Toxic political dialogue, hate-filled rants on social media, and agenda-driven news stories have become the new norm. But it doesn't have to be this way. In *I Think You're Wrong (But I'm Listening)*, two working moms from opposite ends of the political spectrum teach us that politics don't have to divide us. Sarah Stewart Holland and Beth Silvers, co-hosts of *Pantsuit Politics*, recently named an Apple Podcasts Show of the Year, give you all of the tools you need to: Respect the dignity of every person Recognize that issues are nuanced and can't be reduced to political talking points Listen in order to understand Lead with grace and patience Join Sarah from the left and Beth from the right as they teach you that people from opposing political perspectives truly can have calm, grace-filled conversations with one another. A personal narrative and guide to the safe,

responsible use of MDMA for personal healing and social transformation • Details the author's 50 years of responsible experimentation with mind-altering substances and how Ecstasy has helped him become a better therapist • Explains how he and his wife found Ecstasy to be the key to renewing and enriching their lives and marriage as they entered their senior years • Describes what the experience actually feels like and provides protocols for the safe, responsible, recreational, and celebrational use of MDMA for individuals and groups In a world that keeps us separate from each other, MDMA is the chemical of connection. Aptly known in popular culture as "Ecstasy," MDMA helps us rediscover our own true loving nature, often obscured by the traumas of life. On its way to becoming a prescription medication due to groundbreaking research on its use to treat PTSD, Ecstasy can offer benefits for all adult life stages, from 20-somethings to seniors. In this memoir and guide to safe use, Charles Winger, a licensed psychoanalyst and mental health counselor, details the countless ways that Ecstasy has helped him become a better therapist and husband. He recounts his coming of age in the 1960s counterculture, his 50 years of responsible experimentation with mind-altering substances, and his immersion in the new psychedelic renaissance. He explains how he and his wife found Ecstasy to be the key to renewing and enriching their lives as they entered their senior years. It also strengthened the bonds of their marriage. Countering the fearful propaganda that surrounds this drug, Winger describes what the experience actually feels like and explores the value of Ecstasy and similar substances for helping psychologically healthy individuals live a more "optimal" life. He provides protocols for the responsible, recreational, and celebrational use of MDMA, including how to perfect the experience, maximize the benefits and minimize the risks, and how it may not be for everyone. He reveals how

MDMA has revitalized his marriage, both erotically and emotionally, and describes how pleasure, fun, and joy can be profound bonding and transformative experiences. Revealing MDMA's versatility when it comes to bringing lasting renewal, pleasure, and inspiration to one's life, Winger shows that recognizing the transformative power of happiness-inducing experiences can be the first step on the path to healing. Getting through to someone is a critical, fine art. Whether you are dealing with a harried colleague, a stressed-out client, or an insecure spouse, things will go from bad to worse if you can't break through emotional barricades and get your message thoroughly communicated and registered. Drawing on his experience as a psychiatrist, business consultant, and coach, author Mark Goulston combines his background with the latest scientific research to help you turn the "impossible" and "unreachable" people in their lives into allies, devoted customers, loyal colleagues, and lifetime friends. In *Just Listen*, Goulston provides simple yet powerful techniques you can use to really get through to people including how to: make a powerful and positive first impression; listen effectively; make even a total stranger (potential client) feel understood; talk an angry or aggressive person away from an instinctual, unproductive reaction and toward a more rational mindset; and achieve buy-in--the linchpin of all persuasion, negotiation, and sales. Whether they're coworkers, friends, strangers, or enemies, the first make-or-break step in persuading anyone to do anything is getting them to hear you out. The invaluable principles in *Just Listen* will get you through that first tough step with anyone. With this

groundbreaking book, you will be able to master the fine but critical art of effective communication.

What She Said & What I Heard

Farrar, Straus and Giroux

We live in a world of noise where everyone is so quick to speak. When we slow down and give someone our full attention, we offer them a safe place to be fully heard and accepted. Hear's the Thing is a story about what is possible when someone is brave enough to listen to others... and, ultimately, themselves without judgement. For Cody Alan, one of country music's most famous on-air radio and TV personalities, listening to other people has always been a crucial part of his role. It was by fostering his ability to hear others that he discovered the person he most needed to listen to was himself.

Listening ultimately led him on a journey of self-discovery where he found the courage to come out as gay, the openness to question spiritually, and the strength to explore a new definition of parenting and family. In his debut memoir, Hear's the Thing, Cody shares some of the many lessons he's learned along the way such as: How to actively listen with empathy and without judgment Why a willingness to "let people in" better equips you to receive from others How genuine attentiveness can help you build healthier and deeper relationships The art of listening is often lost but Cody's story will inspire you to hear that inner voice that is leading you to a deeper connection with yourself and the people around you.

Throughout the twentieth century, Isamu Noguchi was a vital figure in modern art. From interlocking wooden sculptures to massive steel monuments to the elegant Akari lamps, Noguchi became a master of what he called the "sculpturing of space." But his constant struggle—as both an artist and a man—was to embrace his conflicted identity as the son of a single American woman and a famous yet reclusive Japanese father. "It's only in art," he insisted, "that it was ever possible for me to find any identity at all." In this remarkable biography of the elusive artist, Hayden Herrera observes this driving force of Noguchi's creativity as intimately tied to his deep appreciation of nature. As a boy in Japan, Noguchi would collect wild azaleas and blue mountain flowers for a little garden in front of his home. As Herrera writes, he also included a rock, "to give a feeling of weight and permanence." It was a sensual appreciation he never abandoned.

When looking for stones in remote Japanese quarries for his zen-like Paris garden forty years later, he would spend hours actually listening to the stones, scrambling from one to another until he found one that "spoke to him." Constantly striving to "take the essence of nature and distill it," Noguchi moved from sculpture to furniture, and from playgrounds to sets for his friend the choreographer Martha Graham, and back again working in wood, iron, clay, steel, aluminum, and, of course, stone. Throughout his career, Noguchi traveled constantly, from New York to Paris to India to Japan, forever uprooting himself to reinvigorate what he called the "keen edge of originality." Wherever he went, his needy disposition and boyish charm drew women to him, yet he tended to push them away when things began to feel too settled. Only through his art—now seen as a powerful aesthetic link between the East and the West—did Noguchi ever seem to feel that he belonged. Combining the personal correspondence of and interviews with Noguchi and those closest to him—from artists, patrons, assistants, and lovers—Herrera has created an authoritative biography of one of the twentieth century's most important sculptors. She locates Noguchi in his friendships with such artists as Buckminster Fuller and Arshile Gorky, and in his affairs with women including Frida Kahlo and Anna Matta Clark. With the attention to detail and scholarship that made her biography of Gorky a finalist for the Pulitzer Prize, Herrera has written a rich meditation on art in a globalized milieu. Listening to Stone is a moving portrait of an artist compulsively driven to reinvent himself as he searched for his own "essence of sculpture."

Stuart Watson spent his first career earning a living by talking. His whole identity was wrapped up in being a Peabody-award-winning investigative reporter. Then he turned 55 and got fired. He began to doubt himself. He flirted with suicide. To escape such dark thoughts, he began a five-year odyssey conducting dozens and dozens of interviews for a podcast, a book, and a film. Increasingly, those interview subjects were women. But all too often, Stuart interrupted or "mansplained" or flat-out argued. It didn't work. So gradually he learned how to stop talking over women and really listen to them. The result is this book and a podcast called ManListening, in which Stuart elevates the stories of a diverse group of strong women who bounced back. What She Said & What I Heard is a memoir told through a series of profound moments where a woman said something that Stuart actually heard. He shifted and changed because in a moment, he really listened. This book is for broken people and the people who don't know how to hear them. If you're still reading, you're one of us.
