The Martian Tales Trilogy  
When a meteorite lands in Surrey, the locals don't know what to make of it. But as Martians emerge and begin killing bystanders, it quickly becomes clear—England is under attack. Armed soldiers converge on the scene to ward off the invaders, but meanwhile, more

Martian cylinders land on Earth, bringing reinforcements. As war breaks out across England, the locals must fight for their lives, but life on Earth will never be the same. This is an unabridged version of one of the first fictional accounts of extraterrestrial invasion. H. G. Wells's military science fiction novel was first published in book form in 1898, and is considered a classic of English literature. John Carter and the Gods of Hollywood Simon and Schuster

Dynamite Entertainment "Synthetic men of mars" is the ninth book of the Edgar Rice Burroughs Martian series,

this book was featured in the newspaper "Argosy Weekly" in six parts released in early 1939. Dejah Thoris, princess of Helium, is badly injured in a deadly collision of two space crafts. Ras Thavas returns as the Mastermind of Mars. Thavas creates a race of supermen on Mars that must be defeated before the entire planet faces a complete totalitarianism. This book was

written in the perfect era on the brink of a World War, when the fear of world domination was close at hand. The War of the Worlds The Floating Press This collector-quality edition includes the complete text of the third of Edgar Rice Burroughs' "Martian Novels" in a freshly edited and newly typeset edition, commemorating the 100th anniversary of his first

published story. With a generous 6x9 page size, this Summit Classic edition is printed on hefty 60# bright white paper with a fully laminated cover featuring an original full color design. Additional material collected and presented for Burroughs' fans, new or old, are an original retrospective essay commenting on the life, work, and widespread and lasting

influence of the author, a new and original biographical sketch of Burroughs' life, and a detailed bibliography of his work. In this, the third of his tales of Barsoom, Burroughs concludes the trilogy that tells the story of the romance between John Carter and Dejah Thoris, who was trapped by the evil false goddess Issus in the Temple of the Sun at the end of "The Gods of Mars."

---

When his enemies flee north, taking Dejah Thoris and two other Martian princesses with them, John Carter pursues all the way to the polar region, discovering bizarre creatures and a hidden race of Martian men. In Edgar Rice Burroughs' trademark style, the former Confederate officer is thrown into a series of non-stop adventures at breakneck pace, precariously finding adversaries on seemingly every page and leading the armies of his allies in battle in this epic adventure that will leave John Carter astride an entire planet as "The Warlord of Mars." "Barsoom" is the native name for the Mars imagined by Edgar Rice Burroughs, a dying world whose oceans have gone dry and whose atmosphere is dissipating, maintained by a massive atmosphere plant, a world where a race of giant green men with four arms roam dry seabeds and vast ancient ruins mounted on reptilian steeds, while a race of coppery-skinned red men maintains an oddly barbaric culture and scientific civilization in sprawling cities and travel in flying cars. If any of this sounds vaguely familiar but you've never

read what has over the years become known as Edgar Rice Burroughs' science fiction "Martian series" it's not surprising. Burroughs didn't "invent" planetary romance, lost civilizations, islands populated by dinosaurs and primitive men or any of the kinds of fiction he wrote. But he literally re-invented adventure fiction across the board and his indelible stamp on the

work of writers, originally filmmakers, television producers and scientists is still apparent a hundred years after his first published story. Burroughs is known the world over as the creator of Tarzan, the Ape Man. Tarzan became a cultural phenomenon almost immediately upon his appearance, but before Tarzan there was John Carter of Mars. Burroughs' first published

work, originally appeared in serial form with the title "Under the Moons of Mars" in 1912. Like many of Burroughs' pulp magazine serials, the story was later published in book form by Chicago publisher A. C. McClurg. The original McClurg version re-titled the story as "A Princess of Mars," the name by which it has been known ever since. Burroughs' first published work three Martian

novels, "A Princess of Mars," "The Gods of Mars" and "Warlord of Mars" form a cohesive trilogy that will ultimately leave the mighty John Carter as the most powerful warlord astride a fantastic, savage planet. Summit Classic Press editions of these three novels are available separately in a handsome matched set. They are also available from Summit Classic Press in a single large format omnibus edition titled "John Carter, Warlord of Mars," ISBN-978-1-47502166-0. Swords of Mars Simon and Schuster This book is a science fiction novel, the third of the famous Barsoom series. Far to the north, in the frozen wastes of Polar Mars, lay the home of the Holy Therns, sacred and inviolate. Only John Carter dared to go there to find his lost Dejah Thoris and discovers more fantastic creatures and ancient mysterious Martian races. But between him and his goal lay the bones of all who had gone before. The book keeps up the level of energy and adventure established in the first two novels and makes for an exciting conclusion to this three-part story arc. In the books that would follow, the saga shifted

its focus away from John Carter, Dejah Thoris, and Tars Tarkas to chronicle the exploits of other characters. While the Martian tales of the author were all fun, there is something about this initial "trilogy" that has a charm to them that's never quite repeated.
