. She follows his appearance throughout the twentieth century in the forms of sonic and visual vibration and holography; theater, art, and play; and the physical environment. Redmond thereby creates an imaginative cartography in which Robeson remains present and accountable to all those he inspired and defended. With her bold and unique theorization of antiphonal life,

Redmond charts the possibility of continued communication, care, and collectivity with those who are dead but never gone.

Better Dads, Stronger Sons

An electrifying biography of one of the most extraordinary scientists of the twentieth century and the world he made. The smartphones in our pockets and computers like brains. The vagaries of game theory and evolutionary biology. Nuclear weapons and self-replicating spacecrafts. All bear the fingerprints of one remarkable, yet largely overlooked, man: John von Neumann. Born in Budapest at the turn of the century, von Neumann is one of the most influential scientists to have ever lived. A child prodigy, he mastered calculus by the age of eight, and in high school made lasting contributions to mathematics. In Germany, where he helped lay the foundations of quantum mechanics, and later at Princeton, von Neumann's colleagues believed he had the

fastest brain on the planet—bar none. He was instrumental in the Manhattan Project and the design of the atom bomb; he helped formulate the bedrock of Cold War geopolitics and modern economic theory; he created the first ever programmable digital computer; he prophesized the potential of nanotechnology; and, from his deathbed, he expounded on the limits of brains and computers—and how they might be overcome. Taking us on an astonishing journey, Ananyo Bhattacharya explores how a combination of genius and unique historical circumstance allowed a single man to sweep through a stunningly diverse array of fields, sparking revolutions wherever he went. The Man from the Future is an insightful and thrilling intellectual biography of the visionary thinker who shaped our century.

Body Building Harvard

When I was younger, I was never satisfied with who I was or what I was doing. I was always looking for something

that I could never find. I was in turmoil about practically everything. Every time I would try to do something that I thought was a good thing, it would turn out to be something that would make someone mad or cause problems for me. The accident made it hard for me to understand and be reasonable about things. I had my own thoughts about things and my family consistently questioned my decisions. My family would question my physical, mental and psychological decisions, which made me feel unbalanced and incomplete. I would ask myself the questions why me? Why was I chosen for the life I was forced to live? I could not understand why things seemed to go against me in life and it seemed as if everyone around me was living life the right way or with all the good benefits. As I got older and more mature, life for me began to change. When I found God

and His direction for me, I realized that I had spent all my life searching to be included and loved; when the whole time I was accepted into the family of Christ and loved by God

The Making of Oliver
Cromwell Taylor & Francis

“ This is the book of the generation of heaven and earth , ” saith the Scripture, when all that is seen was finished, and each of the things that are betook itself to its own separate place, when the body of heaven compassed all things round, and those bodies which are heavy and of downward tendency, the earth and the water, holding each other in, took the middle place of the universe; while, as a sort of bond and stability for the things that were made, the Divine power and skill was implanted in the growth of

things, guiding all things with the reins of a double operation (for it was by rest and motion that it devised the genesis of the things that were not, and the continuance of the things that are), driving around, about the heavy and changeless element contributed by the creation that does not move, as about some fixed path, the exceedingly rapid motion of the sphere, like a wheel, and preserving the indissolubility of both by their mutual action, as the circling substance by its rapid motion compresses the compact body of the earth round about, while that which is firm and unyielding, by reason of its unchanging fixedness, continually augments the whirling motion of those things which revolve round it, and

intensity is produced in equal measure in each of the natures which thus differ in their operation, in the stationary nature, I mean, and in the mobile revolution; for neither is the earth shifted from its own base, nor does the heaven ever relax in its vehemence, or slacken its motion.
